

not. I know that he drives a taxi and they got a room up there somewhere. Him and his wife. I just don't know where they live, but I know that he drives a taxi.

ACCIDENT WHICH HAPPENED TO MARY:

(What happened? You said one time you were in an accident and you got your teeth busted up.)

Oh, I just got in a wreck. We hit a bank and our car went over and knock all my teeth out.

(When was that?)

Yeah of '48.

(Where were you then?)

We was just in town riding around and rode out west to the church, you know, and was coming back and we hit the bank. We give the other car room to go by and--you know then the road wasn't so good like this, you know, it was just a dirt gravel road like this out there to the church and back. That's were I run into that bank.

We turn over. We just turn side ways, you know, we went up the hill like that and went over. How come I hit all that front and mashed my teeth all up. Bust it right here and right here, right through here. My mouth really was bad. Right through here. All on one side. You could tell all on one--scars all over. But this day it's all right.

(I never noticed that till you told me.)

And right there. Right in here. (pointing to slight scars on the upper left side of her face.) They had to take all my teeth out. Put me to sleep. Was getting infected, they had to do it.

UNCLE'S DOCTORING:

(You said that a long time ago you were sick and your uncle doctored you, what were you sick of then?)
