

PROGRESS WAS SLOW IN EARLY DAYS

I would say approximate half of--maybe not that. (Not clear)

(Well.)

No it's less than half. But (not clear) a lot of that extra housing has been done in the last ten years. It was more slower back when I was young.

(Yeah.)

And progress was slow. Now we're living in a faster time and--

(Oh yeah.)

Progress is moving.

(It is. It is really moving fast. In fact we're way behind.)

Well that's right. We're way behind.

(We don't know what's going on.)

Yeah it--this part of the country is retarded to what it is over on the highway.

(Yeah.)

That's where most of the building is being done.

(Uh-huh.)

But--yeah it's--I'd say back off the road in--since I've been here. Probably twice as many people and houses as there were. Because there was acres and acres that's been cleared. It's been bulldozed off. And cleared up. And it's in cultivation, in pasture, in grass or something, that used to be in brush when I was a boy.

HOW THE TOWN GOT IT'S NAME - MUCH FIGHTING - STORIES

(Well, did you ever hear how the town got it's name?)

Well they used to say that it was row of a day and row of a night. Well yeah, I guess that's it. It used to be rough here when I was a kid. I used to see fights when I was a little old kid.

(Yeah.)
