IV. Reorganization, Establishment, Discontinuing of Departments

a. Change in Department Names

The School of Medicine has requested that the name of the Department of Physiology be changed to Department of Physiology and Biophysics and that the name of the Department of Biochemistry be changed to Department of Biochemistry and Molecular Biology.

They pointed out that the subject matter concerned is presently being taught in the above named departments, and that the proposed changes in the departmental names would more clearly define their activities, in conformance with other leading medical schools in the nation. It was also stressed that many of the new faculty members being recruited are biophysicists and molecular biologists, and that in the opinion of the above departments the proposed changes in name would further assist in their recruiting efforts.

This proposal has been submitted to the Council on Instruction and approved.

President Hollomon recommended that the name of the Department of Physiology be changed to Department of Physiology and Biophysics and that the name of the Department of Biochemistry be changed to Department of Biochemistry and Molecular Biology, effective immediately.

Approved on motion by Regent Sparks.

President Hollomon said the Student Constitution was ratified by a second election held on March 24, 1969, after the first one was declared questionable by the student convention. The vote was 2,014 to 1,505. The constitution approved at the second election was identical with the one voted on previously.

After reviewing this document, President Hollomon said he finds it is generally consistent with the plan of The Future of the University and recommended approval effective immediately. Acceptance is, of course, subject to the provisions of the University Constitution now in preparation in the event of conflict. President Hollomon recommended further that the Student Constitution be approved with the understanding that student actions under Articles VII and VIII are subject to approval of the President of the University and, if required, the University Regents. It should be clearly understood that the Student Bill of Rights applies only to protect the student against the actions of the student government. The University Constitution will provide a Bill of Rights for the University generally.
So that the interim student government could begin its business, President Hollomon said he has indicated his general acceptance of the Student Constitution to the convention and the new government has now begun its work.

In presenting the Student Constitution to the Regents, President Hollomon made the following statement:

"You have before you my recommendation to approve the Constitution of the University of Oklahoma Student Association. It was ratified by one of the largest votes in the history of student government at the University of Oklahoma. It provides for self-government in student affairs. It also provides for student participation in University affairs, along with faculty and administration. I have placed it before you with my approval subject to some understandings that should be made explicit.

"The first is that Article VII relating to the publications board and its structure as well as funding is of concern to the entire community. This subject is not of such a nature that the student government ought to have exclusive authority. It is clearly understood that any student action under that article will be considered as a recommendation which requires further action by the President or in appropriate cases the Board of Regents. In other words nothing in the student constitution will impair the independence or integrity of the freedom of the press under its governing body. Moreover, the University Constitution now being drafted by a committee authorized by the Regents will be asked to consider adequate protection to insure the independence and freedom of the press consistent with the plan for The Future of the University.

"Second, Article VIII provides for appropriations of student fees by the Student Congress. There may be fees which are now under the control of the President and Regents, and any appropriations by the Student Congress will be subject to the approval of the President and in appropriate cases the Regents. In other words appropriations under Article VIII will be in the nature of appropriation requests.

"Third, there has been some concern expressed about the extent of Article XIII, the Student Bill of Rights. Some members of the University community have expressed the fear that the Bill of Rights written by the students would be construed to extend to the entire University. This has no foundation in fact of intent. The Bill of Rights provision in the Student Constitution applies only to action by the student government against students.

"The Student Constitution creates a Student Congress made up of representatives elected from housing districts, a student President elected by all students and a judiciary to apply the rules passed by the Student Congress. In addition, the Congress may initiate legislative proposals affecting
April 17, 1969

the entire University. The student Bill of Rights protects fundamental freedom of students against the student government.

"The Student Constitution was entirely the work of students. There may be some who do not like every single provision. There may be some who may be inclined to treat it lightly and believe they are entitled to withhold recognition because it was not written their way. There may be some who think it will lead to more of the same old meaningless student government run by a handful of students that are not representative of the rest. Some may claim special treatment. Some may favor protecting their vested interests at the expense of others.

"But with all its faults as a human product, it speaks for all interests. And all interests should participate, for it will govern them all.

"My faith in student self-government and participation in University affairs has been enormously strengthened and confirmed. For this, I am deeply grateful.

"The entire state, and certainly we in the University community, ought to give the students at OU our compliments and our confidence."

President Hollomon recommended adoption of the following Resolution:

Be it resolved by the Regents of the University of Oklahoma this 17th day of April, 1969, that they hereby approve and ratify the Constitution of the University of Oklahoma Student Association subject to the following interpretations:

1. The Constitution of the Student Association is subject to the provisions of the Constitution of the University of Oklahoma.

2. That Article VII relating to the Publications Board and its structure as well as its funding is the concern of the entire community and because of its nature is not one under which the student government has exclusive authority. Any action under this article shall be considered a recommendation to the President and to the Regents.

3. That under Article VIII the action of the Student Congress shall be considered a recommendation to the President.
and to the Regents in the same manner as other budget requests from the various colleges are recommendations.

4. That the Student Bill of Rights under Article XIII shall apply only to action by the Student Government against the students and there shall be included in the University Constitution an overall Bill of Rights for the University Community.

When the Student Constitution is published this Resolution shall be published with that Constitution in order that this approval is clearly understood by all members of the University Community and the public at large.

President Hollomon said that Mr. Bob Ruggles, representing Sigma Delta Chi, and Mr. W. G. Henthorne, representing the Oklahoma Press Association, had requested permission to address the Board before the Regents took action on the Student Constitution. Mr. Houchin stated he had no objection to this request.

The main concern of Mr. Ruggles and Mr. Henthorne was Article VII having to do with the Publication Board and Article VIII pertaining to the appropriation of student fees. Mr. Ruggles and Mr. Henthorne both agreed that most of their reservations about these two Articles have been answered by the Resolution proposed by President Hollomon. Mr. Ruggles requested, however, that any recommendations pertaining to Article VII and Article VIII of this Constitution which may be presented by the student government to the President and the Regents be laid upon the table for a period of one month before action is taken.

President Hollomon replied that any major recommendations for changing policy initiated either by the students or by the faculty will be made public for an appropriate period of time before action is taken, whether or not the recommendations deal with this problem. He said he can give this broad assurance, but will not single out this one issue.

Regent Santee moved adoption of the Resolution proposed by President Hollomon.

Approved.

E. Finance and Management

I. Investments
President Hollomon reported the following funds are or will be available for investment:

Murray Case Sells Foundation - $5,048.70 cash

Noble Auxiliary Flying Field Sales Account - $163,820 6-1/8% Certificate of Deposit maturing on May 15, 1969

President Hollomon recommended that, since the Sells Foundation is used for the matching portion for the National Defense Student Loan Fund, a Treasury Bill to mature on or before September 1, 1969 be purchased with the $5,048.70 cash available.

He recommended also that the principal and interest of the $163,820 Certificate of Deposit in the Noble Auxiliary Flying Field account be reinvested in a Certificate of Deposit or Treasury Bills, whichever will bear the highest rate of interest, for a period of six months.

Vice President Brown reported that in addition to the investment items included in the agenda, J. & W. Seligman had recommended that the $2,249.87 cash in the Murray Case Sells Building Fund be used to purchase two Treasury Bills to mature on July 3, 1969.

On motion by Regent Sparks, all of the above investment recommendations were approved.

b. May M. Walker Estate

President Hollomon requested permission to add to the agenda for this meeting consideration of a matter pertaining to the settlement of the May M. Walker Estate. The Regents unanimously agreed to consider the matter at this time.

President Hollomon reported that the University has received a little more than one-half of the funds bequeathed to the University by the late May M. Walker. He said there are a number of properties, both in stocks and bonds and in real estate, which the executors of the Walker Estate have asked the University to consider as final settlement of the University's interest in the Estate. Since some negotiation is involved, he
recommended that the Regents authorize the President of the University to accept on behalf of the University, subject to the recommendations of Mr. David Swank, legal counsel, and Mr. Boyd Gunning, Trust Officer, such real property or otherwise to fulfill the bequest from the Walker Estate.

On motion by Regent Sparks, the recommendation was approved.

IX. Insurance

a. Fringe Benefit Program

President Hollomon said that during the past year the University and Blue Cross and Blue Shield have had many, many problems in determining the proper carrier to pay hospital and surgical claims for employees who have reached age 65. All employees who have reached this age are strongly urged to sign up for Medicare coverage. The additional insurance coverage, particularly for those who are retired, has not been commensurate with premiums when the costs of Medicare are considered.

Patterns have now been well established regarding the items that will be paid by Medicare for both retirees and their dependents. Changes should now be made in the University's program. For some time representatives from the University and from the Blue Cross/Blue Shield office in Tulsa have been meeting to work out a more satisfactory insurance program, particularly for the retired employee.

A lesser problem exists regarding the employee who has reached age 65 but has not yet retired. The present contract provides that to the extent that benefits are available through the Medicare program, Medicare becomes the prime carrier with supplements being made by Blue Cross and Blue Shield to provide basic coverage available to all employees. The supplement is often very minor, and the additional benefits for the employee who is 65 are not commensurate with the premiums paid by the employee for Medicare coverage and by the University for the supplemental coverage.

For the Class I employee (regular employee with University paid premiums) and Class VI (dependents of Class I employees) most of the problems could be solved by removing the exclusion provision from the contract regarding Medicare benefits. This will permit Blue Cross and Blue Shield to coordinate benefit payments with Medicare, thereby allowing them to pick up the coverage not provided by Medicare to the limit of the contractual amounts. The premiums do not change, but additional coverage would be afforded to those who are over 65.

Blue Cross and Blue Shield has an insurance program known as the Plan 65 coverage with extended benefits to a basic coverage. The base coverage premium is $4.00 per month with a premium of $3.00 additional to obtain
the extended benefit coverage. A copy of the Plan 65 was enclosed with the agenda for this meeting for the information of the Regents. Many of our retirees currently carry this (as additional to themselves) in addition to the OU plan.

The following is a summary of the present and proposed premiums if the Plan 65 with extended coverage is adopted for employees and dependents who are over 65. In some cases the premiums increase, but additional insurance coverage is provided to offset the increase in premium for those over 65. The University pays the premiums in Classes I and III only.

President Hollomon recommended that effective July 1, 1969 the University Fringe Benefit Program be amended to incorporate the Blue Cross/Blue Shield Plan 65 with extended benefits into the program. The University would, of course, continue to pay the premium for the employee and the retiree, with the dependent coverage being paid by the individuals involved. If the recommendation is approved, there are four amendments that need to be signed in order to change the contracts for both Blue Cross and Blue Shield. President Hollomon also recommended that the President of the University be authorized to sign the amendments for the University.

Approved on motion by Regent Davies.

X. Collection Policies

a. A Procedure for the Collection of Student Debts

I. Procedures providing a method for the collection of student debts and appeal.

A. These procedures clarify existing practices of the University governing the collection of delinquent student debts, assign responsibility for the supervision of the procedures for the collection of such debts and provide the students with a method whereby they may appeal a determination of indebtedness.

B. Categories of Student Debts - The debts of students shall be divided into three categories as follows:

1. Category I - Insufficient fund checks and delinquent enrollment fee payments.

2. Category II - Delinquent housing payments.

3. Category III - Traffic fines, library fines, delinquent student health service payments, delinquent laboratory breakage fees, and miscellaneous types of indebtedness.

C. Procedure to Collect Debts

Category I. Insufficient funds checks and delinquent enrollment fee payments.
Whenever a student attempts to pay enrollment fees with an insufficient funds check, and the student does not respond to routine notification regarding the check, steps will be taken as follows:

**Step 1.** A form notice will be mailed to the student.

**Step 2.** If the student does not respond to the notice within 5 days, a certified letter, return receipt requested, will be mailed to the student to explain that suspension will be recommended unless the fees are paid within 10 days. A copy of the letter will also be mailed to a single student's parents, certified mail, to keep them informed about the debt. A letter will not be sent to parents of students 21 years of age or older.

**Step 3.** If the indebtedness is not paid within 10 days or a satisfactory agreement for payment made after the date of the delivery of a certified letter, the Bursar will notify the Director of Registration in writing of the amount of indebtedness and request that the student be suspended.

**Step 4.** The Director of Registration will suspend the student, notify University personnel concerned about the suspension action, and inform a single student's parents of the suspension. A letter will not be sent to parents of students 21 years of age or older.

**Step 5.** If the certified letter to the student is returned by postal authorities undelivered, a personal contact will be made by the personnel from the Bursar's office.

**Step 6.** Should the personal contact fail to yield results within 5 days after the date of contact, the Bursar will notify the Director of Registration in writing of the amount of indebtedness and request that the student be suspended. Step 4 action will take place.

**Category II. Delinquent Housing Payments.**

Before students are assigned to housing units, they sign contractual agreements which specify the dates when housing payments are due. The University considers this to be a first notification to the student. Should a student fail to make a housing payment within 10 days after it is due, steps will be taken as follows:

**Step 1.** A "past due account" notice will be mailed to the student.

**Step 2.** If the student does not respond to the notice within 5 days, a personal contact will be made by a dormitory counselor to inform the student of his indebtedness. A first class letter will also be sent to a single student's parents to keep them informed in the matter. A letter will not be sent to parents of students 21 years of age or older.
Step 3. Should the procedures described in steps 1 and 2 fail, a certified letter, return receipt requested, will be mailed to the student to explain that suspension will be recommended unless the fees are paid within 10 days. A copy of the letter will also be mailed to a single student's parents, certified mail, to keep them informed about the debt. A letter will not be sent to parents of students 21 years of age or older.

Step 4. If the indebtedness is not paid within 10 days or a satisfactory agreement for payment made after the date of the delivery of a certified letter, the Director of Housing will notify the Director of Registration in writing of the amount of indebtedness and request that the student be suspended.

Step 5. The Director of Registration will suspend the student, notify University personnel concerned about the suspension action, and inform a single student's parents of the suspension. A letter will not be sent to parents of students 21 years of age or older.

Step 6. If the certified letter is returned by postal authorities undelivered, a personal contact by the personnel from the Housing Office will be made.

Step 7. Should the personal contact fail to yield payment results within 5 days after the date of contact, the Director of Housing will notify the Director of Registration in writing of the amount of indebtedness and request that the student be suspended. Step 5 action will take place.

Category III. Traffic fines, library fines, delinquent student health service payments, delinquent laboratory breakage fees, and miscellaneous types of indebtedness.

The procedures recommended for a debtor in this category will only be instituted if the student accumulated over $25.00 in total indebtedness to the University. For example, a student who accumulated a $10 debt to the Student Health Service, $15 in traffic fines, and owed $1 to the University Library would be subject to the procedures. No suspension action would be taken relative to another student who owed $15 to the Library, $5 to the Student Health Service and $4 in traffic fines. A student with less than $25 due under Category III will still be subject to an "enrollment stop" procedure to prevent re-enrollment in the University until all indebtedness are cleared.

Step 1. A form notice will be mailed to the student.

Step 2. If the student does not respond to the notice within 5 days, a certified letter, return receipt requested, will be mailed to the
April 17, 1969

student to explain that suspension will be recommended unless the fees are paid within 10 days. A copy of the letter will also be mailed to a single student's parents, certified mail, to keep them informed about the debt. A letter will not be sent to parents of students 21 years of age or older.

Step 3. If the indebtedness is not paid within 10 days after the date of the delivery of a certified letter or a satisfactory agreement for payment is made, the Bursar will notify the Director of Registration in writing of the amount of indebtedness and request that the student be suspended.

Step 4. The Director of Registration will suspend the student, notify University personnel concerned about the suspension action, and inform a single student's parents of the suspension. A letter will not be sent to parents of students 21 years of age or older.

Step 5. If the certified letter is returned by postal authorities undelivered, a personal contact will be made by a Bursar's representative.

Step 6. Should the personal contact fail to yield payment results within 5 days after the date of contact, the Bursar will notify the Director of Registration in writing of the amount of indebtedness and request that the student be suspended. Step 4 action will take place.

D. Effect of withdrawal or termination of enrollment while indebted

Students who withdraw, transfer or otherwise terminate their enrollment at the University with financial indebtedness will have their official student records flagged and their transcripts shall not be released to other persons, institutions or agencies until all debts are paid.

E. Officers responsible for enforcement of Debt Collection Policy

The Vice President for Finance and Administration in cooperation with the Vice President for the University Community and the Vice President for Operations, or their designees, shall be responsible for the supervision of the procedures set out herein.

F. Appeal Procedures

1. Right of Appeal. All students shall have a right of appeal from any determination concerning any debt sought to be collected under this procedure. In the event that a student believes that concerning such debt he has been charged an improper fee or that the amount of
alleged indebtedness owed to the University is or has for any reason been incorrectly stated or that there is some other error in the statements submitted by the University, he may ask for a hearing in order that he may present his statement of facts.

2. Appeals Committee. The President of the University shall appoint a committee of three to sit as an appeals committee. Two members of the committee shall be selected from the faculty or staff of the University and one member shall be selected from the student body of the University. The faculty members or staff members shall be appointed for a term of two years. The student member shall be appointed annually. If necessary the President may appoint two or more appeal committees.

No member of the staff of the Office of Admissions and Records, Bursar's Office or Housing Office shall be appointed to the Appeals Committees.

3. Time and Method of Appeal. In order for a student to exercise his right of appeal under this policy, he must notify the Bursar's Office of his desire for a hearing before the date of his suspension. If a student shall fail to exercise his right of appeal prior to the date of his suspension then the suspension shall be final. This shall not preclude the student from contesting the amount of the indebtedness upon his application for readmission during any subsequent semester. In order to appeal a Category III debt the student must first pay the amount of the indebtedness. If the appeal is decided in favor of the student, the payment shall be promptly refunded to him.

4. Notice of Right to Appeal. It shall be the responsibility of all University personnel contacting students concerning the collection of debts under this policy to notify the student of his right of appeal or hearing. All letters or notices sent to students under this policy shall contain a statement of the right to appeal.

G. Effect of Suspension

1. If suspension action is taken, the student shall not be reinstated within the same semester or term the suspension occurred.

2. If suspension action is taken, the effective date shall be ten (10) calendar days after the date when a certified letter has been delivered to the student or five (5) days after a personal contact with the student has been made by a University representative. The student shall then be officially withdrawn from the University and shall receive grades under academic regulations applicable on the date of suspension.
II. Regulations Supersede Existing Regulations.

These regulations supersede all previous regulations on collection of student debts adopted by the Regents.

President Hollomon recommended that the Regents approve the Debt Collection Policy shown above to become effective immediately.

Approved on motion by Regent Huffman.

II. New Construction

a. Program Consultant - Student Activities Center

President Hollomon said that since the problems of programming a new facility and retaining the existing Oklahoma Memorial Union in its present use (or possible reassignment of certain spaces and activities) are of such a complex nature, it is felt that a recognized consultant knowledgeable of such facilities is necessary to program joint use of both facilities to the ultimate best advantage of the total University community.

If the appointment of a consultant is approved, compensation for the consultant's services can be agreed upon following final selection, but it has been suggested that the compensation not exceed $150 per day plus travel costs and living expenses while traveling.

President Hollomon recommended that the Regents authorize the President of the University to employ a consultant to develop a written program for the Student Activities Center with the understanding that the total fee paid the consultant may not exceed $5,000.
b. Change Order - Power Plant Expansion Project

President Hollomon reported the following changes have been proposed for the Power Plant Expansion project:

1. For increased capacity boiler feed pumps  
   ADD $16,247.46
2. For changing Bailey Meter controls  
   ADD 2,488.67
3. For revising the boiler feed piping  
   DEDUCT 11,511.97

   NET ADDITION $7,224.16

These changes have been approved by the project architect, Hudgins, Thompson, Ball and Associates, by the University's Director of Facilities Planning, and by the Vice President for Operations.

President Hollomon recommended approval of change order No. 5 to the contract with Link Cowen Construction Company for the Power Plant Expansion as shown above.

Approved on motion by Regent Santee.

c. Major Capital Improvements Report

As shown on the attached three pages, a report was presented to the Regents on major capital improvements projects now under construction and in various stages of planning on the Norman and Oklahoma City campuses. No action was required.

III. Repairs, Remodeling, and Renovation

a. Air-Conditioning Cate Center

President Hollomon said air-conditioning Cate Center has been recommended by the Vice President for Operations and the Vice President for the University Community. He said that although it will not be possible to complete fully the project by September, 1969, every effort will be made to phase the construction work so that the least amount of disruption to occupancy will occur. The estimated cost of the project is $250,000.

President Hollomon recommended that the Regents select a consulting engineer to undertake immediately the design of and development of construction documents for fully air-conditioning Cate Center.
Regent Sparks, Chairman of the Architectural Committee, stated the committee recommends the appointment of Carnahan and Thompson, Oklahoma City, as consulting engineers for this project.

President Hollomon's recommendation and the appointment of Carnahan and Thompson were approved on motion by Regent Sparks.

VI. Purchases

a. Dissecting Tables

President Hollomon reported that bids were circulated through Central Purchasing for furnishing cadaver dissecting tables and extra stainless steel cadaver storage trays. These trays and tables are part of the equipment for the Basic Science Building now being constructed on the Oklahoma City Campus.

Eleven companies were invited to bid on these items but only one bid, that of King Metal Products, Inc., was received. Although the specifications used were those of King Metal Products, Inc., the invitation to bid clearly stated that other designs would be considered and were solicited.

The bid of King Metal Products, Inc. is as follows:

16 cadaver dissecting tables $17,392
Alt. 1 - 16 tables with trays but without book holders 16,832
Alt. 2 - 8 extra stainless steel trays 840
Alt. 3 - 272 extra stainless steel trays 26,112

President Hollomon recommended acceptance of the base bid of King Metal Products, Inc. in the amount of $17,392 and alternate No. 3 in the amount of $26,112 for a total cost of $43,504. Funds are available to cover the cost of these items.

Approved on motion by Regent Davies.
