

is coming soon. I think the Indians are prepared to meet their God in the way of, being saved by our Lord Jesus Christ. So that's the thing to do is to prepare ourselves through to do that. As my thinking sitting here at home, it's a problem of this peyote question, people is hurting for this religion. So, now is coming to the time, now they are going to take this religion from us it look like. It's not the right thing, and I urge the people to use this peyote right and worship God in truth and in spirit, like it ought to be. Like it should be, instead of getting out here and misusing it. We're the ones that misused it, and not it's in the hands of the people see.

(White people are misusing it now and causing it to--the church?)

Yes, the white people are misusing it now. So that's the whole thing, since you mentioned this thing and that's about the end of this that I could say that I'm getting hungry now.

OPINION CONCERNING LACK OF COMMUNICATION WITH INDIANS AND WHITE MAN

(Oh, you're not getting hungry. Horton, I just want to bring up one little item then we can quit whenever you want to, we've had a lot of visits together, oh day and night and riding in the pick-up and sitting around the campfire. And some of it's covered, oh, a lot of things but this is kind of a general question. I don't know whether you'll want to answer this or not, but we talked about this. What are some of the things that you think has been the big problem between the Indians and the white people? Not necessarily today, but in your talking with other Indians, and telling the white people, what has been some of the big mistakes that both groups, particularly white people have made with regard to the Indian people? That's a big question that I wouldn't even ask a college prof, but I think maybe in our talking together, I'd like for you to just kinda express yourself briefly if you'd like to, some of the problems that have happened. I know I have some of my opinions about it.)
