

ment. They are without a business committee. I am going to recommend to you how this money shall be dispersed. All right, how you gonna get your voice up there unless you go yourself. You have no authority to send a delegation and your voice will not be heard up there in congress. It had been hadled that he have other tribes. That's why we know. Now going back to experience again when we got this other claim payment we had a committee. Your government, your appointed committee serving (--) they're expressing you. We were authorized as a delegation when we got this claim to meet with the BIA in Washingto and also members of Congress to get a bill introduced. All right, your voice through the committe, through this delegation, put in the bill. The bill authorized the tribal government body of the three tribes to say how they wanted this money handled. All right, that's just what we wanted. So we got the power bake into our hands. And the first thing we did was give you a percapita payment and you got it. There's nobody cannot deny that. The records will prove it. The records are right there in Anadarko. And in the central office. Our resolution on how and who shall share in on this now a matter of record. We fought hard for you folks, all you people. The people in Wabhhington, the Sec. of Interior and on down through the commissioners office wanted to hold your childrens money until they were 21. Some of you all still today still have children less than 21. We said, no lets give it to them now. It's there's let 'em enjoy it don't let 'em wait till their 21. Cause no one knows if they will even reach 21 or not. So out fought 'em. We out argued them and therefore your children also got same amount you did. We want to do the same thing. All of our hands is tied. My hands are tied
