

(And it just built up from that then?)

That's all new across the street.

INDUSTRY WAS SCARCE IN EARLY DAYS

(What has been the industry here in this life.)

Oh, farming is about all we ever done. Now up toward the charcoal mill that's the only natural resource we have here and it was brought in here later. It was put in by Mason Bean and Fleming from Kansas City. I don't recollect what year it was though. But it's been here. I think I can call Raymond and find out. Believe I'll do that jest for my own satisfaction.

STORY OF THE OLD CHURCH BUILDING

(What is the story on the old church building here?)

Woman: That was built in 1909. My brother was killed the year that was put up.

(Static for about one minute) The old church around here was already done gone when this was built. They moved in it. Then they--it was too small then they built the third on down there. When they come in here one of the first things they did was establish the church.

(End of the Trail of Tears for them.)

That's it. If you have any history on that. They's a lot a history on that here too.

(Woman: Is that in that book there that you got?

Probably. (woman talking in background) Don't recollect what year, you want that.

(Well not necessairly if it -----)

PEOPLE MADE LIVING BY FARMING AND MAKIN RAILROAD TIES

Well as I speak of it they was, Mr. Howard owned the store down here. He also owned the back in Westville -- The People's Bank and I remember Charcoal
