A regular meeting of the Board of Regents of The University of Oklahoma was held in Dining Room 5 of the Oklahoma Memorial Union Building on the Norman Campus of The University of Oklahoma on Thursday, January 19, 1978, beginning at 10:30 a.m.

Notice of the time, date, and place of this meeting were submitted to the Secretary of State as required by Enrolled House Bill 1416 (1977 Legislature).

The following Regents were present: Mr. Thomas R. Brett, President of the Board, presiding; Regents Bob G. Mitchell, M.D., K. D. Bailey, Richard A. Bell, Dee A. Replogle, Jr., Charles E. Engleman, and Ronald H. White, M.D.

The following were also present: Dr. Paul F. Sharp, President of the University; Provosts Barbara Uehling and William G. Thurman; Vice Presidents David Burr, J. R. Morris, and Thurman White; Interim Vice President Steve Van Hauen; Mr. Joseph C. Ray, Executive Assistant to the President; Mr. R. Boyd Gunning, University Trust Officer; and Mrs. Barbara H. James, Executive Secretary of the Board of Regents.

The minutes of the regular meeting held on December 8, 1977, were approved as printed and distributed prior to the meeting on motion by Regent Bell and with the following affirmative vote: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White.

The minutes of the special meeting held on December 22, 1977, were approved as printed and distributed by mail prior to the meeting on motion by Regent Bell and with the following affirmative vote: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White.

President Sharp presented the following statement to the Regents:

"On November 5th, I suffered a stroke as you know. I have been making good progress toward recovery. Such an event, however, causes one to review and to re-evaluate goals and commitments. I have had a timely warning and I intend to heed it. I have just spent two weeks with members of my family and with their counsel as well as on medical advice, I am asking the Regents of the University to authorize my retirement from administrative duties to take up new responsibilities as a Professor of Higher Education.

"I deeply appreciate the privilege given me by the Regents over the years of serving the people of Oklahoma and the numerous constituencies of this University, internal as well as external, as President during these past seven
years. Those years, in retrospect, were exciting ones and I am confident that
the University of Oklahoma in 1978 is stronger than it was in 1971 and more
effective in achieving its many and complex goals, both on the Norman Campus
and the Health Sciences Center Campus in Oklahoma City as well as through the
new programs in Tulsa.

"Now I enthusiastically look forward to joining my colleagues on the
faculty and serving the University in a professorial role--teaching, lecturing,
researching, and writing, and in whatever role the Regents may wish.

"In this sense, I would like to comment that this will be for me a
third career. After fifteen years as a historian and twenty-one years as a
college or university president, I now anticipate the opportunity of entering
a third career in the field of my current scholarly interests. In this specialty
I have not only been a chief administrative officer in both public and private
institutions, but have served in numerous leadership roles nationally in higher
education, authored numerous articles in professional journals and university
publications, taught as a visiting lecturer at the Institute of Educational
Management at Harvard and other institutions as well as lectured regularly in
the American Council on Education's Institutes for College and University Admin-
istrators and the Texas Seminar for College Administrators. In addition, of
course, I have also taught courses in our own College of Education in the Higher
Education program.

"To provide an orderly and smooth transition to a new administration,
I have expressed to Regent Brett my willingness to remain as President until a
new President is in office. Whatever the time, however, I do request from the
Board a semester's leave with pay to prepare courses and to continue my research
and writing.

"Finally, I really want to express genuine appreciation to so many
wonderful staff and faculty colleagues as well as friends in Norman and through-
out the State of Oklahoma for their numerous acts of friendship during these
recent weeks. Rose and I are especially grateful to members of this Board of
Regents whose understanding and support have meant so very much to us. Thank you,
Mr. President."

Regent Brett responded as follows:

"Dr. Sharp, of course it is with sincere regret that we receive this
decision of yours, that you feel it is necessary to make this change. I personally
am moved by it because I know that you and I came to this University together, so
to speak. You have been an outstanding President of this institution and you
have made contributions, too, that will last and I am sure that you will go down
as one of the outstanding Presidents the University of Oklahoma has had.

"We haven't the time here today for me to outline all of these contri-
butions that you have made, but I would be remiss if I didn't comment on a least
a few of them. I feel you as President have both attracted and kept an outstanding
faculty. We have a coterie of the most excellent deans and department heads that I think there are in higher education; very outstanding people, and you have been largely responsible for that contribution and maintaining the quality of the institution in that regard. The contributions that you've made in terms of University Development and private fund-raising, which are so important to the quality of the University, have been outstanding and your leadership in that regard we're most, most grateful for. I think, Paul, the greatest compliment, however, that can be paid to you, and I say this sincerely, that of all the constituents that you, as President, represented—and I'm talking about the public, the faculty, the students, and the alumni, I can say that you are genuinely loved and respected by all of them. Frankly that ingredient that you have demonstrated for seven years has been an extremely important one insofar as this University is concerned. I think we are all aware of that, particularly in terms of the atmosphere in which you came on board, and we are particularly grateful for that. However, instead of saying good-bye, every cloud has a silver lining, and the silver lining of this cloud, for the Regents and the administration is—you're not leaving you're merely changing hats and we look forward to continuing to have your wit and your wisdom and your wise counsel, and your being on the scene here in Oklahoma for many, many years to come."

Regent Engleman commented as follows:

"Dr. Sharp, I feel that your decision, although justified, is really a regrettable loss to the University and to the State. I think your contribution during the past seven years to the University is universally appreciated. I want to compliment you for your integrity, perseverance, loyalty, and dependability, and for the favorable image you have created for the University throughout the State and the Nation. I am happy that you are still going to be with us and have a lot more to contribute to the University."

The other Regents also expressed their appreciation for President Sharp's contributions to the University and their understanding of his reasons for retirement from administrative duties.

Regent Bell moved the Board meet in Executive Session to discuss this personnel matter. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

The Regents, President Sharp, and Executive Secretary James then retired for an Executive Session.

The meeting reconvened in regular session at 11:20 a.m.

Regent Bailey moved acceptance of Dr. Sharp's retirement from administrative duties, to be effective when a new President is appointed and installed, and acceptance of his offer to continue of service to the University as outlined in his statement. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.
Regent Brett suggested a discussion of the proposed arrangements for the presidential retirement and continuing relationship with the University. Regent Brett made the following suggestions in that regard that would be effective upon Dr. Sharp's retirement from the active presidency when another person is appointed and installed in the office:

1. That he be named President Emeritus

2. That he be given half-time secretarial assistance following his retirement as President, to be reviewed annually

3. That he be given four good seats to all University events on and off the campus and authorized the use of University facilities without charge, all for the remainder of his life

4. That he be granted a leave of absence with pay for six months for the purpose of preparing himself to return to teaching, with the leave to begin upon his retirement as President

5. That he be appointed a Regents Professor with tenure in the College of Education

6. That he serve as a consultant in University Development

7. That his salary be set in the range of $42,500 to $45,000 for 12 months ($42,500 while on leave and then $45,000)

8. That he have other fringe benefits normally accorded members of the full-time faculty

Regent Mitchell moved approval of the provisions for the presidential retirement and continuing relationship with the University. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion carried unanimously.

Regent Brett said as Dr. Sharp suggested in his remarks, he feels it is imperative, as do the Regents, that the business of a search for his successor proceed with some dispatch. For that reason, the Chair recommended the following with regard to the Search Committee:

*Proposed Search Committee* (12 voting members)

Faculty - 4 (3 Norman Campus, 1 Health Sciences Center)*
Students - 2**
Staff - 1***
Alumni - 2#
At Large - 1 (no prior association with OU as student or employee required)
Regents - 2 (or designate)##
Regents' Executive Secretary (ex officio non-voting)
*Nominations from each Faculty Senate, deans, department heads, or any other faculty source.

**Nominations from the University of Oklahoma Student Association, Health Sciences Center Student Government, or any other student source.

***Nominations from Norman Campus Employee Executive Council, Health Sciences Center Employee Liaison Council, or any other staff source.

#Nominations from Alumni Association or any other source.

##Regents not members of the Search Committee are ex officio non-voting members of the Search Committee.

Additional Notes Regarding Search Committee

1. In submitting nominations, each constituent group or person should give consideration to the representation of minorities.

2. The Regents will designate the Search Committee officers as follows: Chair, Co-Chair, Secretary.

3. The Regents will make the ultimate selection of the Search Committee.

4. Executive Officers of the University will not be eligible to serve on the Search Committee.

5. A budget for the Search Committee in the amount of $10,000 will be established. Expenses of any applicant invited for interview will be paid unless not requested by the applicant.

In the proposal concerning a Search Committee, Regent Brett suggested that the nominations for the Search Committee be closed as of February 2, 1978, and that the 12 voting member Committee be announced at a February 15, 1978 special meeting of the Board. The Search Committee would convene for its first meeting with the Board of Regents on February 16 in Tulsa.

Regent Replogle moved approval of the recommendations regarding the Search Committee. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

Regent Brett said the criteria for the selection of a new President should be considered at this time and he proposed the following for the purpose of bringing the matter before the Regents for discussion and vote:

Criteria for the Selection of a President

We seek a vigorous, creative leader as the next President of the University of Oklahoma, the chief executive officer of the institution, a person who
possesses the exceptional drive and stamina needed to lead a major university. However, certain characteristics and conditions are deemed preferable, as follows:

a. have earned an advanced degree;

b. have had several years of successful administration in a position involving broad responsibilities, which may or may not include academic administration and teaching in a college faculty;

c. be between the ages of 30 and 60;

d. be a person decisive in nature with integrity, dignity, and compassion.

The next President should be a person who is progressive and sensitive to the changing needs and aspirations of the various groups which comprise the University community and one who will be articulate and effective in expressing these needs to others, both within and without the University. The President must be able to see that the rules of the University are enforced and, at the same time, strive to insure free expression and the basic principles of academic freedom.

The next President should understand and be able to articulate the institution in all of its aspects, including but not necessarily limited to academics, financial, social, political, student, faculty, alumni, and public relations. The President should recognize the roles and responsibilities of the Faculty Senates, the University of Oklahoma Student Association, the Employee Executive Council, and the Employee Liaison Council in the governance of the University, in accordance with procedures approved by the University of Oklahoma Board of Regents.

Regent Bailey moved approval of the criteria as set forth above. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

Regent Brett announced that letters would go out later in the day to the appropriate constituent groups requesting nominees for the Search Committee as approved by the Regents. He said it would be appreciated if any such nominees be provided to the Office of the Executive Secretary of the Regents no later than February 2, 1978.

Regent Engleman reported as follows as a result of a meeting of the Administration and Organization Committee yesterday:

Regent Engleman reported the Board decided some time ago, about 1973, that it would be desirable to proceed with the presidential portrait while Dr. Sharp was still in office. It has been the custom for the University to have portraits of the University Presidents.
We thought at one time a local artist had been identified for the portrait. However, she moved to another part of the country and the portrait was not started.

It is now proposed that a New York artist, Everett Raymond Kinstler, be commissioned to do President Sharp's portrait at a maximum cost of $4,500. The portrait would be the same size, 24 inches by 30 inches, as the other portraits of our University Presidents. Foundation funds are available for this expenditure.

Information on Mr. Kinstler's work was distributed to the Committee. In addition to the commissions listed, Mr. Engleman said Mr. Kinstler last year completed the official White House portrait of President Gerald Ford. Photographs of several of Mr. Kinstler's portraits were available at the Administration and Organization Committee meeting.

Regent Engleman said the Committee recommends approval of commissioning Everett Raymond Kinstler for President Sharp's portrait at a maximum cost of $4,500 with the funds for the portrait to come from the Foundation, and he so moved. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

Regent Engleman said the Academic Affairs Committee met yesterday afternoon also and decided to defer consideration of the Benjamin Franklin Hart, Jr. Degree Matter to the Academic Affairs Committee meeting on February 15 in Tulsa. Regent Replogle moved approval of deferral of this matter with Mr. Hart and his counsel to be informed of the time, date, and place of the February 15 meeting by certified mail, return receipt requested. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

a. Fee Waiver for Senior Citizens

President Sharp said he has been notified by Chancellor E. T. Dunlap that the State Regents for Higher Education in their meeting on December 19, 1977 denied the request of the University of Oklahoma to enroll senior citizens on a fee waiver basis. Chancellor Dunlap reported the State Regents concluded that this could not be justified in the light of increasing costs of education and that it was inconsistent to extend the privilege of free enrollments to a certain class of students while charging others.

This was reported for information. No action was required.
b. Sick Leave Policy: Occupationally-Induced Disabilities

President Sharp recommended approval, effective immediately, of the following new statement on leave for occupationally-induced disabilities:

Employees who experience occupationally-induced disabilities which satisfy eligibility requirements for benefits under Oklahoma's Workers' Compensation Law, or future similar statutes, and who are unable to carry out their normally assigned duties, may have such benefits supplemented by University compensation. Such supplemented pay and benefits to an individual will, together, not exceed the regular rate of pay to which the employee is entitled and will be limited to a period of no more than 30 calendar days. Validation of the on-the-job relationship of the disability will be provided by the employee's supervisor or department head; the fact that the event is disabling and requires absence from work will be validated by a medical doctor. Time lost during the first 30 calendar days will not be charged against accrued sick leave or vacation. Should the disability continue to require absence from work beyond 30 calendar days, the employee will use accrued sick leave, earned vacation, and leave without pay as necessary. In the application of this policy, the University reserves the right to obtain additional medical evaluation of the disability prior to the establishment or continuation of benefits entitlement.

Regent White moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

b. College of Medicine Admissions Policy

President Sharp said he has received word that the Oklahoma State Regents for Higher Education in meeting on December 19, 1977 considered the request of the University of Oklahoma for a revision of the requirements for admission to the first-year class because of a change in the scoring of the Medical College Admission Test.

The action of the State Regents was "to approve a revision in the current requirements to provide that applicants must present a cumulative grade point average of 3.0 or better or must score an average of 6 or better on the new Medical College Admission Test. This approval was given with the understanding that the new standards be reviewed following the first full year of operation under the revised policy".

This was reported for information. No action was required.

c. Bookstacks for Library

Request for bids for bookstacks for the Health Sciences Library were mailed to 22 suppliers. Bids were received by the Purchasing Department and the Architectural and Engineering Office from six suppliers as follows:

- Aetnastak Div.
  Art Metal USA, Inc.
  Newark, New Jersey
  $ 65,442.85

- Estey Corporation
  Red Bank, New Jersey
  71,854.00

- Thompson Book and Supply Company
  Edmond, Oklahoma
  99,764.25

- Andrew Wilson Company
  Lawrence, Massachusetts
  68,052.00
The bids were evaluated by the Architectural and Engineering Office. The proposal is to accept the lowest base bid which meets specification.

Funds are available in account 99470090 for this purchase.

President Sharp recommended that the award be given to Aetnastak Div., Art Metal USA, Inc. in the amount of $65,442.85.

Regent Engleman moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

d. Therapy Equipment

A quotation has been received from Puritan-Bennett Corporation through Dr. Lynn H. Blake of the National Institutes of Health for the purchase of 50 AP-5 therapy units and 50 modified compressor/nebulizers in an AP cabinet for $23,750. The University is participating in a five center clinical study on IPPB. The funding agency, The National Institutes of Health, has requested that all equipment in the five centers be purchased from the same company.

Funds are available in grant account C2300702 to pay for this purchase.

President Sharp recommended approval of the purchase in the amount of $23,750 from Puritan-Bennett Corporation.

Regent Replogle moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

e. Proposal, Contract, and Grant Report

A summary of proposals for contracts and grants for the Health Sciences Center for December, 1977, along with a list of all contracts executed during the same period of time on proposals previously reported was included in the agenda for this meeting.
President Sharp recommended that the President of the University or the President's designee be authorized to execute contracts on pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts depending upon these negotiations.

Regent Engleman moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

V. Operations and Physical Plant

a. Health Sciences Center Parking System and Bond Issue

The $7,700,000 Health Sciences Center Parking System Revenue Bonds is an attempt to solve a portion of a parking problem that was first reported in a study completed in October, 1967, by Barton-Aschman Associates.

As currently proposed, the Health Sciences Center parking system continues to retain the advantage of pooling the parking demands and costs (finances) of several State, Federal and private agencies in order to more efficiently bond and build parking facilities. The system also continues to operate on the concept of surface parking profits subsidizing structure parking deficits.

Several major trade-offs have been made to develop the current system. In order to protect the future management flexibility of University Hospital and Clinics the hospital will manage the outpatient-visitor structure built on their land via an extensive lease and management agreement. In turn the University of Oklahoma has contractual commitments from the University Hospital and Clinics not to build any future parking that will compete with the parking system, to facilitate sale of bonds. Likewise, University Hospital and Clinics will join with three other institutions in guaranteeing annual parking income for the system while the University of Oklahoma Regents guarantee to make adequate space available via the parking system.

Throughout this developmental process, the needs of the institutions involved have been weighed against the need to minimize the risk for the University of Oklahoma in order to develop fair solutions to the problems faced in designing such a cooperative system. This process resulted in the currently proposed Health Sciences Center Parking System which has been approved, in its present form, by the University Hospital and Clinics Board of Trustees on January 10, 1978.

The project currently envisions two parking structures. One structure for 434 cars is to be built west of Everett Tower. As currently proposed, this structure will include 12,800 square feet of surge space. The second structure is to be sited west of the Biomedical Sciences Building and will include space for 1,100 cars and 22,000 square feet of service facilities.
The preliminary cost estimates for the parking program are as follows:

Schedule

- **Sell Revenue Bonds**: June, 1978
- **Construction Start**: August, 1978
- **Construction Completion**: August, 1979

Amortized over 30 years at an estimated 6.5%, the $7,700,000 Health Sciences Center Parking System Revenue Bonds, Series A, will require $635,500 in annual debt service payments. The most conservative estimate of annual revenues to the system is $832,220 providing for an average coverage ratio of 1.31.

If approved, the schedule will be to sell bonds prior to June, 1978, and to begin construction in August of 1978. A construction program of 12 months is anticipated.

President Sharp recommended approval of the $7,700,000 Health Sciences Center Parking System Revenue Bonds, Series A, and the associated documents including the Preliminary Official Statement of the Bond Issue, which contains the Statement of Essential Facts, the Subscription Agreement, and the Lease Agreement with University Hospital and Clinics, and a Resolution of approval as follows:

NOW, THEREFORE, BE IT RESOLVED BY THE REGENTS OF THE UNIVERSITY OF OKLAHOMA:

Section 1. Pursuant to Title 70 Oklahoma Statutes Sections 4001 and 4013 and based on the facts presented to the Board of Regents, it is hereby determined that the "Project" as defined in the Preliminary Official Statement approved by Section 2 of this Resolution is needed by the University of Oklahoma Health Sciences Center for the comfort, convenience and welfare of the students of the University of Oklahoma.

Section 2. Statement of Essential Facts. The Preliminary Official Statement which contains the Statement of Essential Facts pertaining to the Regents of the University of Oklahoma Health Sciences Center Parking System Revenue Bonds, Series A is hereby adopted and approved and the President of the University is directed to forward same to the Oklahoma State Regents for Higher Education for examination and determination that the projected revenue will satisfy the financial obligation to be incurred under the proposed bond issue.
Section 3. University Hospital Lease. The Agreement for the Lease, Operation and Maintenance of Parking Facilities dated as of January 19, 1978 by and between the Regents and the Board of Trustees of University Hospital is hereby adopted and approved and the President is authorized and directed to execute and deliver same for and in behalf of the Regents.

Section 4. University Hospital Subscription Agreement. The Oklahoma Health Center Parking Subscription Agreement dated as of January 19, 1978 by and between the Regents and the Board of Trustees of the University Hospital is hereby adopted and approved and the President is authorized and directed to execute and deliver same for and in behalf of the Regents.

Regent Bell said this material has been under review for some time and was considered by the Facilities Planning Committee at the meeting yesterday. He said the Committee concurs with President Sharp's recommendation and he so moved. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

b. Architectural and Engineering Fee for 434-Car Parking Structure

The Board of Trustees of the University Hospital and Clinics have retained Rees Associates, Incorporated of Oklahoma City to design a proposed Laboratory and Emergency Room Facility. The Board of Trustees have requested the Board of Regents to construct a 434-car parking structure containing 12,800 gross square feet of building area for hospital support functions. To keep costs as low as possible, the parking structure with the additional floor area for hospital support functions is to be designed and constructed in conjunction with the laboratory and emergency room structure.

With this in mind, the Board of Regents have agreed to retain Rees Associates as architects for the interrelated parking and hospital service structure. Rees Associates have formed an association with Carl Walker Associates, Incorporated, a parking consultant and structural engineer. Rees Associates have developed a detailed scope of services for the work required to design a 434-car parking structure and the related hospital service facilities interconnected with the Laboratory and Emergency Room Facility.

The required professional architectural and engineering services are to be provided under the terms of a fixed-fee for the services contract with reimbursable expenses.

In view of the size and the complex scope of this project, its location in relation to the University Hospital and Clinics structures and its inter-relationship with the proposed new laboratory and emergency room building, a fixed-fee of $110,500 and a reimbursable expense allowance of $9,500 is recommended.
January 19, 1978

President Sharp recommended that a fixed-fee of $110,500 and a reimbursable expense allowance of $9,500 be approved as the basis of a contract with Rees Associates, Incorporated, for architectural and engineering services on the 434-car parking structure with 12,800 square feet of additional space for hospital support space. It is understood that Rees Associates, Incorporated will retain Carl Walker Associates, Incorporated as parking consultants and structural engineers for this project.

Regent Bell said the Facilities Planning Committee concurs with President Sharp's recommendation and he moved approval. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

c. Architects and Engineers for 1,100-Car Parking Structure

Interviews were conducted on November 22, 1977 and again on January 6, 1978 to review the qualifications of four architectural firms which had indicated an interest in providing the required professional services for the 1,100-car parking structure to be located on a portion of the "H" lot on the Health Sciences Center Campus.

These interviews were conducted in accord with the procedures set forth in State Statutes and the policies of the Board of Regents regarding the selection of professional consultants. The following qualifications of each firm were considered:

1. Professional reputation
2. Available professional staff
3. Engineering staff or consultants
4. Scope of professional services
5. Experience with parking structures
6. Amount of work in process
7. Design ability
8. Other University projects completed

Based on the information obtained during interviews and from other sources, the interview group concluded that Shaw Associates, Inc., with Young, Hadawi, DeShazo, Inc., as structural engineers and parking facility consultants have a unique combination of experience and professional skills. Shaw Associates, Inc., has a large number of major projects to their credit, including two major parking facilities. Young, Hadawi, DeShazo, Inc., are consulting engineers that specialize in the design and engineering of parking structures. They were consultants on the COPTA Parking Structure #1 in Oklahoma City, and Tulsa Parking Authority Structure. They have served as professional consultants on a large number of major parking structures for cities, medical centers, parking authorities and retail shopping centers. The interview group recommends that they be selected as project architects and engineers.
All of the firms interviewed are listed below:

Shaw Associates Incorporated, with Young, Hadawi, DeShazo, Incorporated
Benham Blair & Affiliates, Incorporated
Turnbull and Mills, Incorporated
Blevins & Spitz, Incorporated

Regent Bell said information was presented at the Facilities Planning Committee meeting yesterday and all four of the firms were interviewed and all four are qualified to do the job. He said it is the unanimous opinion of the members of the Committee that Blevins & Spitz, Incorporated be appointed for this project. Regent Bell moved approval of the appointment of Blevins & Spitz, Inc. for the architectural and engineering work on the 1,100-Car Parking Structure. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, and Engleman. Regents Replogle and White voted NO. The Chair declared the motion carried.

d. Report on Major Capital Improvements Projects

As shown on the following page, a report was presented to the Regents on major capital improvements projects now under construction and in various stages of planning on the Health Sciences Center Campus. No action was required.

VI. Purchases

a. Replacement of Wiring in Yorkshire Apartments

Bids were recently circulated for the labor and material to replace the aluminum wiring to the kitchen stoves with copper wiring in 144 apartments of the North-South complex at Yorkshire Apartments. The bid also required the replacement of extension cords for exterior wall lights of the entire complex.

The cost of the work will be charged to Yorkshire account 175-141.

Bids were sent to six electrical contractors and one bid was submitted as follows:

Gene Hansmeyer Electric, Inc. $16,920.00
Norman

The bid has been reviewed by Housing and Physical Plant representatives and is acceptable to them. The price is considered to be fair and reasonable.

President Sharp recommended that the Board of Regents approve the award of a purchase order in the amount of $16,920.00 to Gene Hansmeyer Electric, Inc. for the electrical work required at the Yorkshire Apartments.

Regent Replogle moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engelman, and White. The Chair declared the motion unanimously approved.

VII. Project Financing

a. Proposal, Contract, and Grant Report

A summary of proposals for contracts and grants for the Norman Campus for December, 1977, along with a list of all contracts executed during the same
President Sharp recommended that the President of the University or the President's designee be authorized to execute contracts on pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts depending upon these negotiations.

Regent Mitchell moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

b. Baseball Facilities

At the October 6, 1977 meeting the Board of Regents went on record as supporting the baseball program by directing that $150,000 per year for four years from athletic funds be placed in escrow for the baseball program, with the understanding the baseball coach, in cooperation with University officials, will attempt to raise additional funds in order to construct improved baseball facilities.

At the December 7, 1977 Budget Committee meeting a communication was presented from the Chair of the Athletics Council, Professor Catherine Bennett, requesting the University Regents to reconsider this action. Her letter included the following concerns of the Athletics Council:

"The Council felt that since it is responsible for the approval of the annual department budget, the baseball directive would put the Athletic Department in an untenable position. This is realized since the Council participates in the preparation of the budget by means of a subcommittee working with the Athletic Business Office on a line-by-line basis, giving consideration to both income and expenses.

It is felt that if the directive is complied with, the Athletic Department will have to either reduce a portion of the men's intercollegiate program, eliminate all capital improvements for many years, or reduce the current women's program now requiring $341,000.00 to fund.

In view of the current indebtedness reflected in the Annual Report plus capital needs considered to be of greater and more serious need, the Council respectfully requests that the Regents' directive be rescinded."

The Budget Committee recommended that the resolution of the Board at the October meeting as stated in the first paragraph above stand as is.
January 19, 1978

Regent Bailey moved approval of the recommendation.

Regent Replogle commented that even though the money will be placed in escrow, that it could be expended for improving the baseball stadium with the approval of the administration.

The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

a. Football Coaching Staff

Regent Engleman moved that the following item be added to this agenda for consideration at this time. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White.

February is the usual month for renewal of contracts with the football coaching staff with the recommended salaries to be effective February 1, 1978.

The following is recommended regarding Coach Barry Switzer's salary and letter of intent:

1. Annual salary - $38,000 (an increase from $36,000)
2. Annual expense allowance of $3,000.
3. A commitment to retain Coach Switzer as head football coach for not fewer than four years beyond the contract year beginning February 1, 1978.
4. An annual review with regard to salary and the other terms of his letter of intent.

It is recommended as follows regarding salaries for the members of the coaching staff:

I. New Construction

a. Richards Hall Addition and Renovation

On November 8, 1977 lump sum bids for the renovation of Richards Hall and the construction of a 19,000 square foot addition to the building were received. The lowest bid was substantially greater than the project architects' estimate of construction cost and the funds available for the project. As a result, all bids were rejected and the project architects were instructed to revise the plans and specifications and to rebid the project.

Revised plans and specifications were completed and the project was re-advertised for bids during the early part of December. Later in the month it was learned that $672,120 of State Building Bond Funds needed for the total project were not available to award a contract at this time. Therefore, the bidding forms have been revised to make it possible to divide the project into two major parts: Part A, the new student laboratory building and Part B, the renovation of Richards Hall. For the purpose of re-bidding, the work in each part was subdivided into four separate contract areas: (1) general construction, (2) mechanical work, (3) electrical work and, (4) casework and fixed equipment.

New bids for the renovation of Richards Hall, the construction of a 19,000 square foot addition and the installation of fixed laboratory equipment in both the existing building and the new addition were received on January 12, 1978.

The following base bids were submitted:

Total of Low Base Bids $1,558,478

The lowest combination of base bids is more than $500,000 greater than the project architects' estimates and the sum available for the award of the construction contracts.

Both of the general contract bids and the only mechanical bid received are greatly in excess of the project architects' estimates for these parts of the work. The bids, the contractors' proposals and the plans and specifications for the project have been reviewed. As a result of this review, the project architects and the University staff recommend that (1) the low bidders for the electrical construction work and the casework be requested to hold their bids good for a period of sixty days and, (2) both bids for general work and the single bid for the mechanical work be rejected and re-bid following additional plan revisions.

It is recommended that all bids for the general construction work and the single bid for the mechanical work on the Richards Hall project submitted on January 12, 1978 be rejected and that the project plans be revised and re-bid.

Regent Bell said the Facilities Planning Committee concurs with President Sharp's recommendation and he moved approval. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

b. Report on Major Capital Improvements Projects

As shown on the following page, a report was presented to the Regents on major capital improvements projects now under construction and in various stages of planning on the Norman Campus. No action was necessary.

II. Remodeling, Renovation, Repairs

a. Acceptance of Utility Metering System

The Board of Regents approved the installation of a Utility Metering System for ten buildings on the main Norman Campus at the September, 1976 meeting. The contract specifications stated that a one-year warranty would be effected upon acceptance of the system by the Board of Regents. Physical Plant has determined that Johnson Controls, Inc., has satisfactorily completed installation of this system.

President Sharp recommended that the Board of Regents approve the acceptance of this system.

Regent Replogle moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

VIII. Leases and Agreements

a. Oil and Gas Lease

The University has received a request to advertise for oil and gas lease the following property:

The Southwest Quarter (SW/4) of Section Thirteen (13), the Southeast Quarter (SE/4) of Section Fourteen (14), and the Northeast Quarter (NE/4) of Section Twenty-three (23), all in Township 9 North, Range 3 West, of the Indian Meridian, Cleveland County.

This is approximately 480 acres on the North Campus of the University.

Regents' regulations provide that the party requesting the land to be advertised for bid must pay the advertising cost. This is understood by the individual requesting this oil and gas lease. In the event a bid is accepted, the lease will include, among other things, the following provisions:

1. $5 delay rental
2. The right of the University to purchase all of the oil and/or gas produced
3. A three-year lease
4. Compulsory drilling within one year
5. 3/16 royalty

President Sharp recommended that since it has been determined the leasing of such lands will not interfere with the use to which they are being put by the University and will not injure the buildings or other properties situated on tracts adjoining the lands leased that the property be advertised for oil and gas lease in accordance with Regents' regulations and State Statute.

Regent Bell said the Facilities Planning Committee concurs with President Sharp's recommendation. A lengthy discussion then took place regarding the proposed lease item of $5.00 delay rental. It was agreed that it would
be more satisfactory to the Regents if the first item in the listing of lease provisions would be modified to read:

1. A delay rental to be negotiated by and between the parties with a minimum of $5.00 per acre.

With the above modification, Regent Bell moved approval of the recommendation. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

H. University Development

V. Gifts and Bequests

a. Notice of Gift

President Sharp reported a gift to remodel the University's Electron Microscope Laboratory Building and to purchase three electron microscopes has been received. The donor also provided partial funding for a named professorship in Botany-Microbiology. The total of the gift is $647,000.

No action was required at this time.

VI. Investments

Regent Bell moved approval of adding the following to this agenda for consideration. The following voted yes on the motion: Regents Brett, Mitchell, Bailey, Bell, Replogle, Engleman, and White. The Chair declared the motion unanimously approved.

The following recommendations were received from J. & W. Seligman and Company January 16, 1978, affecting the investments of the Regents:
