

itself. That's the only way I use it--for medicine. And medicine that would cure your mind--if you're mentally ill, or use it--or worried or troubled in mind--you go in there and it'll help. That's the only way I use it.

DECISION OF OLD TIME K-A LEADERS TO BAN POWER DISPLAYS:

(You were talking about this meeting at Apache John's--why did they get together and decide to leave their arrows outside?)

Well, that's a good question, but the only conclusions I come to is that they didn't want their magic powers to come this far. They want to retain it and take it with them. Cause they say it's wicked to perform magic powers. And it's, what you might say, if you learn those things, you sacrifice one of your relatives. Your son or your daughter or your niece or your nephew has to die for that power. That's the reason they didn't want us to carry it on that way. That's just my own conception of that statement. However that seems logical that they didn't want us to use these powers cause we don't nothing how to handle it. You know anything you don't know anything about, you're bound to misuse it or make a mistake--

(I just wonder why--if they, themselves, already had these powers--why they decided not to use it in the--)

Well, it's just like changing of times. You could see that. Times will change. It's in the Bible, too. See, our history corresponds with the Bible. I can't explain that really, but I can explain my own conception of it.

(Could you tell me about what year or when it was they came to that decision and had that meeting?)

Well, it would be in the 1870's--somewhere in the 70's. Near as I can
