The regular October meeting of the Board of Regents of the University of Oklahoma was held in the office of the President of the University, Norman, on Wednesday, October 7, 1959, at 10:00 a.m.

The following were present: Regent Grisso, President, presiding; Regents Savage, Morgan, Northcutt.

Absent: Regents Benedum and Rothbaum. (To date no replacement for Quintin Little).

Leland Gourley, from the Governor's staff attended the meeting on invitation by the Chair.

The Chair asked that the minutes of the September 9 meeting (p. 6371 3rd paragraph) be corrected to show that "The Regents unanimously confirmed the committee selection". (Appointment of Harold Flood as Architect on the Biological Station project.)

With this correction the minutes were approved.

President Cross inquired on the possibility of changing the date of the November meeting since he is a member of the Advisory Committee of the Federal Home Loan Bank Board, for which a meeting is to be held on November 4-5. It was unanimously agreed to postpone the Regents' meeting to Friday, November 6.

President Cross stated he had just received the preliminary plans for the addition to the Speech and Hearing Clinic and the Director and Business Administrator at the Medical Center request approval at this time in order that the architects may proceed in the preparation of final plans and specifications which they hope to complete for presentation at the meeting on November 6.

Regent Morgan moved, and it was unanimously voted to consider the matter at this meeting.

Following examination of the preliminary plans Regent Northcutt moved, and it was unanimously voted to approve the preliminary plans as submitted.

President Cross reported he had received a letter from Attorneys Embry, Crowe, Tolbert, Boxley & Johnson, on behalf of Edwin L. Cox of Dallas, one of their clients, of Petroleum, Inc., concerning an oil and gas lease on the Old Golf Course and Parkview Apartments area.
The matter was discussed briefly, but since it was not on the agenda, no action was taken on the request by the attorneys. It was agreed that the President of the Board explore the overall matter, and that it be placed on the agenda for the November meeting.

On the matter of permitting the use of the Stadium for another pro-football game in the fall of 1960 as requested by the Oklahoma City All Sports Association, President Cross stated he had not received any other inquiries and felt he should not "go out and try to market our Stadium for a pro game." He expressed the opinion that if no one else expresses an interest the Regents might make the Stadium available again to the Oklahoma City All Sports Association.

The Chair indicated he agreed with the President's position.

Regent Savage moved, and it was voted, to place the matter on the agenda for the November 6 meeting.

President Cross discussed the matter of supplying power for the operation of the Continuing Education Center and the problems facing the University Power Plant in supplying power for this project as well as future expansion. The University Engineer and the Council on Planning and Development have made a study of the matter and the following report by Dr. Swearingen, Chairman, was read by President Cross:

"I have discussed the attached report prepared by the University Engineer with Mr. Shultz, Mr. John Kuhlman and Mr. Landon Hunt of the Department of Physical Plant.

"Based on the standard rate sheets supplied by O. G. & E. on rates that would be effective for the Center, the analysis of relative costs of O. G. & E. supplied and University supplied electricity indicate a saving of approximately $300 per month in favor of supplying power from the University's central plant.

"If the University undertakes to supply power to the Center, this additional load on the University's power generating equipment will use up essentially all of the present power producing capacity of the new plant. The existing equipment will not be capable of supplying power for any additional major power requirements. Also should one of the turbines break down, the old power plant would need to be operated at full capacity to pick up the load and at least during such 'down' period, the University would have no emergency reserve.

If electric power is furnished to the Center by O. G. & E., then the University can meet the existing and future power requirements for possibly a few years. However during this period, we must assume that additional campus requirements will develop through more extensive air conditioning and to take
care of such new construction as may occur on the campus. We can predict that within a few years we will be using all of the present capacity of the existing plant, without considering the needs of the Center.

"There seems to be no question about the necessity for increasing the generating capacity of the University's power plant. This matter seems to be only a question of time. If O. G. & E. furnishes power for the Center, then we may have a few years to increase our plant capacity. If the University undertakes to provide power to the Center, plans for increasing the capacity of the University's plant must get underway soon, if power, both needed and stand-by, is to be available by the time the first units of the Center are completed.

"The alternatives are as follows:

"1. Use the University plant, essentially to full capacity, to meet current needs and needs of the Center. This eliminates for the present any considerable additional power uses for University expansion.

"2. Let O. G. & E. supply the power needs of the Center and thus make the existing reserve capacity available for some expansion of present uses and for some new construction during the next few years.

"If the first alternative is elected, we need to start on plans for power plant expansion rather immediately. A new 7500 KW turbine-generator and 2 boilers will cost about $2,000,000.

"If the second alternative is elected, we may have a few years to increase our present plant capacity. Should equipment costs continue to increase the cost of the generator and boilers at that time will be in excess of $2,000,000.

"I would suggest that O. G. & E. furnish the power required by the Center, if such power can be provided at a rate equal to the University's cost rate. This will give a few years of grace before the matter of present plant capacity becomes critical. Any contractual arrangements should be for a minimum of 5 years and probably should also include an 'elevator' clause to cover any increases in the cost of natural gas to O. G. & E. The University would be subject to the same increase in cost of natural gas."

Following a discussion Regent Savage suggested, and it was agreed, that the matter be discussed further with the Oklahoma Gas and Electric Company, and that the President report on the matter at the November 6 meeting.

President Cross stated he had no further items except those on the agenda.

The President of the Board stated he had nothing to report at this time.
Regent Savage, Chairman of the Committee on Construction and Housing (Savage, Morgan and Rothbaum) reported with reference to a conference with R. E. Barbour, President of Barbour and Short, Inc., contractors on Housing Unit No. 1 of the Continuing Education Center. Following is a copy of a letter from Mr. Barbour concerning the matter:

"September 22, 1959

"Dear Dr. Cross:

"This is in response to your letter of September 18 pertaining to the Mechanical Sub-Contractors on Housing Unit #1 of the Center for Continuing Education.

"In placing our bid, we used the sub-bid on mechanical work furnished by Spaeth Engineering Company of Oklahoma City, Oklahoma, and so advised Mr. Jim Spaeth. Upon a review of the bids furnished by sub-contractors, we learned that the Wattie Wolfe Company bid, which was $317.00 higher than the Spaeth bid, was, in fact, the lowest bid. The reason for the discrepancy was that the Wattie Wolfe Company bid did include cost of Bond, whereas the Spaeth Engineering Company bid did not.

"Accordingly, the Wattie Wolf Company bid was the lower, although it is costing us $317.00 more than we had anticipated. This additional amount was not included in our base bid and we, of course, are absorbing the loss. The Wattie Wolfe Company enjoys a very fine reputation for the performance of good mechanical work and I have advised both of these bidders as to the reason for the change. Wattie Wolfe Company is now on the job performing under its Sub-contract and, in view of the contents of your recent letter, and my conference this morning with Mr. Giezentanner, this is to request approval of the University to a change in sub-contractors for the reasons herein set forth.

Sincerely yours,

BARBOUR & SHORT, INC.

/s/ R. E. Barbour

R. E. Barbour
President"

Regent Savage, on behalf of his committee, made the following report in a letter to the President of the Board, and recommended acceptance:

"October 7, 1959

"Dear Mr. Grisso:

"Your committee on building and construction has considered the request for approval of the University of a change in subcontractors on Housing Unit #1
of the continuing education center received from Barbour and Short, Inc. by letter dated September 22, 1959.

"After hearing, at which the interested parties were present, and consideration of all of the facts, it is the recommendation of your committee that this request be denied.

Very truly yours,
/s/ Leonard H. Savage
/s/ Dave Morgan"

The Committee report was received and unanimously approved.

On the matter of maturities on $17,000.00 of Government securities on October 15, 1959, Regent Savage, Chairman of the Committee on Investments, recommended reinvestment of the funds in Government securities "for not to exceed twelve months." The funds participating in the $17,000.00 are:

He recommended also that the $143.73 available for investment in the Charles B. Taylor Lectureship Trust be invested in the Boston Fund.

The bond proceedings in connection with the Continuing Education Center were presented by President Cross and he made the following statement and recommendation:

The Proceedings of the $1,400,000 Board of Regents of The University of Oklahoma Dormitory System Bonds of 1959, Series "C" were prepared by Mr. George Fagin in accordance with the proposal submitted by Milburn, Cochran and Company which the Board accepted at the September meeting. The purchasers of the bonds have approved the Proceedings as submitted.

Mr. Fagin's fee for preparing the Proceedings and securing the approval of the buyers will be $2.00 per bond. His total fee will be $2,800.

President Cross recommended that the Board approve the Proceedings of the Board of Regents of The University of Oklahoma Dormitory System Bonds of 1959, Series "C" and authorize payment of $2,800 to Mr. George Fagin upon delivery of the bonds. (See following pages for Proceedings)

This bond is registerable as to principal in the manner and with the effect recited on the back hereof.

This bond is one of an issue of $1,400,000 bonds of like date and tenor, except as to number, maturity, interest rate and option of redemption, issued for the purpose of constructing, equipping and furnishing of dormitories and facilities for the housing and feeding of students as additions to the existing dormitory system of the University of Oklahoma and is equally and ratably
secured both as to principal and interest together with the outstanding Dormitory System Bonds, Series A and B, dated October 1, 1957, in the original amount of $6,541,000, under and pursuant to the Constitution and statutes of Oklahoma, and particularly Chapter 1A of Title 70, Session Laws of 1945, as amended, and pursuant to a resolution duly adopted by the Board of Regents of the University of Oklahoma on October 7, 1959, to which resolution reference is hereby made for a more particular statement of the terms and conditions pursuant to which this bond is issued, including the conditions under which bonds may be issued in the future payable from the hereinafter mentioned net revenues on a parity with this bond.

This bond and the issue of which it is one are payable from the net revenues, as net revenues are defined in the aforesaid resolution authorizing the bonds to be derived from the operation of the above described dormitory system. This bond is not an indebtedness of the State of Oklahoma or the University of Oklahoma or the Board of Regents of the University of Oklahoma, but is a special obligation payable solely from the aforesaid revenues.

This bond is fully negotiable and is not subject to taxation by the State of Oklahoma or by any county, municipality or political subdivision therein.

It is hereby certified and recited that all acts, conditions and things required to be done precedent to and in the
issuance of this bond have been properly done, happened and performed in regular and due form as required by law, and that the Board of Regents of the University of Oklahoma has agreed and does hereby agree to fix rents, charges and fees for the use of the aforesaid dormitories and related facilities making up the aforesaid dormitory system fully sufficient to assure the prompt payment of principal of and interest on this bond and the other bonds of the issue of which it is one, promptly as such principal and interest become due, and to create and maintain a reserve for such payment.

IN WITNESS WHEREOF, the Board of Regents of the University of Oklahoma has caused this bond to be signed by its President and attested by its Secretary and its corporate seal to be hereunto affixed, and the interest coupons hereto attached to be signed by the facsimile signatures of said officials, all as of this first day of October, 1959.

SECURITY

Section 7. That subject only to the payment of the cost of operating and maintaining the System as hereinafter provided, the gross revenues to be derived from the operation of the System are hereby irrevocably pledged to the payment of and interest on the bonds herein authorized. None of the bonds shall be entitled
to priority one over the other in the application of the revenues of the System, regardless of series and regardless of the fact that some of the bonds may be delivered prior to the delivery of other bonds of the issue. So long as any of the bonds herein authorized remain outstanding the Board of Regents of the University of Oklahoma agrees that it will not issue any additional bonds or obligations payable from the revenues of the System, except under conditions stated in Section 16 of this resolution. In no event while any of the bonds remain outstanding will the Board of Regents of the University of Oklahoma mortgage or encumber or otherwise dispose of the System or any part thereof, except that the furnishings and equipment thereof may be disposed of if they are replaced with furnishings and equipment of not less than equal value and except that units of the Sooner City portion of the System may be disposed of as provided in the resolution of the Board of Regents enacted December 12, 1957.

All of the provisions and covenants contained in the resolutions authorizing and pertaining to the Dormitory System Bonds of 1957, Series "A" and Series "B" shall be applicable to and shall be continued in force for the security and protection of the Dormitory System Bonds of 1959, Series "C" with like force and effect as for the Dormitory System Bonds of 1957, Series "A" and Series "B" and the holders of all the Dormitory System Bonds
of 1959, Series "C" shall have all rights and shall be entitled
to all privileges, audits and reports enjoyed by the holders of
the Dormitory System Bonds of 1957, Series "A" and Series "B".

FLOW OF FUNDS

Section 8. The Gross revenues derived from the operation
of the System, as herein defined under Security, shall be used as
follows:

(a) To pay the current expenses of the Dormitory System,
as a first charge, from the said gross revenues, as such expenses
become due and payable. Current expenses shall include all neces-
sary operating expenses, current maintenance charges, expenses of
reasonable upkeep and repairs, properly allocated share of charges
for insurance and all other expenses incident to the operation of
the Dormitory System, but shall exclude depreciation, and all
general administrative expenses of the University.

In the resolution of the Board of Regents enacted
December 12, 1957, there was created to be maintained by The
Liberty National Bank and Trust Company of Oklahoma City the
"Dormitory System Bonds of 1957 Principal and Interest Fund"
(called the "Bond Fund"); the "Dormitory System Bonds of 1957 Re-
serve Fund" (called the "Reserve Fund") and the "Maintenance and
Equipment Account". As provided in paragraph number (h) of Sec-
tion 16 of such Resolution all of the Dormitory System Bonds of
1959, Series "C", are on complete parity as to payment from such funds with the outstanding Dormitory System Bonds of 1957, Series "A" and Series "B". Series "C" Bonds of this issue of Dormitory System Bonds of 1959 shall be payable both as to principal and interest from said Funds held by The Liberty National Bank and Trust Company of Oklahoma City to the same extent and in the same manner as principal and interest of Series "A" and Series "B" Bonds of the Dormitory System Bonds of 1957. To the same extent Series "A" and Series "B" Bonds of the Dormitory System Bonds of 1957 shall be payable both as to principal and interest from the Funds hereinafter set out to be held by The First National Bank and Trust Company of Oklahoma City, as additional Trustee to the same extent and in the same manner as the principal and interest of the Series "C" Bonds of the Dormitory System Bonds of 1959.

That The First National Bank and Trust Company of Oklahoma City is hereby designated as additional Trustee to retain in special accounts secured by an equivalent amount of United States Government Bonds, a part of the Bond Fund, the Reserve Fund, and the Maintenance and Equipment Account as hereinafter set out.

The Board of Regents covenants and agrees to pay to The First National Bank and Trust Company of Oklahoma City the following mandatory minimum amounts of the Dormitory System revenue
available therefor, to meet the requirements of (b) and (c) hereinafter set out:

*The said minimum requirements for the year ending October 1, 1960 ($97,700) and the said minimum requirements to April 1, 1961 ($48,850) will be paid into the Bond and Reserve Fund out of the proceeds of this issue of bonds. A minimum of $48,850 will be paid Bank from revenues of Dormitory System available therefor for year ending October 1, 1961.

The Board of Regents further covenants and agrees to pay to The First National Bank and Trust Company of Oklahoma City, as Trustee, whatever additional revenue of the Dormitory System is available to meet the requirements of (d) as hereinafter set out.

(b) There is hereby created to be maintained by The First National Bank and Trust Company of Oklahoma City, as Trustee, so long as any of the Dormitory System Bonds of 1959, Series "C" are outstanding, a separate account to be known as "Dormitory System Bonds of 1959 Principal and Interest Fund" (herein
collectively called the "Bond Fund") into which shall be deposited $146,550 from the proceeds of the sale of the Series "C" Bonds and all accrued interest received from the sale of the Series "C" Bonds. Thereafter there shall be paid into the Bond Fund from the revenues of the Dormitory System, after providing for the payment of current expenses, such sums as are necessary to assure the prompt payment of the debt service on the Dormitory System Bonds of 1959, Series "C", for the then current year and in addition thereto the amount necessary to make the required payment into the Reserve Fund provided for in provision (c) below. So far as is practicable, the payments to be made into the Bond Fund in each twelve months' period shall be made in approximately equal monthly installments (unless made as advance payments) on the 15th day of each month, except that when the 15th day of the month shall be a Saturday or holiday, then the payment shall be made on the next preceding secular day. If in any month, the revenues of the dormitory system, applicable thereto, are insufficient to make the payment required to be made into the Bond Fund, such deficiency shall be made up and paid into the Bond Fund from the first net revenues of the System thereafter received and available for such purpose.

(c) There is hereby created to be maintained by The First National Bank and Trust Company of Oklahoma City so long as
any of the Dormitory System Bonds of 1959 are outstanding, a separate account to be known as the "Dormitory System Bonds of 1959 Reserve Fund" (herein collectively called the "Reserve Fund"). Thereafter, and until the amount in said Reserve Fund in money and surrender value of investments in United States obligations shall be equal to one and one-half (1-1/2) times the largest amount of principal and interest of the Dormitory System Bonds of 1959, Series "C", payable from the Bond Fund in any future twelve months' period and thereafter whenever such payments shall be necessary to restore money paid out of the Reserve Fund in each twelve months' period ending on September 30, from the revenues of the System not required for the purposes of (a) and (b) above, the sum of at least: $27,700 on or prior to October 1, 1960; $27,700 on or prior to October 1, 1961; $30,420 on or prior to October 1, 1962; $31,760 on or prior to October 1, 1963; and $29,720 on or prior to October 1, 1964. The money in the Reserve Fund shall be used solely for the payment of principal and interest of the bonds payable from the Bond Fund as to which there would be a default if the money were not so used; provided, however, that whenever the Reserve Fund shall be in its full amount, both as provided by this Resolution and in the Resolution enacted December 12, 1957, interest earnings of Reserve Fund may, by direction of the Board of Regents, be transferred to the Bond Fund.
(d) There is also hereby created, to be maintained by
The First National Bank and Trust Company of Oklahoma City, so long
as any of the bonds are outstanding, a separate account to be known
as the "Maintenance and Equipment Account" into which shall be de-
posited any revenues of the Dormitory System remaining at the end
of each twelve months' period ending on September 30 after all
payments required to be made from such revenues as provided by
(a), (b) and (c) above have been made and after all deficiencies
in such payments remaining from prior periods have been remedied,
and the revenues so deposited shall be used by the Board of Regents
when needed for major repairs, the replacement of furnishings and
equipment, the construction of additions or improvements to the
Dormitory System, or acquisitions for the Dormitory System, or,
in the discretion of the Board of Regents, the retirement of Bonds
prior to maturity, either through the purchase thereof on the open
market at not more than the price at which the bonds are current-
ly redeemable, or through the calling of Bonds for redemption. In
determining the amount of such net revenue to be deposited into
the "Maintenance and Equipment Account" held by The First National
Bank and Trust Company of Oklahoma City, as Trustee, same shall be
based upon the proportion that the outstanding Series "C" Bonds
of the Dormitory System Bonds of 1959 bears to the outstanding
Series "A" and Series "B" Bonds of the Dormitory System Bonds of
1957. The Trustee shall permit withdrawal of money from the Maintenance and Equipment Fund for the purposes and under the conditions stated above upon certification of need by the Vice President and Business Manager of the University of Oklahoma, or his successor in function acting as agent for the Borrower.

The monies in the Reserve Fund and in the Maintenance and Equipment Reserve Account may be by direction of the Board of Regents of the University of Oklahoma invested in obligations of the United States of America. If need for the money so invested shall arise for the payment of principal or interest, the obligations so purchased shall be sold to the extent necessary to make such payments and the proceeds of sale applied to such payment.

The money in the Bond Fund not needed for the payment of principal or interest payable therefrom within the next 60 days may be by direction of the Board of Regents invested in short-term obligations of the United States that will mature at face value in time to insure prompt payment of the next payments for which the money was deposited in the Bond Fund.

The Bond Fund, including the Reserve Fund, shall be kept in separate accounts in The Liberty National Bank and Trust Company of Oklahoma City, and The First National Bank and Trust Company of Oklahoma City, as Trustees, and shall be held as special trust
accounts for the benefit of the holders of the bonds. The Liberty National Bank and Trust Company of Oklahoma City and The First National Bank and Trust Company of Oklahoma City, as Trustees, shall in due season prior to the dates on which principal and interest fall due, make proper arrangements with the banks which are serving as the additional paying agent for the bonds, pursuant to which all bonds and coupons will be paid promptly upon presentation at either place of payment. So long as the Housing and Home Finance Administrator, or his successor, shall be the owner of the Series "B" Bonds, the Trustees shall make arrangements to make payment of said principal and interest at the office of the Fiscal Agent designated by the Administrator.

When there shall be in the Bond Fund and the Reserve Fund together a sum sufficient to pay principal of and interest to maturity or applicable redemption date on all bonds then remaining outstanding, plus necessary redemption premiums, the money in said funds may be used for such purpose and no additional payments need be made into said funds unless necessary to replace monies lost because of depreciation of investments.

TRUSTEE

Section 9. That The First National Bank and Trust Company of Oklahoma City as an Additional Trustee of the Funds hereinbefore set out shall retain in its custody satisfactory evidences
of the insurance of the Project hereinafter provided for, and to perform such duties as are further herein recited. A certified copy of this Resolution shall be filed with said Trustee, which shall designate its acceptance of the Trust herein mentioned in such manner as may be satisfactory to the Board.

DELIVERY

Section 10. The bonds herein authorized shall be delivered by the State Treasurer of Oklahoma to The First National Bank and Trust Company of Oklahoma City and Milburn, Cochran & Company, Inc., of Oklahoma City, pursuant to payment therefor at the principal amount thereof plus accrued interest to the date of delivery, and the sale of such bonds to said purchasers is hereby confirmed. The proceeds from the sale of the bonds (with the exception of accrued interest and the additional sum of $146,550 from such proceeds which is to be forwarded to The First National Bank and Trust Company of Oklahoma City, as Trustee, and placed in the Bond Fund) shall be deposited in a special account in the State Treasury and applied solely to the purpose of constructing the Project, including but not limited to architectural, engineering, legal and administrative expenses and payment of debt service during the construction period. That money in such Construction Account shall be temporarily invested in short-term direct obligations of the United States of America
and earnings therefrom shall be credited to the said Construction Account. Any money remaining thereafter after all costs of the Project have been paid shall be used for the redemption of as many of the bonds as can be redeemed with the surplus so available; provided, however, that any such surplus in an amount less than $1,000 shall be deposited in the Principal and Interest Fund.

OCCUPANCY COVENANT

Section 11. That the Board of Regents expressly covenants and agrees that it will impose and collect rentals, fees and charges for the use of all facilities afforded by the System which shall be fully adequate and sufficient to produce net revenues equal to at least one and three-tenths (1.3) times the amount required to be paid in the ensuing year for principal and interest falling due in such year on bonds payable from the revenues of the System.

It is hereby covenanted and agreed by the Board of Regents that if necessary the Board will require a sufficient number of students to occupy and use the System, notwithstanding any other similar facilities which may at any future time be available for the housing and feeding of students in attendance at the University of Oklahoma, so that said System shall at all times during the regular and summer scholastic terms be occupied and used as nearly as possible to 100 per cent of its capacity.
When, in the opinion of the Board of Regents, concurred in by the Trustee, it appears that the operation of any portion of the Sooner City Dormitory System is no longer economically feasible, then said portion of the Sooner City Dormitory System, including furnishings and equipment not usable in other portions of the System, shall be sold at fair market value and the proceeds derived from such sales shall be deposited with the Trustee and held as surplus revenues to be used exclusively for the redemption of bonds prior to maturity thereof in the same manner as bonds would be redeemed from surplus revenues as hereinabove provided.

INSURANCE

Section 12. That the Board of Regents agrees to keep the System, including its furnishings and equipment, covered by insurance as follows:

(a) Upon acceptance of the Project from the contractor, the Board of Regents shall, if such insurance is not already in force, procure Fire and Extended Coverage Insurance on the Project, and upon receipt of funds acquired pursuant to sale of the Series "C" Bonds, the Board of Regents shall, if such insurance is not already in force, procure and maintain, so long as any of the bonds are outstanding, Fire and Extended Coverage Insurance on all of its buildings, including furnishings and equipment, the revenues of which are pledged to the security of the Dormitory System Bonds.
of 1957, Series "A" and Series "B", and Dormitory System Bonds of 1959, Series "C". The foregoing Fire and Extended Coverage Insurance shall be in amounts sufficient to provide for not less than full recovery whenever a loss from perils insured against does not exceed 80 per centum (80%) of the full insurable value of the damaged building. Each such insurance policy shall be acceptable to the Trustees designated in connection with this bond issue and shall contain a clause making all losses payable to the Trustees as their interests may appear. In the event of any damage to or destruction of any of said building or buildings, or their furnishings and equipment, the Board of Regents shall promptly arrange for the application of the insurance proceeds for the repair or reconstruction of the damaged or destroyed portion thereof.

(b) Immediately upon occupancy of any portion of the new Project, the Board of Regents shall procure and maintain Use and Occupancy Insurance on the Project. So long as any of the Dormitory System Bonds of 1957, Series "A" and Series "B", and Dormitory System Bonds of 1959, Series "C", are outstanding, the Board of Regents shall procure and maintain Use and Occupancy Insurance on each building, the revenues of which are pledged to payment of the bonds, in an amount sufficient to enable the Board of Regents to deposit in the Dormitory System Bonds of 1957 Principal and Interest Fund, and the Dormitory System Bonds of 1959
Principal and Interest Fund, out of the proceeds of such insurance, an amount equal to the sum that would normally have been available for deposit in such fund from the revenues of the damaged building during the time the damaged building is non-revenue producing as a result of loss of use caused by the perils covered by Fire and Extended Coverage Insurance. Such insurance policy shall be acceptable to the Trustees and shall contain a loss payable clause making any loss thereunder payable to the Trustees as their interests may appear.

(c) Upon acceptance of the new Project buildings from the contractor, the Board of Regents shall, if such insurance is not already in force, procure and maintain, as long as any of the bonds are outstanding, Boiler Insurance covering any steam boilers servicing the Project buildings in a minimum amount of $50,000.

OPERATING REPORTS

Section 13. That the Board of Regents further covenants and agrees to keep proper books of record and account (separate and apart from all other records and accounts) in which complete and correct entries shall be made of all transactions relating to the operation and maintenance of the System and the allocation and application of the revenues thereof, and that such books shall be available for inspection by the holder of any of the bonds at reasonable hours and under reasonable conditions. Not more than
six months after the close of each fiscal year (July 1 through June 30) the Board of Regents agrees to furnish to The Mutual Benefit Life Insurance Company, Newark, New Jersey, the Housing and Home Finance Agency, The First National Bank and Trust Company of Oklahoma City, Milburn, Cochran & Company, Inc., Oklahoma City, and each holder of any of the bonds who may so request a complete operating and income statement covering the operation of the System for such year, or, if so requested in writing by the holders of not less than forty per cent of the bonds of any Series then outstanding, an operating and income statement certified by independent auditors of their selection. The Board of Regents agrees to furnish the annual financial report of the University each year as soon as available to any bondholder requesting it.

**TRUSTEE AND PAYING AGENT FEES**

*Section 14.* That all charges made by the Trustees and paying agent banks for services rendered and for payment of principal of and interest on the bonds will be paid from the System revenues and will not be required to be paid by the holders of the bonds or coupons.

**AUTHORITY OF OFFICERS**

*Section 15.* That the officers and agents of the Board and each of them shall be and they are hereby authorized and
directed from time to time and at any time to do and perform all such acts and things and to execute and deliver in the name and under the corporate seal and on behalf of the Board all such instruments as may be necessary or desirable to carry out the terms and provisions of this resolution and of the bonds to be issued hereunder.

ADDITIONAL PARITY BONDS

Section 16. That in order to make improvements and add buildings and facilities to the existing student housing system from time to time as needs arise, the Board of Regents shall have the right, subject to the laws of Oklahoma then in force, to issue additional series of dormitory system bonds payable from the revenues of the augmented system, as "augmented system" is defined in this section, on a parity with the 1957 bonds authorized by the resolution enacted by the Board of Regents December 12, 1957 and the 1959 bonds authorized in this resolution, but only pursuant to the following conditions:

(a) The average annual net revenues derived from the operation of the existing system (being the system as above defined but including also all other facilities, all or any part of the revenues of which are then pledged to the payment of the bonds payable from the Bond Fund) in the two completed fiscal years immediately preceding the issuance of the additional bonds must
have been equal to at least one and three-tenths (1-3/10) times the average annual amount of principal and interest payable from the Bond Fund in those fiscal years. If the proceedings authorizing the additional bonds shall provide for an increase in any of the rates and charges to be imposed for the use of the facilities of the system there may be added to the net revenues of the system for such last completed fiscal years for purposes of the above computation, such additional amount as, based on the actual number of students using such facilities in such fiscal years, would have been produced had such increased rates and charges been in effect throughout such fiscal years. "Fiscal year" for the purposes of this section shall be a year commencing on July 1 of the calendar year and ending on the last day of June of the following year. "Net revenues" shall be construed to be the gross revenues of the existing system remaining after the payment therefrom of the cost of operating and maintaining the existing system as hereinabove provided.

(b) The average annual net revenues (as above defined) in the two completed fiscal years immediately preceding the issuance of the additional bonds must have been equal to at least one and one-tenth (1-1/10) times the sum of the average annual amount of principal and interest payable from the Bond Fund in such fiscal
years and the maximum annual principal and interest to become payable in any future fiscal year by reason of the issuance of the additional bonds.

(c) The Vice President and Business Manager of the University of Oklahoma or his successor in function shall have certified to the Trustees that their detailed estimate of the operating income and maintenance and operation expense of the augmented system after occupancy of the additional facilities for which the additional bonds are to be issued shows net revenues (as above defined) equal to at least one and three-tenths (1-3/10) times the maximum principal and interest to become payable from the Bond Fund in any future fiscal year commencing with such occupancy. Such estimate of net earnings of the additional facilities shall be based upon assumed occupancy of 90 per centum.

(d) All payments required to be made into the Bond Fund and the Bond Reserve Fund under the foregoing provisions of this resolution must be current.

(e) The additional bonds must be payable as to principal on October 1 of each year in which principal falls due and must be payable as to interest on April 1 and October 1 of each year.

(f) The proceeds of the additional bonds must be used for the making of improvements, extensions or additions to or
acquisitions for the system.

(g) As used in this section, the words "augmented system" shall be understood to include and refer to the aggregate of the buildings and facilities comprising the "System" (as defined in Section 2 above) and all buildings and facilities for the housing and feeding of students acquired by the Regents of the University of Oklahoma in whole or in part with the proceeds of parity bonds issued subsequent to the issuance of the 1957 and 1959 Dormitory System Bonds and all such buildings and facilities then proposed to be acquired in whole or in part with the proceeds of the bonds then proposed to be issued on a parity with said 1957 and 1959 Dormitory System Bonds. If in the proceedings authorizing any parity bonds hereunder the Board of Regents includes as a source of payment for such additional bonds the revenues to be derived from any such buildings or facilities not so acquired in whole or in part with the proceeds of parity bonds, such additional buildings or facilities shall be included within the scope of the term "augmented system" for the purposes of this section.

(h) All additional bonds issued under the provisions of this section shall be payable from the Bond Fund on complete parity with the 1957 and 1959 Dormitory System Bonds and any intervening parity bonds which may have been issued and shall be entitled to payment from the Reserve Fund on complete parity with
said outstanding bonds, but provisions shall be made in the pro-
ceedings authorizing the issuance of such parity bonds for such
increases in the payments into the Reserve Fund as may be neces-
sary to assure the adequacy of such fund to protect all bonds pay-
able from the Bond Fund in the manner and to the same extent pro-
vided for in the 1957 and 1959 Dormitory System Bonds. All of the
provisions and covenants contained in the resolution authorizing
the issuance of the 1957 and 1959 Dormitory System Bonds shall be
applicable to and shall be continued in force for the security
and protection of all such parity bonds with like force and effect
as for the 1957 and 1959 Dormitory System Bonds and the holders
of all such parity bonds shall have all rights and shall be en-
titled to all privileges, audits and reports enjoyed by the holders
of the 1957 and 1959 Dormitory System Bonds.

AMENDMENT

Section 17. That the holders of two-thirds in principal
amount of the Series "A", Series "B" and Series "C" Bonds herein
authorized, and parity bonds subsequently issued, at any time out-
standing (not including in any case any bonds which may then be
held or owned by or for the account of the Board, but including
such refunding bonds as may be issued for the purpose of refunding
any of the bonds herein authorized which are not owned by the
Board) shall have the right from time to time to consent to and
approve the adoption by the Board of a resolution or resolutions modifying or amending any of the terms or provisions contained in this resolution; provided, however, that this resolution may not be so modified or amended in such manner as to:

(a) Make any change in the maturity of the bonds.

(b) Make any change in the rate of interest borne by any of the bonds.

(c) Reduce the amount of the principal or redemption premium payable on the bonds.

(d) Modify the terms of payment of principal or of interest or of redemption premiums on the bonds or any of them or impose any conditions with respect to such payment.

(e) Affect the rights of the holders of less than all of the bonds then outstanding.

Whenever the Board shall propose to amend or modify this resolution under the provisions of this section, it shall cause notice of the proposed amendment to be published one time in a financial newspaper or journal published in the English language in the City of New York, New York, and Chicago, Illinois, and on or before the date of such publication the Board shall cause to be mailed a copy of such notice to the registered holders of any of the bonds which are then registered as to principal. Such
notice shall briefly set forth the nature of the proposed amendment and shall state that a copy of the proposed amendatory resolution is on file in the office of the Secretary of the Board for public inspection.

Whenever at any time within one year from the date of the publication of said notice there shall be filed in the office of said Secretary an instrument or instruments executed by the holders of at least two-thirds in aggregate principal amount of the Series "A", Series "B" and Series "C" Bonds then outstanding as in this section defined, which instrument or instruments shall refer to the proposed amendatory resolution described in said notice and shall specifically consent to and approve the adoption thereof, thereupon, but not otherwise, the Board of Regents may adopt such amendatory resolution and such resolution shall become effective.

If the holders of at least two-thirds in aggregate principal amount of the Series "A", Series "B" and Series "C" Bonds outstanding as in this section defined, at the time of the adoption of such amendatory resolution, or the predecessors in title of such holders, shall have consented to and approved the adoption thereof as herein provided, no holder of any bond, whether or not such holder shall have consented to or shall have revoked any consent as in this section provided, shall have any right or interest
to object to the adoption of such amendatory resolution or to ob-
ject to any of the terms or provisions therein contained or to the operation thereof or to enjoin or restrain the Board from taking any action pursuant to the provisions thereof.

Any consent given by the holder of a bond pursuant to the provisions of this section shall be irrevocable for a period of six months from the date of the publication of the notice above provided for and shall be conclusive and binding upon all future holders of the same bond during such period. Such consent may be revoked at any time after six months from the date of the publica-
tion of such notice by the holder who gave such consent or by a successor in title by filing notice of such revocation with said Secretary, but such revocation shall not be effective if the hold-
ers of two-thirds in aggregate principal amount of the Series "A", Series "B" and Series "C" Bonds outstanding as in this section de-
ined have prior to the attempted revocation consented to and approved the amendatory resolution referred to in such revocation.

The fact and date of the execution of any instrument under the provisions of this section may be proved by the certifi-

of a witness to such execution sworn to before such officer. As to any bonds registered as to principal, the ownership thereof for purposes of this section shall be established by the Registrar's registration books. As to any bonds not so registered, the amount and numbers of the bonds held by any person executing such instrument and the date of his holding the same may be proved by a certificate executed by any responsible bank or trust company showing that on the date therein mentioned such person had on deposit with such bank or trust company the bonds described in such certificate.

D. The First Party to this Agreement reserves the right to appoint a new trustee under any of the following conditions:

The provisions of this section shall not be construed as applying to any application to a court of record made by either party to enforce the provisions of the trust or to remove a trustee or to appoint a new trustee, but this section shall give remedies in addition to the legal remedies last mentioned.

E. The Second Party to this Agreement reserves the right to resign as trustee following reasonable notice of such intention. In no case shall such notice be less than thirty days.

"Dear Sir:

Moved by Regent Morgan, and voted, to authorize the President of the Board to sign the addendum letter agreement on behalf of the Regents.
President Cross recommended approval of the following policy on applications for admission to the University from nonresidents of Oklahoma. He stated the Dean and Registrar made the proposal because such a large number of applicants submit credentials, frequently to several institutions, and the expense of processing applications is considerable. The proposal makes provision so those who are accepted receive full credit for the deposit on their fees when they enroll:

SPECIAL NOTICE TO NONRESIDENTS WHO ARE APPLYING FOR ADMISSION AS UNDERGRADUATES FOR THE FALL SEMESTER OF 1960-61 AND SUBSEQUENT TERMS

APPLICATION DEPOSIT:

1. A ten dollar ($10.00) application for admission deposit must accompany the application of all nonresident students who seek enrollment in the undergraduate colleges of the University of Oklahoma for the Fall Semester of 1960-61 and subsequent terms.

2. This deposit constitutes a part of the admission credentials, and no action can be taken until complete credentials are on file.

3. This deposit will apply on the nonresident fees paid by all out-of-state students, but the deposit will not be refunded to a person who has been denied admission or who, if admitted, does not report for enrollment.

WHO ARE EXEMPT:

1. All students whose educational residence is in Oklahoma.

2. All students who are applicants for admission to the Graduate College.

3. All students making application for the Spring Semester and Summer Session of 1960.

HOW TO PAY:

1. Pin or staple the check or money order to the application. **DO NOT SEND CASH.**

2. Make the check or money order payable to the University of Oklahoma.

3. Please indicate the applicant's name on the check or money order.
Regent Morgan moved, and it was voted to adopt the policy as recommended.

The following statement and recommendation with reference to "Fringe Benefits" was presented by President Cross:

At the September meeting of the Board it was reported that University employees who have retired and those who are not eligible for fringe benefits could transfer their Blue Cross and Blue Shield membership to the Cleveland County group. It has developed that Blue Cross and Blue Shield will not accept such transfers.

In order to provide continued coverage for all University employees, The Home State Life Insurance Company has proposed that:

1. A second group be organized on an optional basis for all employees who are not eligible for the fringe benefit program. The plan to include the same hospital and surgical coverage as the fringe benefit program except there will be a $25.00 deductible hospital expense provision. In addition, there will be $1,000 life insurance policy and a $1,000 accidental death and dismemberment insurance policy. The premium will be $10.99 per month per family unit. (The Blue Cross 10-300 Plan is $10.80 per month). There will be no retention for this group. Employee cost per month will be $4.43. Present Blue Cross coverage is $4.70.

2. Retired employees be included in the fringe benefit program for hospital and surgical coverage. The cost will be $13.44 per month for family coverage, $6.72 per month per retired employee and $6.72 for dependents.

RECOMMENDATION:

That the University pay the premium for retired employees who transfer from Blue Cross and Blue Shield to the fringe benefit plan. The retired employee to pay for dependents. (If sixty of the sixty-nine retired employees transfer, the total cost to the University will be $403.00 per month).

The recommendation was approved on motion by Regent Savage.

President Cross reported the Faculty Senate has recommended that free Faculty Club memberships be provided as an additional fringe benefit.

Employees who would be eligible for membership are: academic, administrative, junior administrative and professional employees. The total cost for providing free membership to all eligible employees is $5,000 per year.
President Cross explained none of the cost involved would apply toward social activities but only to maintain the facilities.

Approved on motion by Regent Morgan.

President Cross reported invitations to bid on the rights to broadcast 1959-60 basketball games were sent to all Oklahoma radio stations. No bids were received.

President Cross recommended that the Business Manager of the Athletic Department be authorized to negotiate the right to broadcast individual games with any interested Oklahoma radio station.

Approved on motion by Regent Morgan.

President Cross reported there is a surplus of $14,000 in the Principal and Interest Fund of the Board of Regents of The University of Oklahoma Dormitory System Bonds of 1957 from the sale of 56 pre-fabs. He recommended that the $14,000 face value bonds of the 1997 maturity be retired, and proposed the following resolution:

RESOLUTION

WHEREAS, there is now in the Principal and Interest Fund of the Board of Regents of The University of Oklahoma Dormitory System Bonds of 1957 a surplus of $14,000 received from the sale of 56 pre-fabs; and

WHEREAS, the terms of the bonds provide that revenue received from the sale of facilities will be used to retire bonds prior to maturity;

NOW THEREFORE, be it resolved by the Board of Regents of the University of Oklahoma that $14,000 face value bonds of the 1997 maturity, bearing serial numbers 687B to 700B both inclusive, be retired prior to maturity on October 1, 1959 at par and accrued interest to date.

Moved by Regent Savage, and voted, that the resolution be adopted.

President Cross reported final plans and specifications have been completed for Housing Units No. 2 and 3 and the Refrigeration Unit for the Oklahoma Center for Continuing Education. Plans are ready to submit to subcontractors and general contractors for bids.

An approximate time schedule for the bidding is as follows:

October 7 - Acceptance of the plans and specifications and authorization for bidding on electrical, mechanical and steel work by subcontractors and bidding by general contractors.
October 8 and 15 - Advertisement for bids on mechanical, electrical and steel work and general contracting.

October 27 - Bids received and tabulated.

November 6 - Board consideration of bids from contractors.

President Cross recommended that the plans and specifications submitted by Allied Architects be accepted and that the Board authorize calling for bids on the electrical, mechanical and steel sub-contracts and from general contractors for the following units of the Oklahoma Center for Continuing Education:

- Housing Unit No. 2
- Housing Unit No. 3
- Refrigeration Plant

Approved on motion by Regent Savage.

President Cross reported bids have been received on 18 items of fabricated kitchen equipment for the Oklahoma Center for Continuing Education.

President Cross recommended that Dr. William E. Ham be designated Associate Director of the Oklahoma Geological Survey for a term of four years effective September 1, 1959, without change in salary.

Approved on motion by Regent Savage.

At the July 8 meeting of the Regents there was a discussion concerning the selection of an architect for the Speech and Hearing Clinic Addition (see p. 6339). President Cross telephoned each Regent following the meeting recommending that Architects Wright and Selby be designated since this firm did the architectural work on the original building, and was recommended by Dr. John W. Keys, Director of the Clinic. Each Regent gave his approval of the appointment by telephone and in order to complete the records President Cross requested confirmation of the telephone vote. The telephone vote was confirmed on motion by Regent Northcutt.

President Cross called attention to the discussion at the September 9 meeting (p. 6401-02) on the matter of increasing the number of students in the freshman class of the School of Medicine, at which time he was asked to explore the matter. As a result of his inquiry the following reports were received from Dean Everett:
Dear President Cross:

I was happy to learn from your letter of September 12 that the Regents of the University are sincerely interested in thinking ahead about the problem of training a proper number of physicians for the needs in our state. I wish to congratulate the President and the Regents for their interest in a problem which requires our combined effort and good will for its proper solution.

Our Faculty shares the belief that as many physicians as can be reliably trained should be graduated as rapidly as possible for the welfare of our citizens. Indeed, committees of our Faculty have been at work for some time on various phases of this problem and have made recommendations to this office. At your suggestion, I am enclosing information which represents the thought of our faculty committees and takes into account some personal knowledge that I have gleaned during membership on the Executive Council of the Association of American Medical Colleges.

We appreciate your invitation to outline some important factors concerned with the size of medical school classes. The Faculty is most desirous of helping the President and the Regents in the true solution of the problems discussed. If you desire any information in addition to that given in the enclosure, please let me know.

Respectfully yours,

Information Relative to the Size of the Entering Class

If we are to do our very best to produce as many medical graduates as possible, it is necessary to consider carefully several factors of real concern.

In the School of Medicine's report for the Alumni Council Survey, it was indicated that the Faculty Board of the School believed the entering class could be increased to 120 in 1963 with no loss in essential training of the students, provided some serious needs are fulfilled at the Medical Center by that time. In recent years the School of Medicine has made progress in erasing some of our deficiencies for training classes of 100 students. This year, for the first time, we are able to finance a nucleus of full-time teachers in each of the five major clinical teaching departments, but there still remain other departments with no full-time teaching assistance. These departments represent important teaching specialties, and better provision must be made for them in regard to faculty, space, and teaching beds. In these respects, University
Hospitals as of this date do not provide adequately for classes of 100 students. We are also inferior to other medical schools in that we have a total lack of student housing.

We need to examine Oklahoma's comparative position in regard to size of the entering class. Of the 86 medical schools in the United States, 26 admit more than 100 students per class, 13 (including Oklahoma) admit 100, and 47 admit less than 100. Of the 38 state university medical schools, 11 admit more than 100 students per class, 8 admit 100, and 19 admit less than 100. Each of the 11 states, whose state university medical schools admit more than 100 students per class, is larger in population than Oklahoma. The operating budgets of their state medical schools averaged $2,390,000 in 1957, and they ranged as high as $3,500,000. The fact that Oklahoma ranks in the upper half of all medical schools and also of all state university medical schools, represents a major achievement, especially in view of our income for operating expenses which is the fourth lowest of all state schools of medicine, and the lowest of any medical school taking 100 students.

Another major consideration is the available source of qualified candidates for admission. During the past four years the total number of applications from Oklahoma residents to our medical school, by those who meet the minimal requirements for admission, has steadily declined. The 1959 class had to be selected from 111 bona fide resident applicants. (While 125 applicants filed, 14 withdrew their applications.) Of these 111 applicants, 7 failed to maintain their required academic college record prior to entrance, or they withdrew voluntarily after being accepted. Thus, the class had to be selected from 104 resident applicants. This situation gave very little opportunity for the Admissions Board of the School of Medicine to evaluate and select the type of student in whose hands we would like to place our health and our lives. Until such time as colleges in Oklahoma have in their student bodies a larger number of qualified students seriously interested in a medical career and able to finance it, the matter of securing and admitting non-residents of proper caliber should be carefully considered.

The Regents of the University took an active step in this direction in 1954, when they authorized the Admissions Board to accept up to ten percent of the entering class from non-resident applications. The School of Medicine publicized this fact in the Handbook of the Association of American Medical Colleges, available to pre-medical advisers in colleges and universities throughout the country, and also in the Bulletin of the School of Medicine. Our experience this year has been that 70 out-of-state applications were filed, only 14 of which met the scholastic requirements for non-residents, which requirements are somewhat higher than those for residents. Of these 14 applicants, 9 withdrew, and 2 were selected for admission. It is likely that many qualified non-resident applicants hesitate to apply at medical schools that limit their acceptance of non-residents to a small fraction of the class.

Available information indicates that the number of students attending Oklahoma colleges should increase in the future, at which time our School of Medicine should receive more qualified applicants from within the state. There
would seem to be no logical advantage in increasing the number of places in the entering class until sufficient bona fide applicants are available. Meanwhile, we could devote ourselves to measures that might stimulate the number of qualified applicants. Experience shows that the largest number of acceptable applicants derives from the University of Oklahoma. There may be some way in which the University authorities could further energize its pre-medical advisory program or prepare even more qualified applicants for medical training. We would be happy to assist the President in any such undertaking if deemed advisable. Concerning other colleges in Oklahoma, our administration also keeps in continuous contact with their pre-medical advisers.

If the School of Medicine is to help efficiently in fulfilling Oklahoma's need for well trained physicians, it is necessary to select such students as can and will complete their training satisfactorily, regardless of origin. Merely enlarging the number of places for students in the entering classes, with no regard to qualifications of students, will not solve the problem. If the number of qualified applicants from the colleges of Oklahoma is insufficient, we are left with the question of what can be done in the area of non-resident applicants. Recalling that the tuition fee for non-resident students is $1,000 per year (which is double that for residents) it is possible that the non-resident applicant at present finds it financially impractical to apply at a medical school in a distant state if he can be accepted near home. The problem of attracting qualified non-resident applicants is a complicated one; we would be glad to confer with any group authorized by the Regents in regard to it.

Prior to receipt of the President's letter of September 12, the Faculty Board of the School of Medicine, at its meeting on September 9, approved a resolution which would make it possible to train up to ten additional qualified medical students on a combined M.D.-Ph.D. program. There is a need throughout the state and country for this type of specialized graduate, and it is possible that the Medical Center would be able to get much of the program financed through granting agencies. If the President and the Regents approve such a program we would undertake its development. The unique merit of this program is that it would minimize certain of the complications of finances, facilities, and teachers needed to instruct more students. Vacancies which develop in the upper classes due to failure, death, and withdrawal could be filled with these M.D.-Ph.D. candidates, avoiding the overtaxing of our clinical facilities. The major additional costs would occur primarily in the first two years of the medical school classes. It is felt that monies securable from granting agencies could be used to cover initially the greater part of these expenses. This program would also give an opportunity to attract both resident and non-resident students of high caliber. For the purpose of presenting the proposal in proper fashion, I am enclosing a separate letter and outline of the Faculty Board's resolution to the President of the University.

September 28, 1959

Dear President Cross:

At the September 9 meeting of the Faculty Board of the School of Medicine, the following resolution was unanimously approved.
"That the Regents be requested by the Faculty Board and the Dean to authorize an additional ten students for entrance into the first year of medical school with the following stipulations.

These ten additional places to be reserved solely for students admitted to the Graduate College, accepted by one of the medical science departments as candidates for the Ph.D. degree, and accepted for admission to the School of Medicine by the Admissions Board. These students are obligated to complete the first two years of medical school training and then to complete their training for a Ph.D. degree in the medical science division of the Graduate College. Upon certification that all requirements for the Ph.D. degree have been met, and provided not more than three years have elapsed, these students are eligible for the completion of their Medical School program. There should be no geographic limitations on the selection of these students."

The reason for the proposal at this time is that Associate Dean P.E. Smith of the Graduate College and Associate Dean Kirk T. Mosley are preparing to seek a grant to finance certain aspects of this dual M.D.-Ph.D. program. The National Institutes of Health are interested in the development of such a program. The plan will fulfill all of the requirements of the University for both degrees over a period of six or seven calendar years, with no reduction in standards for either degree. The students in the program would have to meet the requirements for admission to the Graduate College and also be accepted by the Admissions Board of the School of Medicine.

I heartily approve of this request, and I respectfully submit it to the President for consideration by the Regents at their October meeting. If permission for this program is given we can proceed to apply formally for the grant.

Respectfully yours,

/s/ Mark R. Everett

The reports were discussed but no action was taken on the matter of admissions to the freshman class. It was agreed to postpone further discussion to the November meeting.

In Dean Everett's letter of September 28, reporting on a resolution adopted by the Faculty Board of the School of Medicine at a meeting held on September 9, a recommendation was made to request the Regents to authorize an additional ten students for a combination M.D.-Ph.D. program.

The Regents approved this proposal as shown in the resolution included in the letter from Dean Everett. The motion for approval was by Regent Savage.
President Cross reported in 1949 four temporary buildings were moved to the Medical Center campus from Will Rogers Field with the help of the State Department of Health. The terms of the agreement dated January 12, 1949, were such that the title to the buildings became vested solely in the University of Oklahoma. One of the four buildings was disposed of several years ago.

Dean Everett now recommends that the Regents authorize disposing of two of the three remaining buildings. The present condition of the buildings makes it unwise to repair or remodel the structures. The one remaining building is being used by the State Health Department to continue some limited activities.

President Cross recommended the Regents authorize advertising the buildings for sale on a "where-is-as-is" basis, the structures to be removed in a reasonable length of time, repair any damage resulting from the removal, and leave the site reasonably clean to ground level.

Approved on motion by Regent Morgan.

President Cross reported Dean Everett reports that Dr. J. C. Horton, recently named Associate Preceptor at Frederick, has left that city. Dr. George A. Tallant, Preceptor, has submitted the name of Dr. William G. Harvey, Jr., as a replacement for Dr. Horton. President Cross recommended that Dr. Harvey be named Associate Preceptor at Frederick.

Approved on motion by Regent Northcutt.

A report on Gifts and Grants at the Medical Center for the period July 1 to August 4, 1959, in the total amount of $89,283.00 was presented by President Cross.

President Cross recommended approval of scholarship grants and service scholarships from the Will Rogers Memorial Fund for the school year 1959-60, including several changes and additions from the original list submitted by the University Scholarship Committee, the revised list of grants and scholarships as shown below:

Regent Savage moved approval of scholarships as revised by President Cross.

The Chair stated he would like to see an analysis of the entire program with a view to determine in advance whether the attendance in college would rehabilitate the individual. He stated he would vote for approval of the recommendation only because several members of the Board are absent; that if all members were present he would vote NO. The motion by Regent Savage carried.

President Cross stated he would ask Dr. Stanley Clifton, Chairman of the Will Rogers Scholarship Committee to have a conference with Regent Grisso on the matter.

President Cross recommended that F. Donald Clark, Associate Professor in the School of Drama, be appointed Acting Dean of the College of Fine Arts,
October 7, 1959

effective October 1, 1959, and that he be paid $50 per month in addition to his regular salary until a new dean is appointed. His salary as Associate Professor is $8,112 on a twelve-month basis. The $50 per month additional will make the total rate $8,712 on a twelve-month basis.

Approved on motion by Regent Morgan.

Personnel recommendations as shown in the agenda were recommended for approval by President Cross. He called attention to several changes which have occurred since the agenda was mailed and asked that they be inserted, the revised recommendations follow:
