A regular meeting of the Board of Regents of The University of Oklahoma was held in Dining Room 5 of the Oklahoma Memorial Union on the Norman Campus of the University on Thursday, October 13, 1983 beginning at 9:32 a.m.

Notice of the time, date, and place of this meeting was submitted to the Secretary of State as required by Enrolled House Bill 1416 (1977 Oklahoma Legislature).

The following Regents were present: Regent Ronald H. White, M.D., President of the Board, presiding; Regents Dan Little, Julian J. Rothbaum, Tom McCurdy, John M. Imel, Thomas Elwood Kemp, and Charles F. Sarratt.

The following also were present: Dr. William S. Banowsky, President of the University, Provosts John R. Morris and Clayton Rich, Vice Presidents Anona L. Adair, Arthur J. Elbert, David A. Burr, and R. Gerald Turner, and Barbara H. Tuttle, Executive Secretary of the Board of Regents. Other executive officers present were: Mr. Stanley M. Ward, General Jay T. Edwards, Mr. Larry C. Brawner, and Mr. Walter O. Mason.

The minutes of the meeting held on September 1, 1983 were approved as printed and distributed prior to the meeting on motion by Regent Sarratt and with the following affirmative vote: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

President Banowsky reported the Julian J. Rothbaum Distinguished Lecture Series in Representative Government was inaugurated on the campus on Wednesday evening. The lecture series was established by Regent Rothbaum's wife, Irene, and son and daughter-in-law, Mr. and Mrs. Joel Jankowsky. It is designed to show the relationship between education and public service in representative democracy. President Banowsky said John Brademas, President of New York University, is the keynote speaker for the inaugural series this week. He is a former majority whip of the U.S. House of Representatives and a Rhodes Scholar. President Banowsky congratulated Regent Rothbaum and members of the Rothbaum family who have made possible this important academic event on the campus.

President Banowsky reported also that on October 22 the groundbreaking ceremony for the School of Music Building will be held and that it will be a very festive occasion.
I. The University

INVESTMENTS

Two issues of U.S. Treasury Bills matured on September 29. One was a $225,000 par value investment of the Consolidated Investment Fund and the other was a $205,000 par value investment of the Energy Center Fund. The Energy Center Fund investment is on deposit with the State Treasurer for the benefit of the Energy Center project.

Both investments were renewed in U.S. Treasury Bills to mature February 16, 1984 at 9.18404% interest rate on the recommendation of the Trust Officer with the approval of the President of the University.

President Banowsky recommended confirmation of the investments listed above.

Regent Rothbaum moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

ACQUISITION OF FEDERAL SURPLUS PROPERTY

For many years the Board of Regents has authorized the President and the purchasing director on each campus to take the necessary actions to acquire federal surplus property from the Oklahoma State Agency for Surplus Property as appropriate. The most recent resolution was adopted on September 1, 1977 and granted authorization to the individuals who occupied those positions at that time.

It is appropriate now that the September 1, 1977 resolution be rescinded and new authorization granted.

President Banowsky recommended that the September 1, 1977 resolution be rescinded and that the individuals occupying the following positions be authorized to sign all instruments and to enter into such negotiations as may be necessary in the acquisition of federal surplus property from the Oklahoma State Agency for Surplus Property:

For the University

President of The University of Oklahoma

For the Norman Campus

Vice President for Administrative Affairs
Purchasing Director
Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

RESOLUTION - CHARLES E. ENGLEMAN

WHEREAS, Mr. Charles E. Engleman served with dedication and devotion as a member of the Board of Regents of The University of Oklahoma from 1976 to 1983 and as President of the Board during 1982-83; and

WHEREAS, despite his responsibilities as a leading state publisher and his numerous civic duties he gave willingly of his time and abilities to promote the University; and

WHEREAS, his association with other members of the Board and the faculty and staff of the University reflected his integrity, courtesy, candor, and sound judgment; and

WHEREAS, he continued to be a prominent spokesman for the School of Journalism and Mass Communication; and

WHEREAS, during his service on the Board of Regents, the University experienced a historic period of growth. Bizzell Memorial Library was doubled in size, the research and instructional capacity of the main computer system was more than quadrupled, and the College of Geosciences was established. The Health Sciences Center Campus in Oklahoma City became one of the nation's most impressive medical complexes, the College of Pharmacy Building was constructed, and the new campus in Tulsa for medical programs was dedicated. During his presidency, ground was broken for the Energy Center, and plans for a new School of Music Building and expansion of Copeland Hall were announced.

NOW, THEREFORE BE IT RESOLVED that the Regents of The University of Oklahoma express deepest appreciation to Mr. Charles E. Engleman for his contributions to the University and to the State of Oklahoma and look forward to his continuing interest in The University of Oklahoma.

Regent Little moved approval of the resolution. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.
THE UNIVERSITY OF OKLAHOMA ASSOCIATES

Following is the commitment of funds of The University of Oklahoma Associates for the period July 1 through September 30, 1983:

Department of Physics and Astronomy
Partial support for a graduate research associate in physics.

Provost Development Fund - Norman Campus
Funds provided annually to cover small academic expenses on the Norman campus.

Norman Campus Research/Creative Activity Support
An advisory committee of faculty under the direction of Vice Provost Ken Hoving reviewed $1.4 million in requests and recommended the following be funded:

Aerospace, Mechanical, and Nuclear Engineering
Purchase of a computer controlled automated ultrasonic scanning system used to test the internal integrity of solid structures.

Biological Station
Equipment linking the Biological Station with the Merrick Center to improve research and instruction at the Station.

Chemical Engineering and Materials Science
Purchase of an electrodialysis unit to remove ionic compounds from water.

Chemistry
Purchase of a flashlamp-pumped dye laser used in research on photoactive chemicals.

Chemistry
Purchase of a new probe to the NMR spectrometer to expand its capacity to assist in studies of the structures and dynamics of molecules.

Chemistry
Design and construct a microwave unit for use in research on the chemical events associated with information transfer in the brain.

Civil Engineering and Environmental Science
Purchase instruments and equipment to evaluate wastewater sludges.
Education
Support for a research program in cognitive processing in retarded children. $6,420

Industrial Engineering
Purchase computer equipment and software to aid research in the analysis of manufacturing systems. 6,302

Meteorology
Purchase an automatic atmospheric data acquisition system. 16,750

Music
Publication of works commissioned by the OU Percussion Ensemble. 10,680

Physics/Geology and Geophysics
Purchase turbic pump system to be used in research involving the analysis of crude oils. 14,390

Physics and Astronomy
Instruments for analysis of the distribution of clusters of galaxies. 9,250

Psychology
Equipment for research in age and native language differences in cognitive processing. 10,980

Psychology
Purchase microprocessor for use in a research program concerning reliable individual differences in eyewitness memory. 7,483

College of Medicine
Regents' Professorship award to Dr. Solomon Papper. 5,000

Department of Classics
Matching funds for a National Endowment for the Humanities grant to support an International Conference on Neoplatonism and Gnosticism. 5,000

Provost Development Fund - HSC
Funds provided annually to cover small academic expenses on the Oklahoma City campus. 30,000

This was reported for information. No action was required.

AMENDMENTS TO FACULTY PERSONNEL POLICY

The ad hoc Joint Faculty Senate-Administration Committee which has been reviewing the Faculty Personnel Policy and other changes in the Health Sciences Center Faculty Handbook has proposed changes in the Faculty Personnel Policy as shown below. The words to be deleted are dashed out and new words are underlined.

These changes have the approval of the Faculty Senate and the Provost.
3.7.2 (c)

When an initial appointment is made to a position which is primarily administrative but carries with it academic rank of assistant professor or above, specific understanding should be reached at the time of offer with the individual concerned and agreed to in writing by the provost, the dean, and the academic unit as to whether the individual will be reviewed for tenure at the proper time and what conditions must be met before there is tenure eligibility-the criteria, conditions, and timing of tenure eligibility.

3.7.4 (fourth paragraph)

Each academic unit college, with the participation and approval of the dean and the provost, shall establish and publish specific criteria for evaluating faculty performance in that unit. These criteria must be in accord with and do not supersede the criteria described in this section. The criteria for tenure will be in full force unless an exception is specified in the contract.

3.7.5 Procedures for Tenure Decision

(e) All voting tenured faculty who are available shall meet for a discussion of the candidate’s qualifications for tenure. The candidate shall not be present during the discussion of his or her qualifications but shall be available to enter the meeting on invitation to answer questions or clarify circumstances relevant to the qualifications.

(h) All recommendations shall be in writing and, with exception of the faculty recommendation resulting from the secret confidential poll, reasons for the recommendation must be stated at the time recommendations are made. Each recommendation at any stage of the review process must be provided promptly to the chair and the individual candidate. It shall be the responsibility of the chair to inform the faculty member concerned about recommendations made at the various stages of the review process. Each tenure candidate currently in the faculty and his or her chair will be notified promptly by the chair, Campus Tenure Committee, dean, provost, and President of the recommendation at that stage in the review process.

3.10.1 Criteria for Promotion

Decisions to promote a faculty member must be made in light of a thorough evaluation of his or her performance in all the areas of faculty activity (Sections 3.6.1, 3.6.2, and 3.6.3).

The candidate's performance is judged by all recommending parties against the academic unit's written statement of criteria for promotion to the rank in question, the approved written assignment for the candidate, and any special conditions pertaining to the candidate's appointment (Section 3.5.1 (a)).
Each academic unit, in concert with the dean and the Provost, shall establish and publish specific criteria for promotion in that unit. These statements of criteria determine the emphasis placed on the various areas of faculty activity, subject to the following conditions: (a) Qualifications for promotion in all units should include attainment of high standards in teaching, research or creative achievement, and service. The evaluation should be substantially the same process as followed in tenure considerations (Section 3.7.4).

The candidate's performance should be measured against the following criteria:

(a) Appointment as assistant professor is usually based on an advanced degree, appropriate experience, and promise for academic accomplishment;

(b) Promotion to associate professor usually is based on a minimum of 5 years as assistant professor, strong academic performance and promise, and local and regional recognition in chosen field. Ordinarily, promotion to associate professor will precede or be concurrent with tenure consideration for a tenure-line appointee;

(c) Promotion to professor usually is based on a minimum of 5 years as associate professor and sustained strong academic accomplishment. Tenure line faculty should be regionally or nationally recognized authorities in their discipline and have major responsibilities for teaching, service, research, and/or administration for or within department or college programs.

(d) Promotion to the rank of associate professor or professor will usually be considered during the sixth year of service at the present academic rank.

(e) Service in a given rank for any number of years is not in itself a sufficient reason for promotion.

(f) Promotion should indicate that the faculty member is of comparable stature with others in the same rank and field outside the University.

Each college shall develop specific criteria for promotion in that unit with participation and approval by the dean and provost. Such criteria for promotion must be in accord with and do not supersede the criteria set forth above in this section.

3.12 Appeals and Grievances (second paragraph)

There are three appeal processes. The appropriate grievance process for faculty of alleged unjust discrimination or sexual harassment is the Committee on Discrimination (Section 3.14). The appropriate faculty appeal process for alleged violations of due process, academic freedom, or other grievances which have not been resolved administratively is the Faculty Appeals Board (Section 3.13.1). Appeals of a decision about the administrative position held by the faculty member are made to the Provost and, if unresolved, to the President (Section 3.12.1).
3.14 Alleged Discrimination (first paragraph)

The University has a policy of internal adjudication in matters relating to alleged discrimination. Any faculty member, including those on temporary or part-time appointment, who believes that he or she has been discriminated against because of race, ethnic or national origin, sex, creed, color, or age or alleges that he or she has been a victim of sexual harassment should give the University's Affirmative Action Officer a written account of the alleged act of discrimination no later than 30 calendar days after becoming aware of its occurrence. The Affirmative Action Officer shall investigate the alleged discriminatory act and attempt to effect an informal settlement between the parties involved.

5.3 Sexual Harassment (third paragraph)

Faculty, staff, or students who believe they have been subjected to sexual harassment may report such to their dean or supervisor, or the Affirmative Action Officer. All complaints will be thoroughly reviewed and, if a conclusion is reached that sexual harassment has occurred, appropriate disciplinary action will be taken. The individual may file a grievance under the appropriate discrimination grievance procedure.

President Banowsky recommended approval of the amendments to the Health Sciences Center Faculty Personnel Policy as shown above to be effective immediately.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

President Banowsky recommended approval of the personnel actions listed above.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

FACILITIES FEE

The University currently has authorization for a $15 per semester per student facilities fee on the Health Sciences Center campus. The authorization for this fee provides that a student activities facility must be available for student use before the fee may be collected. Efforts are currently underway to raise private funds for such a facility on the Health Sciences Center campus and it is the opinion of the administration that the fee authorization should be increased to $20 per student per semester.

President Banowsky recommended the Oklahoma State Regents for Higher Education be requested to increase the facilities fee at the Health Sciences Center from $15 to $20 per student per semester with the understanding the fee would not be levied until the student facility is constructed and available for student use at the Health Sciences Center.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

CONTRACT WITH TULSA MEDICAL EDUCATION FOUNDATION

Effective July 1, 1983 the Department of Human Services was authorized by the Legislature (Senate Bill 46, Section 20) to expend certain State funds during this fiscal year for the purpose of expanding comprehensive outpatient medical and social services to low income families and other low income persons. The Department of Human Services determined that $500,000 of the amount to be expended through this fiscal year should be made immediately available in the greater Tulsa area. The Department of Human Services has asked the Tulsa Medical Education Foundation to administer and to monitor the use of these funds.
They hope to achieve the maximum beneficial impact on the medical and social needs of low income families and generally raise the level of health care services available in the greater Tulsa area.

The Tulsa Medical Education Foundation and DHS have agreed that these funds will be utilized through agencies with which TMEF will contract. Since the Tulsa Medical College could effectively utilize these funds immediately, TMEF and DHS have contacted the University about expanding comprehensive outpatient medical and social services available in the Tulsa Medical College outpatient clinics in order to provide these services.

University administrators and TMEF have negotiated a contract covering these services for the period September 1, 1983 through June 30, 1984. The contract includes the following agreements:

1. Immediate expansion of and enhanced accessibility to the outpatient medical and social services available to low income families and other medically indigent persons in the community. In this regard, TMC shall propose the enlargement of the services available to patients in the TMC Obstetrics and Gynecology Clinic and in such other TMC outpatient clinics and patient care functions as are deemed appropriate by TMEF so as to serve more low income patients and to reduce the number of walk-in patients entering local hospitals.

2. Development of and expansion of comprehensive outpatient medical and social services for improved maternal, child and infant care in the ambulatory setting in the Tulsa area. This item would include the development of coordinated health education programs for low income families and other low income persons under the sponsorship of the TMC patient education center.

3. TMC may propose additional support and funding for other programs which provide (a) direct outpatient services for low income families and other low income persons; and (b) direct services for the enhancement of a broader spectrum of ambulatory care such as home visits, transportation to outpatient clinics, and social services.

4. TMEF will approve in advance of initiation only those items which will demonstrably achieve the dual objectives of expanding outpatient medical and social services available to low income families and other low income persons and of raising the level of available health care in the greater Tulsa area in the ambulatory setting.

5. Eligibility for the provision of outpatient medical and social services by TMC to low income families and other low income persons under the contract will be based on criteria to be established and approved by TMEF in consultation with TMC. The eligibility criteria to be established shall emphasize the provision of expanded services to low income families and other low income persons as mandated by the Oklahoma Legislature in Senate Bill No. 46, Section 20.
6. In order to fulfill the mandate of DHS, TMEF intends that the funds disbursed to TMC shall be closely monitored and that the funds be utilized only for those activities which demonstrably achieve an expansion of outpatient medical and social services for low-income families and other medically indigent persons. Accordingly, TMC shall report in writing to TMEF on a monthly basis the uses and purposes for which the funds disbursed are made and the extent to which the accessibility and availability to services has been demonstrably enlarged. TMC will provide such other and further reports and information as may be reasonably requested by TMEF from time to time.

7. In the event funding by DHS for these expanded services is discontinued or is inadequate, TMC will be relieved of its obligations under the terms and conditions of this contract.

President Banowsky recommended approval of entering into a contract with TMEF as described above for the period September 1, 1983 through June 30, 1984.

Regent Rothbaum moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

PROPOSAL, CONTRACT, AND GRANT REPORT

A summary of proposals for contracts and grants for the Health Sciences Center, including the Tulsa Medical College branch, for September, 1983 was included in the agenda for this meeting. A list of all contracts executed during the same period of time on proposals previously reported was also included.

President Banowsky recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts depending on these negotiations.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

PHARMACY BUILDING

Yordi Construction, Inc. has completed the College of Pharmacy Building. In accordance with the terms of the construction contract, representatives of the Architectural Design Group, the project architects; Yordi Construction, Inc., the general contractor; and the University of Oklahoma have completed a final inspection of the Pharmacy Building project. The construction cost of this project was $6,363,927. A punch list of incomplete items was provided to the contractor. The staff of Architectural
and Engineering Services has reviewed the results of the inspection and recommends that the project be accepted subject to the completion of all punch list items.

President Banowsky recommended that the Board of Regents accept as substantially complete effective July 25, 1983 and authorize final payment to the contractor for work on the College of Pharmacy Building subject to the completion of all punch list items.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

REPORT ON MAJOR CAPITAL IMPROVEMENT PROJECTS

As shown on the following page, a report was presented to the Regents on major capital improvement projects now under construction and in various stages of planning on the Health Sciences Center campus. No action was required.

The student leadership was present at the Regents' Committee Meeting on Wednesday and additional information was presented on each item of appropriation.

President Banowsky recommended approval of the lump-sum UOSA appropriations for 1983-84 as shown above.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaur, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.
PURCHASE OF AIRCRAFT

The University has had three aircraft under a rental program from Piper Aircraft Corporation since July of 1980. The aircraft are used by the Aviation Department to conduct flight instruction for students.

The annual rental for the three aircraft is $20,508. In an effort to reduce the cost of the Aviation instructional program and to obtain equity from past rental payments, negotiations are being conducted to purchase the aircraft and terminate the rental agreement. The purchase price target for the three aircraft is $40,000 compared with a new purchase price in 1980 of approximately $86,500.

The purchase would result in immediate savings to the Aviation Department through a significant decrease in the cost of aviation instruction. The cost of purchase would be charged to the Aviation Flight Department Account 179-169.

President Banowsky recommended the Board of Regents approve a purchase in the approximate amount of $40,000 for three aircraft from Piper Aircraft Corporation.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

PURCHASE AND FINANCING OF DIFFRACTOMETER SYSTEM

Bids were recently circulated to furnish and install an automated horizontal X-Ray Diffractometer System for the School of Geology and Geophysics. A separate bid was also circulated to finance the purchase of the system over a five-year period.

This instrument will be installed in the Texaco, Inc. X-Ray Laboratory in the School of Geology and Geophysics and will be used in combination with a Rigaku X-Ray fluorescence unit and data acquisition computer purchased in 1982 to provide a comprehensive "state-of-the-art" analytical facility for teaching and research.

The cost of the purchase will be financed by a five-year Third Party Lease/Purchase Agreement. The payments under the Lease/Purchase Agreement will be funded by a five-year donation program of $40,000 per year from Texaco through the University Foundation.

The following bids were received on the Diffractometer System:

Rigaku, USA
Danvers, Massachusetts
$126,205.00
The bid from Rigaku, USA includes educational and research discounts and is acceptable to the Director of the School of Geology and Geophysics.

The bid of Municipal Leasing Corporation is in accordance with the conditions and specifications and is acceptable to the Director of the School of Geology and Geophysics.

President Banowsky recommended that the Board of Regents approve the award of purchase orders:

1. To Rigaku, USA in the amount of $126,205.00 for the automated horizontal X-Ray Diffractometer System, and

2. To Municipal Leasing Corporation for a five-year Lease/Purchase Agreement with payments of $30,786.00 per year making a total payment of $153,930.00.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

PROPOSAL, CONTRACT, AND GRANT REPORT

A summary of proposals for contracts and grants for the Norman Campus for September, 1983 was included in the agenda for this meeting. A list of all contracts executed during the same period of time on proposals previously reported was also included.
President Banowsky recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts depending on these negotiations.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

MAINTENANCE TECHNICAL SUPPORT CENTER

On Monday, October 3, interviews were conducted to consider the qualifications of five architectural firms that had indicated an interest in providing the professional architectural services required for the renovation and addition to the Postal Service Maintenance Technical Support Center. The preliminary review process and the interviews were conducted in accord with the provisions of the State law and policies of the Board of Regents. The following qualifications of each firm were considered:

1. Professional reputation
2. Experience with this type of project
3. Available professional staff
4. Scope of services offered
5. Amount of work in progress
6. Other University projects completed
7. Financial standing and stability
8. Size of firm
9. Amount of State work completed
10. Location of firm

The interview group obtained information from the consultants, the files of the State Board of Public Affairs and other sources. Selected facts about each firm are included in the following summary of basic information on architectural firms considered for this renovation and addition project:

The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

**UTILITY EASEMENTS**

Southwestern Bell Telephone Company has requested two easements for underground facilities for telephone installations along the north sides of Imhoff Road and Timberdell Road between Jenkins Avenue and Chautauqua Avenue. The legal descriptions are as follows:

One foot (1) North and nine feet (9) South each side of a certain telephone cable as now installed on the North side of Timberdell Road between Jenkins Avenue and Chautauqua Avenue in the South half of the South half
of the Northeast Quarter (S/2 S/2 NE/4) of Section 6, Township 8 north, Range 2 West, except: beginning at the Southwest Corner of the Northeast Quarter, thence East 800 feet; thence North 293½ feet; thence West 800 feet; thence South 293½ feet to the Point of Beginning.

Immediately North of the sidewalk and any extension thereof along the North side of Imhoff Road between Jenkins Avenue and Chautauqua Avenue as now located in the South half of the South half of the Southeast Quarter (S/2 S/2 SE/4) of Section 6, Township 8 North, Range 2 West.

These easements are consistent with easements we have provided in the past and will not interfere with the planned operations of the University.

President Banowsky recommended approval of the easements as described above requested by Southwestern Bell Telephone Company.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

ACCEPTANCE OF PROJECTS

A final inspection of the reconstruction of Runway 17-35 and the south taxiway parallel to Runway 03-21 at Max Westheimer Field was held September 2 by representatives of T. J. Campbell Construction Company, Inc., the contractor; C. H. Geurnsey and Company, Inc., the project engineer; and the University of Oklahoma. This is the second major airport reconstruction project to be completed this year.

With the exception of punch list items, the work is complete. The project includes: (1) the reconstruction of Runway 17-35, (2) reconstruction of the south taxiway parallel to Runway 03-21, (3) drainage improvements, and (4) runway and taxiway markings. The total project budget is $700,000. This project was accomplished using funds from a Department of Transportation grant of $630,000 and $70,000 from airport accounts.

Connelly Paving Company, Incorporated has completed work on the Jenkins Avenue Parking Facility. The project provides 227 new parking spaces. A final inspection of the new facility was held on September 15 by representatives of Connelly Paving Company, Incorporated, the contractor; Lawrence, Lawrence and Flesher, the project architects; and the Physical Plant and Architectural and Engineering Services for the University. A combined punch list of incomplete items was provided to the contractor.
President Banowsky recommended that the Board of Regents:

1. Accept the Max Westheimer Field Runway and Taxiway Improvements, Phase III project substantially complete and authorize final payment to T. J. Campbell Construction Company, Inc. upon completion of all remaining punch list items, subject to FAA approval.

2. Accept the Jenkins Avenue Parking Facility as substantially complete as of September 15, 1983 and authorize final payment to Connelly Paving Company, Incorporated upon completion of all punch list items.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, Kemp, and Sarratt. The Chair declared the motion unanimously approved.

REPORT ON MAJOR CAPITAL IMPROVEMENT PROJECTS

As shown on the following pages, a report was presented to the Regents on major capital improvement projects now under construction and in various stages of planning on the Norman Campus. No action was required.

There being no further business, Regent White adjourned the meeting at 9:52 a.m.
