

(I understand sometimes they pretty hard on the Indians in Anadarko?)  
 Oh, there rough on them. That's what they are. That's what I made (--)  
 pure deal there. Course now, I ain't on no Old age assistance. I made  
 my living and I draw social security. f And this is gonna cost me right  
 smart, and I just asked them down at the doctors office, some people  
 thinks you have to be in the hospital but I didn't want to go to the  
 hospital. So they told me down there, well did you. Well hospital you  
 have to pay the first fourty dollars there. And then he said, all I  
 do is pay \$50 down here and then he said, he probably could get part of  
 that back from me. And Mae Pure will take care of the rest. Well now  
 that ain't bad.

(No, it's not.)

So I just and--

BENEFITS OF TODAY:

(Well what do you think about the--you said you wished you could go  
 back, wished the country was like it was--in the old days, what do you  
 think about all the things you got now, like Medicare that didn't  
 have back then?)

Well, that's what I might of did, just been talking you know. But  
 now we didn't have that--we didn't have that social security, now I  
 worked for years and I many of horses in the chicken shead--16 years  
 onced a week. And I'd take 'em out and I worked at Enid one year, when  
 we got out 700 or 800 new horses on Saturday. And I walked to El Reno.  
 And I know you can't pert near go ever anywhere over the state and  
 somebody will know me. Somebody (--). And I always try to live to try  
 to have friends. Now you can say what you please but friends is worth  
 more than all the money you cold ask for.
