

I remember long before that was ever built.

(Well.)

Long before the Duncan Hotel was--

(Yeah. Just to look at Pawhuska from my generation you'd think that the Triangle building had been there forever. Cause it is certainly a landmark.)

Bandstand there was an triangle of soil there, you see.

(Well, yeah.)

Building is there and that's where the bandstand was and the city well was there.

(Yeah, that is most interesting.)

GRANDPARENTS CAME FROM KANSAS WITH OSAGES

My grandparents came out of Kansas with the Osages.

(Yeah)

When they moved 'em down here. And my grandfather was interpreter for 30 years for the Osages. If a person would just tell all that it would be interesting.

(Yes, sir. What part of Kansas were the Osages originally settled in before they moved?)

Around Yates Center and right in there.

(Yates Center. Was that a prairie country?)

Oh, that was farming country in there.

(Yeah. I've never been up in there.)

They wanted that for the--started farming in there see and they just bring the Osages down here.

(Static on tape)

Kind of like the old trail. Amost interesting book about Osages--Blackdog
