A regular meeting of the Board of Regents of the University of Oklahoma was held in the Oklahoma Memorial Union Building, Dining Room 5, on the Norman Campus of the University on Thursday, April 11, 1974, beginning at 11:00 a.m.

The following were present at the meeting: Regent Jack H. Santee, President of the Board, presiding; Regents Walter Neustadt, Jr., Mack M. Braly, Thomas R. Brett, Bob G. Mitchell, M.D., and K. D. Bailey.

Absent: Richard A. Bell. Mr. Bell was appointed by Governor Hall to replace Huston Huffman for a seven-year term ending March 21, 1981. Mr. Bell's appointment, however, had not been confirmed by the Senate at the time of this meeting.

The following were also present: Dr. Paul F. Sharp, President of the University; Dr. I. Moyer Hunsberger, Provost, Norman Campus; Dr. William E. Brown, Acting Provost, Health Sciences; Vice Presidents Burr, Dean, Morris, Nordby, and White; Mr. Joseph C. Ray, Executive Assistant to the President; Mr. R. Boyd Gunning, Trust Officer; Dr. Thomas H. Tucker, Chief Counsel; and Mrs. Barbara H. James, Secretary of the Board.

The minutes of the meeting held on March 14, 1974, were approved as printed and distributed prior to the meeting.

President Sharp commented there have been in the press from time to time observations about accreditation reviews by various bodies of areas of the University. He said we have recently gone through an accreditation review of our College of Dentistry. No formal report has been received, but he said this was a very exciting review and visit. He said the committee was enthusiastic about the curricular system being developed in the College, and they praised the quality of the faculty and the leadership that Dean Brown has brought to the College of Dentistry.

President Sharp reported he has launched the search for a Provost for the Health Sciences. He said this will be a national search, and the committee is headed by Dr. Tom Lynn. President Sharp called attention to the praiseworthy role that Dr. William Brown has played as Acting Provost and reported that he has agreed to remain on until a permanent Provost is selected. Dr. Sharp said he believes the people of the State of Oklahoma owe Dr. Brown a vote of thanks for the leadership he has provided during this past year.
Regent Santee added the commendation of the Board and joined in the comments made by President Sharp. He said working with Dean Brown the Regents appreciate the contributions that he has made in very troubled times, and the sensitivity of the situation and the great difficulty of it for his personal relations at the Health Sciences Center.

Regent Santee presented the following committee assignments for 1974-75 and asked the Secretary to insert the appointments in the minutes for this meeting:

**Administration and Organization Committee**

Regent Santee said Regent Brett assumed his duties as Chairman of the Facilities Planning Committee yesterday. Regent Brett presented a report on items considered by the Facilities Planning Committee as follows:

Modifications to Clinical Areas – Dental Clinical Sciences Building

Regent Brett reported that following the completion of plans for the Dental Clinical Sciences Building, a cluster of 24 clinical operatories, as planned for the new building, were installed in the Interim Building and subjected to intensive use and analysis by faculty and students. Based upon this analysis it became clear that the prototype incorporated in the Dental Clinical Sciences Building has certain significant deficiencies which should be eliminated through a limited redesign of the clinical modules. Mr. Brett said the justification for the recommended modifications was presented to the Facilities Planning Committee at the meeting yesterday.

The implications of these changes to the existing contracts for construction and architectural and engineering services have been examined in detail by the administration. If the changes are authorized, there will be an additional design fee based upon the terms of the extra service provisions of the University's contract with McCune and McCune of approximately $8,552. Under this procedure the architects will maintain records on the additional time spent and charge the University in accordance with the terms of the contract in an amount not to exceed $8,552, the estimated cost of the redesign work. While the redesign phase has not been initiated, a preliminary investigation of the extent and nature of the required modifications suggests that they can be accomplished at very little, if any, additional cost to the project.

Mr. Brett said funds for the additional design work are available from the project contingency allowance.

Regent Brett said the administration and the Facilities Planning Committee recommend that McCune and McCune, project architects for the Dental Clinical Sciences Building, be authorized to proceed with the required redesign of the dental clinical operatories at an additional fee not to exceed $8,552, as explained above, and he so moved. Approved.

Law Center Building

Regent Brett reported that following the March 14 meeting the project architects redesigned major portions of the Law Center Building thereby reducing the gross area from approximately 110,000 square feet to approximately 96,000 square feet. Mr. Brett said new cost estimates have been prepared by H. A. Lott, Inc. based upon these revised plans. The construction manager now estimates that the project as redesigned can be constructed for $3,501,800 if the project is bid and work is scheduled to start within six months.
Regent Brett said the Facilities Planning Committee and the administration recommend that the project architects be authorized to proceed with the preparation of working drawings and contract documents for the project with an estimated project construction cost of $3,501,800 (total cost of $4,176,000), and he so moved. Approved.

Stadium Expansion

The schematic plans for the stadium expansion were approved at the March 14 meeting with the understanding the project would be modified to reduce the construction cost estimate to $4,200,000 without reducing the number of seats in the deck below 9,100. Regent Brett said during the past month representatives of Lockwood, Andrews, and Newnam, Inc., have reexamined the scope and design of the project and have recommended the following changes:

1. Reduce the size of the press box by removing the top or camera level.

2. Place four or six elevators into an alternate bid category.

3. Include the construction of the main lounge located on the concourse at elevation 152 feet as an add alternate item.

Regent Brett said a revised project cost estimate dated April 5, a copy of which is attached, was also presented to the Facilities Planning Committee which provides for construction of the base project for $4,200,000.

Regent Brett said the administration has recommended that the contract with Lockwood, Andrews, and Newnam, Inc. for professional services be limited to the following base bid and alternate items identified in the attached revised cost estimate:

1. Upper deck expansion (9,100 seats), including Items A, 1-12.

2. Overlay of existing stadium seating area, including Items B, 1 and 2.

3. Main lounge, Item C.

4. Four additional elevators, Item D.

5. Press box addition, Item E.

Under this plan, the design engineers would not be authorized to prepare plans for Items F, G, H, and I previously included in the project scope of services.

Regent Brett said the recommendation of the administration and the Facilities Planning Committee is approval of (1) the revised cost estimate, (2) the changes in the project scope as explained, (3) the adjustment in the architectural and engineering services contract as explained, and (4) proceeding with the working drawings and contract documents. Regent Brett moved approval of the recommendation. Approved.

Kaufman Hall and Gittinger Hall Renovation

Regent Brett reported the design study and preliminary plans for this joint renovation project were presented to the Facilities Planning Committee at the meeting yesterday. He asked Mr. Arthur Tuttle, University Architect, to explain.

Mr. Tuttle said the plans call for the following types of work in both buildings:

1. Modifications to the heating and ventilation systems and installation of new air conditioning systems.
2. New electrical service and lighting.
3. New acoustical ceilings.
4. Repainting of all major interior spaces,
5. Minor interior repairs and renovations.
6. Fire safety modifications.
7. Installation of fire alarm systems.

Mr. Tuttle said the engineers estimate that the basic scope of the work outlined above can be accomplished with the funds available for the project—$479,798 for Kaufman Hall and $372,298 for Gittinger Hall.

Regent Brett moved approval of the preliminary design plans and study for the Kaufman Hall and Gittinger Hall renovation project, subject to corrections and adjustments in accordance with staff review comments. Approved.

Regent Braly reported he attended the March 25 meeting of the Oklahoma State Regents for Higher Education. He said four requests from the University were on file with the State Regents for consideration: (1) the request for an allocation of Section 13 funds in the amount of $30,000 for the installation of a Talkback Television transmitting classroom, (2) a request for an allocation of Section 13 funds for the IBM 370-158J computer, (3) a request for an increase in the fees for the Bachelor of Liberal Studies program to be effective for the fall 1974, and (4) a request for a change in the standards relating to the academic calendar for continuing education programs.
April 11, 1974

All of these were approved. The State Regents also were in receipt of two communications, one from Dean Wright pertaining to their approval of the joint J.D.-M.B.A. program, and one from graduate students in Education. He said the J.D.-M.B.A. program had been approved in accordance with the Plan for the 70's and the letter from the graduate students was referred to the University administration.

Approved on motion by Regent Brett.
c. John A. Schilling Chair in Surgery

By memorandum agreement dated May 2, 1963, and amended September 4, 1967, between the University of Oklahoma, the University of Oklahoma Foundation, and Dr. John A. Schilling, a Chair in the Department of Surgery was established. President Sharp said this endowment now represents a gift from Dr. Schilling of $500,000. It is anticipated that this fund will produce approximately $25,000 per year which can be used in support of the professorship. Dr. Schilling has requested that the Surgery Chair be activated in accordance with the memorandum agreement. The administration of the Health Sciences Center has recommended that the Chair be named the John A. Schilling Chair in Surgery.

President Sharp recommended:

1. That the Regents express appreciation to Dr. John A. Schilling for this gift.
2. That the Chair in Surgery be activated.
3. That the Chair be named the John A. Schilling Chair in Surgery.
4. That the University administration be authorized to proceed in an appropriate manner to recommend the appointment of the first John A. Schilling Professor.

Approved on motion by Regent Mitchell.

d. Physical Therapy

President Sharp reported the Department of Physical Therapy has requested that the Physical Therapy Program be transferred from the College of Arts and Sciences, Norman Campus, to the College of Health and Allied Health Professions, Health Sciences Center Campus. This request has been approved by the Academic Programs Council and by the deans and provosts concerned.

The Department of Physical Therapy proposes to offer the final two years of the four year curriculum at the Health Sciences Center. Since the establishment of the program in 1954, Physical Therapy students have been following a "three plus one" approach; that is, the first three years on the Norman Campus, and the final year of professional training on the Health Sciences Center Campus with the degree awarded by the College of Arts and Sciences. The Department of Physical Therapy now proposes that the final two years be held at the Health Sciences Center with the Bachelor of Sciences degree conferred through the College of Health and Allied Health Professions. Students in the first two years of undergraduate program will be enrolled in the University College, and upon meeting the admission requirements, will transfer to the College of Health and Allied Health Professions upon accumulation of 64 or more semester hours of prerequisites and electives.
With the activation of the "two plus two" plan, the program will allow the student additional time to place more emphasis on courses in his curriculum that are directed toward a comprehensive approach of understanding Physical Therapy. The professional phase of education provides the atmosphere for development of skill, judgment, and concern necessary for optimum patient care. Opportunities are also provided for each student to develop an awareness of, and an appreciation for his role as a professional in the community. This transfer will enable the granting of the degree in the College responsible for the majority of the professional work.

This move involves no budgetary change since all expenses of the program are already borne by the College of Health and Allied Health Professions.

President Sharp recommended approval of transferring the Physical Therapy Program from the College of Arts and Sciences to the College of Health and Allied Health Professions, effective with the beginning of the 1974-75 academic year.

Approved on motion by Regent Brett.

e. Change in Name of Department of Community Dentistry

The College of Dentistry has requested that the name of the Department of Community Dentistry be changed to the Department of Dental Services Administration effective July 1, 1974. This change has the approval of the administration of the Health Sciences Center.

The name Department of Dental Services Administration will more accurately reflect the greatly increased teaching and community responsibilities carried out by the Department. Health professionals must do more than just provide service; they must be concerned with policy formation, administration, and research. The teaching emphasis of this department is placed on planning, organization, delivery, and evaluation of dental health services. Efforts are made to adapt relevant concepts of administrative and organizational theory to the practical problems of providing dental health services. The department is concerned with research designed to improve the methodology of the effectiveness of dental health services and in the development and testing of models of dental health systems and sub-systems. In addition, attention is directed toward activities to acquaint the student with the important roles of government and non-profit organizations in the delivery and financing of care.

A change in the name of the Department of Family Practice and Community Health to Department of Family Practice and Community Medicine and Dentistry has been approved by the University Regents and is pending approval by the State Regents. It would be redundant and confusing, therefore, to continue the Department of Community Dentistry.
President Sharp recommended that the name of the Department of Community Dentistry be changed to Department of Dental Services Administration effective July 1, 1974.

Approved on motion by Regent Neustadt.

f. Affiliation Agreement - Eye Institute

President Sharp presented the following Agreement of Affiliation which has been proposed between the Regents and the Board of Trustees of the Oklahoma Eye Foundation, Inc. covering the affiliation of the Eye Institute and the College of Medicine.

This agreement has been considered by the Health Sciences Center Committee of the Regents. The Committee recommends approval by the Board of Regents.

This Agreement is between the Board of Regents of the University of Oklahoma, hereinafter called "University" and the Board of Trustees of the Oklahoma Eye Foundation, Inc., hereinafter called "Foundation". The purpose of this Agreement is to affiliate the Eye Institute, belonging to the Trustees and the College of Medicine, belonging to the Regents.

I. GENERAL AGREEMENT

The Foundation, in consultation with the University shall determine the services and activities it wants to have professionally supervised by the Colleges of the University of Oklahoma. The Foundation retains and cannot delegate the authority to govern the use of the Institute premises. The University retains, and cannot delegate the authority to govern the academic programs of the Colleges of the University.

The Foundation commits itself to provide an appropriate teaching environment for medical students, interns, and residents of the Department of Ophthalmology of the College of Medicine of the University of Oklahoma; and to provide staff and physical facilities of the highest possible quality to ensure exemplary patient care and to accommodate teaching and research activities in the Institute.

II. JOINT POLICY ADVISORY BOARD

In order to provide a continuing forum for the discussion of programs and policies of the Eye Institute, there shall be a Joint Policy Advisory Board consisting of ten members, five of whom will be appointed by the University, five by the Trustees of the Foundation, and all of them shall serve at the pleasure of the appointing Board. It shall be the duty and responsibility of the Board to resolve the routine operational conflicts between the educational programs and health delivery systems as they occur and to make recommendations to the respective governing Boards regarding programs and policies.
III. PERSONNEL APPOINTMENTS

The Institute shall be responsible for the employment and payment of all non-academic personnel in the Institute; the University shall be responsible for the appointment and payment of all academic personnel. Employees of the Institute shall be responsible to the Institute; academic personnel shall be responsible to the Chairman of their Academic Department, and the Department Chairman shall be responsible to his Dean. All faculty participating in the activities of the Institute shall be bound by and comply with all policies, rules, and regulations of the University.

Nothing herein should be construed in such a way as to prohibit the Foundation from appointing the Chairman of the Department of Ophthalmology, or any other faculty member, as Director of the Institute. However, in all such cases where a joint appointment is made, all reimbursement to academic personnel shall be made through the University with appropriate arrangements made by the Foundation to reimburse the University for services rendered strictly for the Institute.

IV. PATIENTS IN THE JOINT TEACHING RESEARCH PROGRAM

All patients seen in the Eye Institute will be available for participation in the teaching programs. Exceptions will be made only when the attending physician feels that participation in a teaching program might adversely affect the patient's condition.

V. JOINT RESEARCH

Joint research projects must have the approval of the Chairman of the Department of Ophthalmology and the Director of the Institute. All research grants and contracts, which have as their principal investigator a member of the faculty of the University, shall be made to the Regents with appropriate provision in the grant or contract for payment of indirect costs to the Institute. All research projects will be done under faculty supervision. No research proposal shall be made by a faculty member without having first been processed for approval through normal University channels. Research involving patients or human volunteers will be undertaken only after approval by the Human Experimentation Committee of the Health Sciences Center. Nothing herein shall preclude the Institute from securing grants in its own right when the nature of the grant is such that it would normally be made to a clinic, rather than a University.

Personnel being paid for services under a grant shall not be transferred from one payroll to another in order to maximize fringe benefits.

VI. EXTRAORDINARY CIRCUMSTANCES

This Agreement is designed to help define the relationship between the parties and to assist both the Foundation and the University in the daily management of activities in the Institute. Extraordinary problems requiring procedures...
or solutions not contemplated by this Agreement are bound to arise and these can be dealt with by the Foundation and the University in whatever manner they mutually agree to be expedient and proper.

VII. FINANCIAL OBLIGATIONS

All recommendations for financial commitments must be made to the Board of Regents of the University and to the Trustees of the Foundation for their action, regardless of the source of the recommendation. Only the Trustees can make commitments for the Institute and only the Regents can make financial commitments for the University. Joint programs which involve joint financial commitments must, of course, be approved by both Boards.

Agreements for the exchange of goods or services for which one party should remunerate the other shall be separately negotiated as needed on an annual basis.

VIII. PERIOD OF AGREEMENT

This Agreement shall become effective when signed by both parties and shall continue in effect ad infinitum. The Agreement can, however, be cancelled by either party upon June 30, of any year provided the cancelling party has given at least sixty (60) days notice of cancellation.

This Agreement can, of course, be terminated or amended at any time upon the mutual agreement of the Foundation and the University.

President Sharp recommended approval of the Agreement of Affiliation as shown above.

Approved on motion by Regent Mitchell.

IV. Finance and Management

a. Non-Academic Personnel

APPOINTMENTS:

Leeland Neill Alexander, Assistant Dean for Administration, University of Oklahoma College of Medicine, Tulsa, $18,000 for 12 months (state), April 15, 1974.

Walter Nelson, Business Manager, Family Practice and Community Health, $13,500 for 12 months (59% from grants, 41% from state), February 4, 1974.
President Sharp requested and received agreement from the Regents to amend the recommended title for Leeland Alexander to read: Assistant Dean for Administration and Business Manager. He said the reason for this change is to more clearly spell out the dual responsibilities this individual will carry in the Tulsa program—the one title defining his relationship to the Dean and the other defining his role of fiscal management and responsibility to the Vice President for Administration and Finance.

On motion by Regent Braly the recommendations were approved as amended.

a. Report on Major Capital Improvements Projects

A report as shown on the following page on major capital improvements projects on the Health Sciences Center Campus under construction and in various stages of planning was presented. No action was required.

b. Oklahoma Regional Medical Program Agreements

President Sharp said the Oklahoma Regional Medical Program has agreements with certain organizations to carry out portions of their program and a recommendation regarding four of these agreements was included in the agenda for this meeting. He said some changes in the agreements have just been proposed and he asked Dr. Beverly Ledbetter, Legal Counsel, to present the changes.

After her presentation, President Sharp recommended that the Regents authorize entering into the agreements as amended:

1. Oklahoma Division, American Cancer Society

   Purpose: Oklahoma Division, American Cancer Society will provide emotional support and patient education to Ostomy volunteers and patients by conducting twelve two-day seminars.

   Amount: $3,000.00; for the period January 2, 1974 to July 1, 1974.

2. Alliance of Health Resources Department, Valley View Hospital

   Purpose: Valley View Hospital will (a) maintain a Continuing Education Center project, (b) provide research and development to explore the feasibility of other inter-hospital activities among area wide hospitals, and (c) further health manpower activities through programs for physicians, nurses, non-professional personnel in participating hospitals in the Ada area.

   Amount: $62,445.00; for the period October 1, 1973 to July 1, 1974.

   Purpose: Medical Products Systems, Inc. will (a) promote area wide participation of hospitals etc. in exemplary programs for effective cost containment, (b) improve the availability, accessibility, and quality of patient care throughout the area through a more sophisticated health care delivery system, and (c) attract and better utilize health manpower in rural communities.

   Amount: $62,319.00; for the period October 1, 1973 to July 1, 1974.
4. Oklahoma Health Planning Commission

Purpose: Oklahoma Health Planning Commission will (a) establish Medical Services Emergency Counsels in western Oklahoma, (b) assist area health planning counsels in Enid, Duncan, Burns Flat, and Beaver, and (c) provide consultation and technical assistance to the above areas.

Amount: $28,384.00; for the period January 2, 1974 to July 1, 1974.

All of the above agreements were negotiated pursuant to a grant from the Regional Medical Programs Services of the United States Department of Health, Education, and Welfare to the University of Oklahoma as the grantee institution, Grant #5-G03-RM-0023-05.

President Sharp recommended that the Regents authorize entering into the agreements explained above.

Approved on motion by Regent Braly.

B. Administration

V. General Policies

a. Sabbatical Leaves of Absence

President Sharp said the current sabbatical leave of absence policy limits sabbatical leaves of a 12-month faculty member to two semesters at half pay or one semester at full pay by specifically excluding extending the length of the sabbatical to include summer sessions. A number of questions have been raised concerning this policy and the awkwardness it creates. This was brought to the attention of the Faculty Senate and the Senate has recommended that the prohibition on extending sabbaticals through the summer session be deleted.

President Sharp recommended that the appropriate sections of the Regents' policy governing sabbatical leaves be amended as follows:

1. FROM:

Sabbatical leave of absence on half pay for a period not to exceed two semesters, or full pay for a period not to exceed one semester, may be granted by the President of the University, with the approval of the Regents of the University, to any tenure-holding faculty member who has completed at least six years of service as teacher in the University, provided that the time will be given to study and travel approved by the President.
TO:

Sabbatical leave of absence may be granted by the President of the University, with the approval of the Regents of the University, to any tenure-holding faculty member who has completed six years of service in the University, provided that the time shall be given to study and travel approved by the President. For faculty on 9-month appointment, a sabbatical leave may be granted at half pay for a period not to exceed two semesters or at full pay not to exceed one semester. For faculty on 12-month appointment a sabbatical leave may be granted at half pay for a period not to exceed 12 months or at full pay for a period not to exceed 6 months.

2. FROM:

In addition there is an alternative of a one semester (half-year) sabbatical at half pay available after six semesters of full-time service. Initial eligibility for this sabbatical is established after a faculty member's first 12 semesters of full-time service.

TO:

After six semesters of full-time service another alternative is available, namely a one-semester sabbatical leave at half pay for 9-month faculty or a six-month sabbatical leave at half pay for 12-month faculty. Initial eligibility for this sabbatical leave is established after a faculty member's first 12 semesters of full-time service.

3. Delete the following paragraph:

Since extending the length of the sabbatical to include summer sessions would involve many complicated administrative problems, the sabbatical shall be limited to the fall and spring semesters and shall not be extended to summer.

4. FROM:

The faculty member shall apply to his department's Committee A for a sabbatical leave.

TO:

The faculty member shall apply to his department's Committee A, or the Health Sciences Center Committee equivalent, for a sabbatical leave.
April 11, 1974

Approved on motion by Regent Mitchell.

In view of the above change in the sabbatical leave of absence regulations, President Sharp recommended approval of the following sabbatical leaves for members of the Health Sciences Center faculty:

Dr. William J. L. Felts, Professor and Chairman of Anatomical Sciences, sabbatical leave of absence with full pay, January 1, 1975 to July 1, 1975. To study and conduct research at the University of Otago, New Zealand.

Walter H. Massion, Professor of Anesthesiology and of Research Surgery and of Physiology and Biophysics, sabbatical leave of absence with full pay, May 1, 1974 to November 1, 1974. To do research in Munich, Germany.

L. Vernon Scott, Professor and Chairman of Microbiology and Immunology, sabbatical leave of absence with full pay, January 1, 1975 to July 1, 1975. To do research in Dunedin, New Zealand.

Bernard Rabinovitch, Professor of Biochemistry and Molecular Biology, sabbatical leave of absence changed from 1/2 pay for the period August 1, 1974 to May 1, 1975 to full pay for the period August 1, 1974 to February 1, 1975.

Approved on motion by Regent Brett.

b. Presidential Search Committee

President Sharp said the following Student Congress Bill was passed by Student Congress on February 26, 1974, signed by the UOSA President on March 11, and forwarded to him:

Title: AN ACT PROVIDING FOR STUDENT REPRESENTATION ON PRESIDENTIAL SEARCH COMMITTEES.

Section 1: This act shall be known and may be cited as AN ACT PROVIDING FOR STUDENT REPRESENTATION ON PRESIDENTIAL SEARCH COMMITTEES.

Section 2: The purpose of this act is to provide for student representation on presidential search committees.

Section 3: It shall be the policy of the University of Oklahoma that no less than one fourth of the membership on Presidential Search Committees shall be students nominated by the student president with the advise and consent of student congress.

Section 4: This act is hereby enacted.

Section 5: This act shall become effective when passed by Student Congress and approved in toto by the Student President and the President of the University of Oklahoma, and the Regents of the University of Oklahoma.
April 11, 1974

President Sharp recommended approval when timely.

Regent Braly commented that the Board does not need a Presidential Search Committee at the present time. He moved that at such time as the Board feels the need for a Presidential Search Committee the Board give consideration to this Bill. Approved.

C. Academic (Norman Campus)

I. Faculty Personnel

a. Appointments, Changes, Resignations

LEAVES OF ABSENCE:

Leon S. Ciereszko, Sr., Professor of Chemistry, sabbatical leave of absence with 1/2 pay, September 1, 1974 to January 16, 1975. To do marine field work.

Yoshikazu Sasaki, Professor of Meteorology, sabbatical leave of absence with 1/2 pay, September 1, 1974 to June 1, 1975. To gain experience in practical and operational analysis and forecasting as Research Director at the Environmental Research Prediction Facility of the Naval Postgraduate School in Monterey, California, and to write a book.

Harry Holloway, Professor of Political Science, sabbatical leave of absence with full pay, January 16, 1975 to June 1, 1975. To renew field work on the politics of Blacks in the South.

Gene B. Walker, Associate Professor of Electrical Engineering, sabbatical leave of absence with 1/2 pay, September 1, 1974 to June 1, 1975. To develop acoustical radar techniques to obtain acoustical echoes from the tropopause or to work in bistatic electromagnetic radar as they apply to severe storm investigations.

Bobbie L. Foote, Associate Professor of Industrial Engineering, sabbatical leave of absence with 1/2 pay, September 1, 1974 to June 1, 1975. To conduct design studies for the research laboratories at Kaiser Permanente Health Foundation at Portland, Oregon.

Pushkar N. Kaul, Associate Professor of Pharmacology, College of Pharmacy, sabbatical leave of absence with 1/2 pay, September 1, 1974 to June 1, 1975. To develop techniques in the area of schizophrenia and drugs used to combat the mental disorder and to investigate the peripheral anti-autacoidal activities of chlorpromazine and its metabolites.

Nipha P. Kumar, Assistant Professor of Architecture, August 1, 1974.

Nancy Jane Howe, Assistant Professor of Dance, School of Drama, August 1, 1974. To go to New York.

NON-REAPPOINTMENT:

Leonard Jordan, Associate Professor of Sociology, August 1, 1974.

Approved on motion by Regent Brett.

b. Distinguished Professors

On March 6, information was forwarded to each member of the Board indicating the recommendations President Sharp intended to make to the Board at the April meeting on the appointment of a George Lynn Cross Research Professor and David Ross Boyd Professors to be effective at the beginning of the next year. Data on each nominee were forwarded with the letter.
President Sharp recommended that the following be appointed to the distinguished professorship indicated effective at the beginning of the next fiscal year:

**David Ross Boyd Professors**

Professor James H. Abbott, Department of Modern Languages  
Professor Elbridge D. Phelps, College of Law

**George Lynn Cross Research Professor**

Professor Yoshikazu Sasaki, Department of Meteorology

Approved on motion by Regent Mitchell.

c. Tenure

President Sharp said in accordance with the Regents' regulations on academic tenure, the department, the deans concerned, and the Provost have recommended that academic tenure be granted the following members of the faculty on the Norman Campus:

William G. Sorenson, Assistant Professor of Botany  
and Microbiology  
Bing-Man Fung, Associate Professor of Chemistry  
William J. Horwitz, Assistant Professor of Classics  
Gwenn Davis, Assistant Professor of English  
Marvin W. Baker, Jr., Associate Professor of Geography  
Nelson R. Nunnally, Associate Professor of Geography  
Howard W. Morgan, Professor of History  
Paul E. Dannelley, Assistant Professor of Journalism  
Frank E. Heaston, Assistant Professor of Journalism  
Charles N. Hockman, Associate Professor of Journalism  
Donald L. Patten, Assistant Professor of Mathematics  
Albert B. Schwarzkopf, Assistant Professor of Mathematics  
Nadine J. Roach, Assistant Professor of Social Work  
Charlyce R. King, Associate Professor of Education  
Loy E. Prickett, Associate Professor of Education  
Robert E. Ragland, Assistant Professor of Education  
William T. Cronenwett, Assistant Professor of Electrical Engineering  
Antti P. Talvitie, Assistant Professor of Civil Engineering and Environmental Science  
Audrey R. Bethel, Assistant Professor of Art  
Roger F. Huebner, Assistant Professor of Art
Extension of the probationary period was recommended for the following:

Joseph B. Schiel, Jr., Assistant Professor of Geography
Peter C. Leonard, Assistant Professor of Mathematics
Kirby C. Smith, Assistant Professor of Mathematics
Tom W. Boyd, Assistant Professor of Philosophy
Lawrence H. Goldman, Assistant Professor of Regional and City Planning

William H. Graves, Assistant Professor of Education
John C. Zink, Assistant Professor of Aerospace, Mechanical, and Nuclear Engineering
Robert S. Levinson, Assistant Professor of Pharmacy

President Sharp recommended approval of the above tenure actions, all to be effective July 1, 1974.

In addition, President Sharp recommended that academic tenure not be granted the following:

David T. Bailey, Assistant Professor of Sociology
Eugene F. Cates, Associate Professor of Education
Robert D. Van Auken, Assistant Professor of Education
David L. Drennan, Assistant Professor of Mathematics

Approved on motion by Regent Brett.
In response to an inquiry from Regent Braly, President Sharp said we have a Task Force at work at the Health Sciences Center on the question of tenure. Dr. Sharp said we have some peculiar and singular problems there by reason of the clinical relationships that exist with people who are not by traditional definitions or by Norman Campus definitions full-time employees of the University. Those definitions are being worked into our recommendations, however, as a result of the action in the Professional Practice Plan and this gives us for the first time a real definition of who comprises our geographic full-time faculty at the Health Sciences Center. President Sharp reported also that we have in prospect on the Norman Campus a review of the personnel policies of the University, which will include tenure, and which will be moved through the Faculty Senate. President Sharp said he hopes to have a recommendation as a result of the Health Sciences Center study within the next quarter, but it will take a little longer on the Norman Campus because of the totality of the review of the personnel policy.

d. Retirements

President Sharp reported the following faculty members will have reached the mandatory retirement age by the end of the current school year or they have requested that they be permitted to retire under the terms of the University Retirement Plan:

President Sharp recommended that the retirements be approved effective at the end of the current school year and that each employee be given Emeritus status.

Approved on motion by Regent Mitchell.

III. Changes in Curricula

a. Law Summer Program Abroad

President Sharp said the College of Law has requested permission to enter negotiations with several law schools in the British Isles to develop a Law Summer Program Abroad. This program is designed to provide an alternative summer program in the general law school curriculum; to provide special opportunities for the study of international and comparative law; and to provide programs of a specialized nature, such as Common Market Law, increasingly important to lawyers representing the growing number of American multi-national corporations. Preliminary overtures have been made to the Universities of Edinburgh and London, but no negotiations have begun. Housing would be arranged, if possible, with the host institution. Transportation will be the responsibility of the student with arrangements made to obtain the least expensive means. The preliminary plans call for fees to be based upon the regular University of Oklahoma fee schedules for resident and non-resident students. An overhead add-on expense would be added with a minimum charge to each student. Salaries for University of Oklahoma College of Law faculty would be determined by the regular Summer Session standards.

Academic credit would be given as "in residence" since it would be supervised by a member of the University of Oklahoma College of Law faculty. Instruction would be by the law faculty of the host institution.

Programs of this sort are growing in popularity in American law schools and we have an important opportunity to develop contacts with host institutions which have a law tradition parallel to our own and, at the same time, experience with European systems.

The exact details of the program and budget will be presented for approval by the University Regents and the State Regents for Higher Education when negotiations are completed.

President Sharp recommended approval in principle of the Law Summer Program Abroad and that the College of Law be authorized to enter negotiations to develop such a program. This program is subject to approval in principle by the State Regents.

Approved on motion by Regent Brett.
b. American Indian Law Review

The Law Center has requested approval of a proposal to establish the American Indian Law Review as a separately budgeted program in the Law Center commencing with the 1975-76 fiscal year.

The American Indian Law Review is a scholarly publication devoted to a discussion of areas of law that particularly affect American Indians, or which have a relationship to the social and economic problems confronting them. The first issue has been published by American Indian Law Review, Inc., an Oklahoma corporation, which has as its directors Dean Robert R. Wright, Jerry F. Muskrat, Director of Ethnic Studies and Visiting Assistant Professor of Law, and Terry Landrum, James Stanley, and Sharon Eads, College of Law students. The American Indian Law Review is managed, edited and staffed by some 21 students of the College of Law, and was printed by the University of Oklahoma Press. It is planned that academic credit towards a Juris Doctor degree will be awarded for research and other activities in the publication of the review to students enrolled in a course entitled, Selected Legal Problems - American Indian Law Review. This course is being submitted for approval to the Oklahoma State Regents for Higher Education.

At present there is little scholarly writing in the area of Indian Law and there is an urgent requirement for an established forum where scholars and practitioners familiar with American Indian legal problems can present their views. The purpose of the American Indian Law Review is to provide a forum for scholarly writing in the form of articles, notes and comments pertaining to law effecting American Indians, or having a relationship to the social and economic problems confronted by American Indians for use by American legal scholars. As such, it is appropriate that such a publication be under the auspices of a law school. Because of their mission of scholarship and resources for scholarship, law schools have traditionally published scholastic writing in the form of law reviews, and the Review is a particularized type of law review. Like any law review, the American Indian Law Review would be a valuable educational device related solidly to the educational function of the College of Law. The measure of any lawyer is his ability to research the law, apply appropriate legal analysis to his problem, and express his conclusions in clear language to others. Law review experience trains a law student to do this by affording practice in editing articles written by others for publication and through the analysis, research, and writing necessary for student notes.

The American Indian Law Review has 689 subscribers at the present time. It is expected that subscriptions will continue to increase as the Review becomes better known. At present only one issue has been published, and it has received uniformly favorable comment.

This proposal is submitted based on the following estimates and is for two issues per year, 1,750 copies each, and is calculated for costs at the time the proposal would be implemented if approved, e.g., 1975.
Estimated Expense

<table>
<thead>
<tr>
<th>Description</th>

</tr>
<tr>

</tr>
<tr>
<td>Maintenance, Publishing and Equipment (&quot;C&quot; budget)</td>
<td>11,700</td>
</tr>
<tr>
<td><strong>TOTAL BUDGET</strong></td>
<td><strong>$16,000</strong></td>
</tr>
</tbody>
</table>

Estimated Income

<table>
<thead>
<tr>
<th>Description</th>

<tr>

Thus, total estimated resources required to implement the portion of the proposal relating to the incorporation of the American Indian Law Review as a separately budgeted program into the Law Center for the first year are only $6,500.00.

The American Indian Law Review, Inc., which now publishes the American Indian Law Review, is an Oklahoma non-profit corporation which has received an exemption from taxation under both Oklahoma and Federal law. Its assets consist primarily of accounts receivable from subscriptions and advertising, cash, the copyright to the publication, and miscellaneous personal property consisting of stationery, forms, back issues of the Review, and the like. It derives its income from subscriptions, advertising, and private sources of funding, and currently its liquid assets exceed its liabilities for printing, postage and the like by about $4,000.00. It is planned that if this proposal is approved, the corporation will be dissolved, all assets will be transferred to the University of Oklahoma for the account of the Law Center and the American Indian Law Review program, and that liabilities, if any exist, will be for printing, postage and the like, and will be more than covered by the liquid assets conveyed.

President Sharp recommended approval of the establishment of the American Indian Law Review commencing with the 1975-76 fiscal year with the stipulation that the American Indian Law Review, Inc. will be dissolved and all assets of the corporation will be transferred to accounts within the University of Oklahoma, effective immediately. The establishment of the American Indian Law Review is subject to the approval of the Oklahoma State Regents for Higher Education.

Approved on motion by Regent Mitchell.

III. Section 13 and New College Funds

a. Adams Hall Modifications

As a result of the commitment of new faculty positions to the College of Business Administration certain space changes must be effected in order to adequately house the first phase of anticipated additional faculty members.

This space change involves the conversion of three classroom areas in Adams Hall to office, work, and graduate pool areas. The modifications will entail the construction of nine offices for faculty, one large work area for the growing Bureau of Business and Economic Research, and a fifteen station graduate assistant pool.

Preliminary estimates of the project cost are $28,000.00. Funds are available in Section 13 to allocate to this project.

The modifications are to be accomplished through the Physical Plant. Architectural services are going to be provided by the Architectural and Engineering Services Department.

President Sharp recommended that the modification of Adams Hall be approved and that $28,000.00 of Section 13 funds be allocated for this project.

Approved on motion by Regent Brett.
IV. Purchases

a. Aircraft

The Federal Aviation Administration, which shares with the University in establishing guidelines for the operation of our Department of Aviation, has made several significant changes in the requirements for aviation education. The changes are of such magnitude that they represent the greatest impact on aviation since the establishment of the Federal Aviation Administration in 1938.

These changes will affect the University Aviation Department in two ways:

1. They will require an increase in flight hours for the Commercial Pilot Certificate, Flight Instructor Certificate, and the Instrument Flight Rating.

2. They will require the department to teach all students above the Private Pilot level at least 10 flight hours in a complex (retractable gear and controllable propeller) airplane. Presently, we do not operate a complex airplane.

The Department of Aviation has been experiencing a growth pattern in the past three years due to the quality of our personnel and our teaching methods. During the past two years, we have added 2 courses and a 4th section of Aviation 1113. Our student load has increased from 3 lecture sections and an average flight time of 2600 hours per year to 6 lecture sections/courses and a projected 4400 flight hours this year. We have been able to do this with the same number of airplanes efficiently by utilizing hourly paid flight instructors flying at night and on the weekends. We have also stressed efficiency by using 55% power on our student cross-country flights instead of 65%-75% which is normal cruise power.

Another area in which the complex airplane could be utilized is in the faculty/staff transportation service. During 1972-73, 45% of all trips in the Areo Commander were less than 350 miles round trip and three passengers or less. In addition, 68 trips were in conflict with other trips. The complex airplane could be utilized as a backup airplane in schedule conflicts and as an efficiency measure for low passenger density trips.

Bids were received as follows:

Airmen, Inc.

37,000.00

Payment will be from University Aircraft Service Account 127-350.

President Sharp recommended that the bid from Airmen, Inc. for
the Cessna Cardinal RG be accepted subject to examination and inspection
of the demonstrator by authorized personnel of the Department of Aviation.

Regent Braly raised some questions about the purchase and indicated
he thought it might be possible to purchase a comparable airplane for about
$27,000. Legal Counsel indicated these bids could be rejected and the admin-
istration could be directed to negotiate for the purchase of such an airplane
if the Regents so desired. After further discussion, Regent Mitchell moved
that the administration be authorized to negotiate and proceed with the pur-
chase of a plane comparable to the Cessna Cardinal RG with comparable equip-
ment, if a price more favorable than the bid price can be obtained, and that
the bids received be rejected. Approved.

b. Band Uniforms

President Sharp requested and received unanimous consent to add the
following item to the agenda for this meeting:

Bids were received to furnish 300 band uniforms for the University.
A condition of the bid was that a made up uniform be available for inspection
by the University Band Office on or before March 15, 1974.

Bids received are as follows:
April 11, 1974

Sol Frank Uniforms, Inc.
San Antonio
Net 30 days $36,825.00

Fruhauf Uniforms, Inc.
Minneapolis
Net 30 days 38,991.00

Sol Frank Uniforms, Inc. did not submit the sample uniform as required by March 15.

President Sharp recommended that the bid be awarded to Fruhauf Uniforms, Inc. contingent upon compliance with the Official University Identification Guide in the design of the uniforms. When funds are available the uniforms will be purchased from funds solicited for this purpose.

Approved on motion by Regent Neustadt.

c. Deep Well Turbine Pumps

President Sharp requested and received unanimous consent to add the following to the agenda for consideration at this meeting:

The Engineer's Office of the Board of Affairs has twice circulated a bid for furnishing and installing two deep well turbine pumps at the North Campus. In each instance only one bid was received. The bid is from Sherman Machine and Iron Works for $28,172.00.

Sherman Machine and Iron Works bid an exception to the specifications in that the price bid is good for only fifteen days from the date of bid opening instead of thirty days as specified.

Payment is to be made from account 147-201, Physical Plant Service Unit.

President Sharp recommended that the award be made to Sherman Machine and Iron Works in the amount of $28,172.00.

Approved on motion by Regent Neustadt.

G. Operations and Physical Plant

I. New Construction

a. Major Capital Improvements Program Report

As shown on the following pages, a report was presented to the Regents on major capital improvements projects now under construction and in various stages of planning on the Norman Campus. No action was required.

IV. Contracts and Agreements

a. Laundry Service

President Sharp said the University has been under contract with Reynolds Laundries since 1947 for providing washer and dryer service on an exclusive basis to the University Housing units. The University realizes fifty percent (50%) of the gross income from these operations. Reynolds traditionally has provided very good service.

At the present time many of the washers and dryers need replacing. There is only one year left under the present agreement and this would not allow Reynolds to recover an investment in new equipment. An extension of three years of the present contract would allow Reynolds to invest in new equipment and recover this investment.

President Sharp recommended that the University amend the existing contract to provide for an additional three years with the contract terminating on March 23, 1978.

Approved on motion by Regent Neustadt.

b. Computer Disk Drives

President Sharp said with the purchase of the new IBM 370-158J from the International Business Machine Company, it is necessary to make arrangements for the rental of the high-performance disk drives which will be used with the new computer. Even though these drives will not be used until the next fiscal year, it is necessary that an order be placed at this time.

It is necessary to enter into three separate Extended Term Plan agreements with IBM since the disk drives will be delivered at different times over the next several months.

We now pay $47,412.00 per year for the same type items listed on the three contracts for use with our current computer. When the new disk drives are delivered, the total annual cost will be $71,604.00, an increase of $24,192.00 per year except for the first year which will be $30,600.00. This new equipment will quadruple the disk storage capacity of the Computer Center. The reason for the greater cost the first year is that the information stored on the disks we now have will have to be converted to the new disks. During this period of conversion we will be paying rent on both the old and new disks.

The reasons for entering into an Extended Term Plan are the 10% Educational Allowance available under the ETP and the 60% purchase option. Attached is a copy of the proposed implementation schedule which shows the anticipated delivery schedule, the regular monthly rental, the monthly rental under ETP and removal of equipment we now have.

The unit rental costs on the contract and shown on the implementation schedule differ because the 10% has been deducted on the schedule.

It should be understood there may be some variation from the figures shown depending on exact date of delivery and exact amount of time necessary to convert.

Funds are available in account 147-102, Computer Utility Center, to cover these rental costs.

President Sharp recommended acceptance of the Extended Term Plan for increasing the disk storage capability of the Computer Utility Center.

Approved on motion by Regent Brett.

c. Remote Terminal for Computer

With the installation of a 370-158J we expect to greatly relieve the congestion of the Nuclear Engineering Laboratory Computer Center. This Center uses an IBM 1130 for all remote student and faculty use of the main computer. This facility is overloaded and as part of the plan to increase our computing capacity, an additional remote terminal is planned to provide convenient and efficient access to the 370-158J for students and faculty. This terminal will be installed in the Physical Sciences Center and will then be the second remote job entry station on the main campus serving students and faculty.

After reviewing the qualifications specifications from five vendors, the recommendation of our Computer Center is that the Harris Communication Systems, Inc. terminal will offer terminal capacity with on-line graphic plotting capability and meet specifications for remote terminal requirements.
President Sharp recommended a Harris Communications System, Inc. Model HSCI-1200 terminal be leased for $1,430 per month on a two-year lease. Maintenance is to be provided under this contract for nine hours per day Monday through Friday. Funds are available in the Research and Education Computer Services Account 147-101.

Approved on motion by Regent Brett.

VIII. Leases and Easements

a. Oil and Gas Lease

At the February meeting authorization was given for advertising for oil and gas leases for the following properties:

1. East 1/2 of Section 24, Township 9 North, Range 3 West of the Indian Meridian and the West 1/2 of Section 19, Township 9 North, Range 2 West of the Indian Meridian (North Campus, north of the old administration building for OURI and south of the National Guard area).

2. Northeast quarter of Section 15-14N-1W, Oklahoma County (near Arcadia, Oklahoma, part of the Walker Estate).

Bids were received on March 20 and one bid was received on each piece of property as follows:

1. North Campus - From Moore and Miller, Oil Producers, Oklahoma City - $2,240 bonus on the basis of a retained royalty of 1/8 of all oil and gas and other minerals produced from any production unit and attributable to the leased lands or any part thereof.

2. Arcadia Property - From Franke Exploration Corporation, Oklahoma City - a bonus of $24,400 with a 1/6 royalty until payout, convertible to 20%, with a drilling commitment of one year.

A cashier's check representing 50% of the bonus accompanied the bid in each case. Both leases will be subject to the following conditions:

1. In the event of discovery of natural gas, such gas will be furnished free of charge to any state institution located on the property covered by the lease.

2. All easements of record.

* Includes educational allowance and 2% price increase effective 3-1-74.

** Extended Term Plan (2 years) and educational allowance.

December 17, 1973
The lease for the North Campus property will contain the following additional provisions:

1. The location of the wells is subject to approval of the Regents and the Federal Aviation Administration.

2. All restrictions, reservations, conditions, and covenants contained in the Quit Claim Deed executed by the Federal government to the University covering the North Campus.

3. Approval of the Federal Aviation Administration.

The leases will be for three-year terms and as long thereafter as oil, gas, or any other minerals may be produced in paying quantities from such lands. The leases will provide for payment of an annual delay rental in the amount of $1.00 per acre.

President Sharp recommended that the bids be accepted as described.

Regent Braly commented that he does not believe any leases should be offered that do not provide for a 1/6 royalty--this is the uniform royalty provision required by the Federal government on Indian land leases. He suggested that when the Board considers advertising for an oil and gas lease in the future that a policy be established providing for a minimum 1/6 royalty.

On motion by Regent Braly the recommendation on acceptance of these two bids was approved as presented.

b. Lease with United States Postal Service

The University administration has been in the process of continuous negotiation with the United States Postal Service for a period of 20 months regarding the lease renewal for the south tower of Couch Center.

The lease negotiated provides for a five-year term, effective December 1, 1973 with two five-year renewal options. The annual rental payment for the space is $713,904.00. The annual payment for site service, utilities, and administrative costs is $321,607.00, which is reduced slightly from the previous payment because of a reduction in the administrative overhead costs from 56.9% to 43%. There was also a slight change in the maid and custodial portion of the agreement to provide for a change in the maximum and minimum maid requirements in order to accommodate the occupancy variation which they have.
In the event the Postal Service moves out of the south tower of Couch Center, they have agreed to pay the total cost for restoration of the premises to the previous configuration, but with an annual reduction accumulated at 5% per year for the first five years and 10% per year for each additional year. This means that if the Postal Service remains in the south tower of Couch Center for 13 years, they will not be required to make any payment towards the restoration of the premises. An arbitration procedure is provided for in the lease agreement.

President Sharp recommended approval of this lease agreement effective December 1, 1973.

Approved on motion by Regent Brett.

c. Lease - Building 301

The University has received a proposal from North American Rockwell - Aero Commander Aircraft Division for a one year lease, commencing April 1, 1974. This lease is for the main hangar area of the north one-half of Building 301 on the North Campus. North American's activities during that period will include modifications of some of their existing production aircraft.

The lease price is $0.80 per square foot per year for 19,200 square feet, plus $0.05 per square foot for 19,400 square feet of parking and ramp space. In addition, the tenant will pay all utilities. These prices are consistent with the rates paid by previous tenants.

Approved on motion by Regent Brett.
