

There was much activity and there was an air of gaiety and laughter among the bridesmaids while putting on our clothes. We put our clothes on, in the living room. It was a large living room and we laughed and talked while we were dressing ourselves and of course, the lady was putting on my clothes and as I observed around the room there was an air of gaiety and laughter, and it was just a happy occasion.

(And when you were riding this car to the actual ceremony, were you driving the car yourself or did you have a driver, or just how did you get down there?)

One of my cousins was chosen to drive me to the other camp. She was a cousin and she was dressed in her ceremonial garments as a bridesmaid, which were elaborate and beautiful, and she drove me down there.

(Now when you reached the wedding feast, can you describe and can you remember, just what foods you had that day?)

(End of Side A. This interview continues on Side B.)
