A regular meeting of the Board of Regents of the University of Oklahoma was held in Dining Room 5 of the Oklahoma Memorial Union on the Norman Campus on Thursday, September 4, 1975, beginning at 10:30 a.m.

The following were present: Regent Walter Neustadt, Jr., President of the Board, presiding; Regents Mack M. Braly, Thomas R. Brett, Bob G. Mitchell, M.D., K. D. Bailey, Richard A. Bell, and Dee A. Replogle, Jr.

The following were also present: President Paul F. Sharp; Provosts Hunsberger and Thurman; Vice Presidents Burr, Dean, Morris, Nordby, and White; Mr. Joseph C. Ray, Executive Assistant to the President; Mr. R. Boyd Gunning, University Trust Officer; Dr. Thomas H. Tucker, University Chief Counsel; and Barbara H. James, Executive Secretary of the Board of Regents.

The minutes of the meeting held on July 24, 1975, were approved as printed and distributed prior to the meeting.

President Sharp reported on the dedication and opening of The Lloyd Noble Center which was held on Sunday, August 31. He said this is a magnificent facility and everybody associated with the University and the citizens of this State will find it enriching indeed.

President Sharp reported also on the fall enrollment currently under way. He said the numbers of students has surprised everyone. It appears the enrollment on the Norman Campus may go over 21,000 which is beyond the expectations that we had during the summer of the fall enrollment.

President Sharp called attention to the Scholar-Leadership Enrichment Program for this year which is designed to bring to this campus during the course of the year outstanding academicians and commentators. He reported that the first two speakers in October will be Vance Packard and Buckminster Fuller.

Regent Neustadt presented the following Resolution:

WHEREAS, Mr. Jack H. Santee served with dedication and devotion as a member of the Board of Regents of the University of Oklahoma from 1968 to 1975 and as President of the Board during 1974-75; and

WHEREAS, despite his numerous obligations and responsibilities as a member of a leading law firm in Tulsa, he gave unstintingly of his time and ability to assist in the governance of his Alma Mater; and
WHEREAS, as a member of the Regents' Facilities Planning Committee, he aided significantly in the development of the University's campuses; and

WHEREAS, his varied interests were reflected in his efforts on behalf of the Health Sciences Center, the University's athletic programs, and the inauguration of a Career Development Plan designed to maintain the high quality of the faculty;

NOW, THEREFORE, BE IT RESOLVED that the Regents of the University of Oklahoma commend Mr. Jack H. Santee for his significant contributions and dedicated leadership as a Regent and look forward with confidence to his continuing interest in the welfare of the University.

The Resolution was unanimously approved on motion by Regent Brett.

Regent Braly, Chairman of the Budget Committee, reported the Committee adopted a budget timetable at the meeting yesterday which sets forth the various steps in the preparation of the budget and the involvement of the Regents. He said a copy of the timetable will be distributed to each Regent.

Regent Brett, Chairman of the Facilities Planning Committee, reported that in accordance with the procedures set forth in House Bill 1503 of the 1974 Legislature and the policies of the Board regarding the selection of professional consultants, interviews were conducted by the University administration to review the qualifications of two groups of three architectural firms which had indicated an interest in providing the required professional services on the Felgar Hall/DeBarr Hall renovation projects and the Nielsen Hall/Environmental Design renovation projects.

Mr. Brett said the results of these interviews were reviewed by the Facilities Planning Committee yesterday. He said the Committee concurs in President Sharp's recommendation that Turnbull and Mills be appointed architects for the Felgar Hall/DeBarr Hall projects and that Howard-Samis-Porch be appointed for the Nielsen Hall/Environmental Design projects. He said the Committee recommends also approval of the following alternates for the project indicated:

Felgar Hall/DeBarr Hall Projects
1st alternate - Noftsger-Lawrence-Lawrence-Flesher
2nd alternate - Lock-Wright and Foster

Nielsen Hall/Environmental Design Projects
1st alternate - Benham Blair and Affiliates
2nd alternate - Frankfurt-Short-Emery

Approved on motion by Regent Brett. Regent Replogle abstained from voting.
Regent Brett said it was thought that a member of a local group concerned about the expansion of Max Westheimer Field, Mr. Charles Schindler, would be present at this meeting but he was unable to be present because of other commitments. Mr. Brett recommended, and it was agreed, that any discussion of the Max Westheimer Field Long-Range Plan be deferred to the next meeting.

b. Dean, College of Nursing

President Sharp recommended that Interim Dean Gloria R. Smith be appointed Dean of the College of Nursing at a salary of $34,650 for 12 mos, effective September 5, 1975. Dean Smith will retain the rank Associate Professor of Nursing.

Approved unanimously on motion by Regent Replogle.

President Sharp congratulated Dean Smith. He said he has been impressed with her leadership as a professional and he has been delighted with her collegiality as a colleague in higher education and the University. President Sharp said he looks forward to the developments in the College of Nursing over the years ahead as we move into the new building, as they develop their curriculum, and as they take on new responsibilities. Regent Neustadt added his congratulations and expressed appreciation on behalf of the Board for the fine work she has done in the College of Nursing.

c. Program Approvals

President Sharp said he has been notified that the Oklahoma State Regents for Higher Education in a meeting on Monday, July 28, considered the pending requests of State System institutions for approval of new educational programs. The State Regents approved the Cardiorespiratory Science and Radiologic Technology - Nuclear Medicine, and Radiologic Technology - Radiation Therapy Programs for the Health Sciences Center for implementation effective with the 1975 fall semester.

This was reported for information. No action was required.

c. Proposal, Contract, and Grant Report

Included in the agenda for this meeting was a summary of proposals for contracts and grants for the Health Sciences Center for July and August, 1975. Also in the agenda was a list of all contracts executed during the same period of time on proposals previously reported.

President Sharp recommended that the President of the University or his designees be authorized to execute contracts on the pending proposals as negotiations are completed.

Approved on motion by Regent Replogle.

d. J.R.B. Consultative Services

In 1973, the Health Sciences Center was awarded a Cancer Planning Grant by the National Cancer Institute. The original grant allocated $59,646 for consultation fees to J.R.B. Associates, Inc. for their services in assisting and advising the University in the planning of a Cancer Center Network program for the State of Oklahoma. The contract delineating the scope of work to be performed by J.R.B. Associates was developed by University Legal Counsel.

Last year, a contract was again negotiated for the services of J.R.B. Associates, pursuant to a grant from the National Cancer Institute, in the amount of $48,000.

A contract in the amount of $9,325.00 for continuation of the services of J.R.B. Associates for the period September 4, 1975 to March 3, 1976, is proposed.

President Sharp recommended approval of the continuation of the J.R.B. Associates agreement as explained above.

Approved on motion by Regent Brett.

e. Agreement with Oklahoma Medical Research Foundation

A basic agreement for inter-institutional purchase of personnel services and related items between the Oklahoma Medical Research Foundation and the Regents of the University of Oklahoma has been proposed. It is desirable to establish such a basic agreement under which current and subsequent requirements of either institution to purchase personnel services and other items from the other institution may be implemented by amendment to the basic document. The basic agreement covers purchased personnel services,
the purchase of other items such as consumable supplies, equipment, animal purchase and care, the treatment of laboratory animals, purchases funded through extra-mural agencies, patents and inventions, etc.

This basic agreement will continue in effect until either the date of June 30, 1976, or 90 days written notice is given by one institution to the other indicating its intention to terminate the agreement, whichever shall occur first unless the period is extended by amendment of the basic agreement.

The basic agreement has been approved by the Executive Committee of the Oklahoma Medical Research Foundation.

President Sharp recommended the basic agreement for inter-institutional purchase of personnel services and related items between the Oklahoma Medical Research Foundation and the Regents of the University of Oklahoma be approved and the President and Executive Secretary of the Board be authorized to execute the appropriate documents.

Approved on motion by Regent Bell.

f. Power Plant Insurance

Bids were requested through Central Purchasing to purchase blanket fire, liability and extended coverage for the Steam and Chilled Water Plant. One bid was received, as follows:

McCullough-Simms Agency
Oklahoma City
3 years prepaid $54,618.00
3 years level pay $19,180.00

Funds are available in Budget Account 90017690 to pay for this purchase.

Since there were no other bidders on this policy and it is needed for adequate protection of the power plant, it is desirable that the McCullough-Simms agency bid be accepted. It is the opinion of our staff that a rebid would not result in a significant reduction in cost.

President Sharp recommended awarding the bid to the above firm on a three-year level pay in the amount of $19,180.00 per annum. The reduced cost of the three-year prepaid plan is less than a normal investment rate of return and is not considered sufficient to restrict the cash flow of the University for such a long period of time.
Approved on motion by Regent Replogle.

V. Operations and Physical Plant

a. Centrex Telephone System

In 1967-68, during the earliest stages of long-range plan development of the Oklahoma Health Center, it was clearly evident that the then existing telephone system would not be adequate to serve the growing center.

A long and extensive study of communication needs and systems was made by a University of Oklahoma Health Sciences Center group, later expanded to include representatives from the newly organized Oklahoma Health Sciences Foundation. An outside consultant was employed during the late stages of the study. Experts from the Bell System were also consulted and involved at appropriate stages in the planning.

A decision was made to install a 101 ESS (Centrex II) telephone system. We were informed by Bell System people this was the latest and best available and were led to believe the system could serve at least 4,000 station lines. The agreement was signed for the Regents on October 8, 1970, and we cut over to the new system on April 29, 1972.

On April 8, 1975, we reported to the telephone company that we were experiencing a slow dial tone. On April 29, 1975, the company informed us that our problem was extra heavy traffic and that approximately 2,300 lines would be the maximum lines we could serve with the system. The number and length of calls on the lines in our system far exceed the norm according to the Company and this accounts for the inability of the system to serve the 4,000 lines as originally planned.

After consultation with the Bell Labs in New York and the regional office in St. Louis, the company proposes now to replace our present system with a #2 ESS Centrex. This is in essence, a telephone company central unit. If we can provide the space by January 1, 1976, they promise service by August 1, 1976. Any delay beyond the January 1, 1976 date will result in an equal delay in the "service available" date.

If the company provides the space our costs will be 50c per line per month more, i.e., $1,000 plus per month now and ultimately $2,000 plus per month when all new buildings and customers are served. Also the company says they will be delayed 12 to 18 months if they must provide space.

We have only one area where space can be conditioned and made available in time to meet the January 1, 1976 deadline. This is the swimming pool area of the Service Center Building (Moon Junior High). Preparation of this space will cost approximately $75,000.
This building is not connected to the tunnel system. Unless we bring a tunnel into this building we will have to pay mileage charges on all station lines other than those in this building. This charge will be approximately $24,000 per annum with the present units and will exceed $40,000 per annum in the next few years as the system grows. By connecting this building into the Steam and Chilled Water Tunnel System, we can eliminate the mileage charge, eliminate the $3,600 per annum paid for the lease of the boiler now used to heat this building and eventually eliminate the package air conditioning units now in use in the building. This will result in savings in utility costs. We estimate the cost of a tunnel and piping to this building will not exceed $80,000. This cost could be charged to the Steam and Chilled Water System bond funds.

It must be available by February 2, 1976, in order to prevent the mileage charges.

In the meantime, the telephone company proposes to modify and install a 812A Centrex I vehicle presently in storage to provide service to units coming on line before the new system is ready. The new units will be the Dean McGee Eye Clinic, Dental Clinical Sciences Building, and Biomedical Sciences Building and possible parts of the Children's Memorial Hospital addition. This unit will be tied to our present system by tie lines and require the dialing of 6 digits instead of 4 to call between the temporary and present stations. Replacement of the present and temporary systems by the new system would not require any change in assigned telephone numbers or any increase in station line cost according to information we now have.

President Sharp recommended the following:

1. That the University administration be directed to proceed with its negotiations with Southwestern Bell Telephone Company to finalize the installation of the Health Sciences Center phone exchange in the Moon Junior High School Northwest Wing (old swimming pool area), preparing the area to the phone company's needs, estimated to cost $75,000. Funds for this are available in the Health Sciences Center Operations Budget.

2. That the University through the Steam and Chilled Water Utility provide service to Moon Junior High via a new utility tunnel from the corner of Phillips and Park Place, westward into the Southeast Wing of Moon Junior High at an estimated cost of $80,000 by change order to the contract for the Phase III and Phase IV of the Steam and Chilled Water System; the bulk of the expense to be borne by the utility as it brings its service to a new customer. Funds for this expenditure are within the contingency fund established during the sale of the revenue bonds for Phases III and IV of the Steam and Chilled Water System.

3. The Southwestern Bell Telephone Company be authorized to install the temporary auxiliary system and the University administration be authorized to sign the interim "Contract for Service".
September 4, 1975

Regent Brett said this matter was reviewed by the Facilities Planning Committee and the Committee concurs in President Sharp's recommendations. Approved on motion by Regent Brett.

b. Report on Major Capital Improvements Projects

A report on major capital improvements projects now under construction and in various stages of planning on the Health Sciences Center Campus was included in the agenda for this meeting as shown on the attached page. No action was required.

Jane Frances Edwards, Instructor in Aviation, September 1, 1975. To continue education.

Marjorie A. Clay, Instructor in Philosophy, September 1, 1975.

Approved on motion by Regent Brett.

President Sharp reported the following death:

Ruth Ethel Elder, Associate Professor Emeritus of Education, August 14, 1975.
b. Dean, Graduate College

President Sharp recommended that Dr. Gordon Atkinson, currently Interim Vice Provost for Research Administration, Norman Campus, and Interim Dean of the Norman Campus Graduate College be appointed Dean of the Graduate College, Norman Campus, and Vice Provost for Research Administration, Norman Campus, effective September 5, 1975. Dean Atkinson will retain the rank of Professor of Chemistry. The title Chairperson, Department of Chemistry is deleted.

On motion by Regent Bailey, the Board deferred action on this item for further study.

Regent Neustadt said he has received some correspondence concerning the possibility that during the course of the search for a new Dean of the Graduate College that Affirmative Action guidelines were violated. He said it is his personal opinion, and he believes also the opinion of this Board, that the administration and the Search Committee did not violate any Affirmative Action guidelines. "We have been assured by our Affirmative Action Officer that such was not the case and we are perfectly satisfied in our own minds that all regulations, both moral and legal, have been fully complied with."

c. Director

President Sharp recommended that Dr. Samir S. Sofer be appointed Director of the School of Chemical Engineering and Materials Science for a four-year term effective September 1, 1975. Professor Sofer replaces Dr. Kenneth E. Starling, who has submitted his resignation as Director effective September 1, 1975.

Approved on motion by Regent Brett.

II. Program Approvals

President Sharp said he has been notified that the Oklahoma State Regents for Higher Education in a meeting on Monday, July 28, considered the pending requests of State System institutions for approval of new educational programs. The State Regents approved the Interdisciplinary Doctoral Program for the Norman Campus for implementation effective with the 1975 fall semester.

This was reported for information. No action was required.

III. Section 13 Allocations

In order that the damage resulting from the Adams Hall Fire could be repaired, the typewriters and dictating equipment which were used in the Business Education Lab in the basement of Adams Hall were moved to temporary storage in Building 501 on the North Campus. On August 5, 1975, four typewriters which were recovered along with other stolen merchandise from a warehouse in Lexington, Oklahoma, were identified as a portion of the equipment which was in storage on the North Campus. Upon checking Building 501, it was discovered that all of the typewriters and dictating equipment stored in the building were missing. The four recovered typewriters are being held as evidence by the Moore Police Department. The theft is still under investigation, however, the equipment must be replaced immediately so that it can be used in required Business Education courses in the Fall Semester.
A request was made to the Oklahoma State Regents for Higher Education for funds to replace the equipment through the State Regents Emergency Fund which was established to take care of casualty losses. However, the State Regents Office determined that the Emergency Fund was intended primarily to compensate for the damage to property "...by fire, hail, tornado, explosion, windstorm, flood or other catastrophe," and could not be used to replace stolen property of institutions.

An emergency request for allocation and allotment of $25,000 of Section 13 funds was forwarded to the Oklahoma State Regents for Higher Education to cover the purchase of 41 typewriters and 15 pieces of dictation equipment. If this request is approved by the State Regents at their next meeting, scheduled for September 22, authorization will be needed for the President to sign a purchase order for the typewriters which will amount to approximately $20,500.

President Sharp recommended that the Regents approve the allocation of $25,000 of Section 13 funds for the purchase of this equipment and authorize the President or his designee to sign an emergency purchase order for typewriters amounting to approximately $20,500 at the time the State Regents approve the use of Section 13 funds for this purpose.

Approved on motion by Regent Brett.

VI. Purchases

a. Typewriters

The University Office Machine Rental requires 145 IBM electric typewriters as replacements for existing typewriters. These typewriters will be ordered under State Contract #002907 using the IBM Education Purchase Plan as follows:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>40% due on delivery</td>
<td>$29,408.00</td>
</tr>
<tr>
<td>30% due 13th month after delivery</td>
<td>22,056.00</td>
</tr>
<tr>
<td>30% due 25th month after delivery</td>
<td>22,056.00</td>
</tr>
</tbody>
</table>

Total $73,520.00

This plan allows the funding of the purchase to be spread over three fiscal years at the current contract price, thus minimizing the impact in any one fiscal year.

The Rental Service replaces electric typewriters on a five-year cycle and the units replaced are normally sold on competitive bid basis as opposed to being used as trade-ins because it is anticipated that the sale of 145 units replaced in this instance will result in approximately $40,000 to $50,000 in revenues which will substantially offset the first two payments.

Payment will be made from University Office Machine Rental account 147 307.
President Sharp recommended approval of purchasing 145 replacement IBM electric typewriters under State Contract #002907.

Approved on motion by Regent Bell.

NORMAN CAMPUS
G. Operations and Physical Plant

I. New Construction

a. Report on Major Capital Improvements Projects

A report on major capital improvements projects now under construction and in various stages of planning on the Norman Campus was included in the agenda for this meeting as shown on the attached two pages. No action was required.

b. Parking - The Lloyd Noble Center

In accordance with action taken at the July 24 meeting, the Facilities Planning Committee of the Board approved President Sharp's recommendation to accept the low base bid of Norman Asphalt Co. as follows:

<table>
<thead>
<tr>
<th>Material</th>
<th>Supplier, Location</th>
<th>Price 1 (Plant Site)</th>
<th>Price 2 (Job Site)</th>
<th>Total Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fine Aggregate Base</td>

<td>$11.30/ton</td>

<td></td>
<td></td>
<td>$329,100.00</td>
</tr>
<tr>
<td></td>
<td>Metropolitan</td>
<td>$12.10/ton</td>
<td>$10.50/ton</td>

</tr>
<tr>
<td></td>
<td>Winsonite Sales</td>
<td>$10.80/ton</td>
<td>$9.50/ton</td>
<td>$196,000.00</td>
</tr>
</tbody>
</table>

The two prices quoted are for delivery to the job site. The bid for fine aggregate base from Norman Asphalt was $9.00 per ton if sold at the plant site, and $11.30 per ton for the asphaltic concrete if sold at the plant site. Most of these materials have been picked up at the plant site by our Physical Plant employees. The total cost, therefore, will be reduced below the $329,100.00 total.

Other bids received were as follows:

Metropolitan Enterprises, Inc.
Oklahoma City

Fine Aggregate Base
$12.10/ton delivered to the job site
$10.50/ton plant site

Asphaltic Concrete
$13.10/ton delivered to the job site
$11.50/ton plant site

Winsonite Sales Co.
Oklahoma City

Fine Aggregate Base
$10.80/ton delivered to the job site
$ 9.50/ton plant site
Asphaltic Concrete
$12.80/ton delivered to the job site
$11.50/ton plant site

This project provides for approximately 1,600 new asphaltic concrete surface parking spaces to include lighting, concrete curbs, and landscaping. These, plus the existing 800 space concrete parking surface, will provide a total of approximately 2,400 parking spaces in Phase I. With a total project budget of $450,000, it is anticipated that Phase I can be accomplished, including fees, contingency, and surveys. 1,200 of the new spaces in various stages of completion will be available for the first show on August 31, subject to weather conditions. It is projected that the additional 400 spaces, lighting and landscaping will be completed by October 1.

President Sharp recommended confirmation of the award of the bid on the fine aggregate base and the asphaltic concrete to Norman Asphalt Co. as explained above.

Approved on motion by Regent Braly.

II. Renovation, Repairs, Remodeling

a. Richards Hall Sub-Basement Remodeling

A portion of the subbasement of Richards Hall has been renovated for more intensive use by the Department of Zoology. The project includes a new stairwell, air conditioning, and a general renovation of a major part of the subbasement along with the installation of new laboratory casework, shelving and etc. Gordon's Specialty Company is the general contractor with a contract of $44,777; Oklahoma Seating Company is the casework contractor with a contract of $26,383.

A final inspection was conducted by the University staff and the contractor on August 1, 1975. With the exception of minor punch list items, the work has been completed.

President Sharp recommended final acceptance of the project subject to the satisfactory completion of the minor deficiencies identified during the final inspection.

Regent Brett reported the Facilities Planning Committee concurs in this recommendation and he moved approval. Approved.

IV. Contracts and Agreements

a. Primate Studies Center
The University of Oklahoma is the recipient of grants relating to research on primates, which is carried out at the Primate Studies Center operated by Professor W. B. Lemmon. Accordingly, both the Dean of the Graduate College and the Dean of the College of Arts and Sciences have proposed that the University have a more formal relationship to the properties, which are owned and operated by Dr. Lemmon.

The proposed lease agreement would give the University the necessary relationship. It is for a term of one year and is renewable, at the option of the parties. Consideration to be paid by the University is in the sum of $1 per year and costs relating to electricity and heating.

President Sharp recommended approval of entering into the lease agreement explained above.

Approved on motion by Regent Brett.

H. University Development

IV. Foundations and Trusts

a. Lew Wentz Foundation Trustee

The Trust Agreement of the Lew Wentz Foundation provides for a Regents' Trustee who shall be a member of and selected by the Board of Regents of the University and who shall serve as Regents' Trustee of the Foundation for a term of three years. The first such Trustee, Regent Thomas R. Brett, was appointed in October of 1972, and his term expires in October of 1975.

President Sharp recommended that Regent Thomas R. Brett be reappointed Regents' Trustee of the Lew Wentz Foundation for a three-year term effective October 1, 1975.

Approved on motion by Regent Replogle.

V. Gifts

A bequest has been received by the University of Oklahoma from Blanche Huls of Guthrie, Oklahoma. The Will provides that an endowment fund shall be established in the name of "Edward and Blanche Huls Memorial Fund" to provide financial assistance for needy and deserving students of the College of Medicine. The value of the estate is estimated at approximately $50,000. The principal asset is farmland described as follows:

North Half (N/2) of the South Half (S/2) of the Northeast Quarter (NE/4) of Section two (2) Township Eighteen (18) North, Range Four (4) West of the Indian Meridian, Logan County, Oklahoma.

This was reported for information. No action was required.
