

MRS. MAKER AND HUSBAND RENEWED INTEREST IN THE GAME AFTER A TIME

(Uh...now as it was later on. Uh...when you grow old when you was growing older.

Do you still recall these Osages playing this game?)

Yes. Only place I have known to be playing this is at our place north of Hominy.

That was after I was married and had a family. And my husband and I...we had started this game again.

(And what...what prompted you to uh...how come you uh, uh started this game again?

Did you uh...was this just because you wanted to have some people. I don't recall it myself but I mean did you have a gathering and just thought you'd just have

(Do you recall any of them that came at that time. I mean who came. Now...I kind of don't remember. I remember lot of people there. But I don't remember who it was.)

Well, I just don't recall, recall who all came. It was quite a few of them came.

RECALLS THAT MANY PEOPLE CAME AND SOME CAMPED OVERNIGHT

(For instance, now there's his family...his family...now who all was that was in his family that came. Can you recall that now? His was his...my grandmother living with you at the time?)

Yes..

(And now he had brothers...did they camp..did they come? I remember a lot of people myself that I thought was around that.. It's like my aunt Florence did
