

Just like what they're learning.

(Did they have any work for you to do?)

No. We just fix our bed and see that the work was done. We go in the kitchen and wash dishes. And set the table; wait on the tables. And the cook lady, she got somebody else to help. But the girls done the--gather the dishes and take them in there and wash them. When we get through, we go out.

(Did they ever have any cooking classes or sewing?)

Yeah. We sew. They learn us how to sew. We got sewing room. Government furnish the machines. Singer machines. We all--there's where I learn how to sew. I know how to sew dresses and shirts--men's shirts--underwear.

(What kind of clothes did the children wear at school?)

Well, I can't tell you. Just like this. Government furnish the goods (piece goods) like these (referring to her own Indian-style dress) and give it to us. We make dresses.

(Did you make your own dresses?)

Yeah. Make children's dresses. They measure it. They cut it out there. We sew it.

RECREATION AT SCHOOL

(Did you ever have any kind of entertainment at school, or parties or picnics?)

Yeah, we had picnic, and we had little parties. But we don't dance. It's a Christian church. We just had--some cake, something, during something like that. Played games. "We are marching to--" (singing this) "Go in and out the windows--" (singing this) Just like that. We just play that kind of games. We don't dance. No. It's a Christian church.

(Could you tell me about any of the picnics?)

We always go picnic under the trees way out there. We travel on a wagon.
