MINUTES OF A REGULAR MEETING
THE UNIVERSITY OF OKLAHOMA BOARD OF REGENTS
FEBRUARY 9, 1984

A regular meeting of the Board of Regents of The University of Oklahoma was held in the auditorium of the Health Sciences Library Building on the Oklahoma City Campus of the University on Thursday, February 9, 1984 beginning at 10:20 a.m.

Notice of the time, date, and place of this meeting was submitted to the Secretary of State as required by Enrolled House Bill 1416 (1977 Oklahoma Legislature).

The following Regents were present: Regent Ronald H. White, M.D., President of the Board, presiding; Regents Dan Little, Julian J. Rothbaum, Tom McCurdy, John M. Imel, and Thomas Elwood Kemp.

Absent: Regent Charles F. Sarratt.

The following also were present: Dr. William S. Banowsky, President of the University, Provosts J. R. Morris and Clayton Rich, Vice Presidents Anona L. Adair, David A. Burr, Arthur J. Elbert, and R. Gerald Turner, and Barbara H. Tuttle, Executive Secretary of the Board of Regents. Other executive officers present were Mr. Stanley M. Ward, General Jay T. Edwards, Mr. Larry C. Brawner, and Mr. Gary L. Smith.

The minutes of the meeting held on January 12, 1984 were approved as printed and distributed prior to the meeting on motion by Regent Little and with the following affirmative vote: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

I. The University

INVESTMENTS

The Regents' investment policy provides that short-term investments may be made by the University Trust Officer following approval by the President of the University. The following investment transactions have taken place during the past month:

On January 9, a $100,000.00 Certificate of Deposit matured at the American Exchange Bank of Norman. This C.D. was reinvested at American Exchange Bank at 10% to mature July 9, 1984.

On January 13, a $342,772.10 Certificate of Deposit matured at City National Bank of Norman. $100,000.00 of this C.D. was renewed at City National at 9.75% to mature July 11, 1984. After reimbursing the OU Foundation $100,000.00
for advance funding on the Library addition, the balance was invested in U.S. Treasury Bills, $155,000.00 par value to yield 9.32598% and to mature on June 28, 1984, costing $149,164.96.

In addition, the following U.S. Treasury Bills matured on February 2 and have been reinvested in Treasury Bills:

- $112,757.50 par value
- 109,657.00 par value
- 42,585.50 par value

President Banowsky recommended confirmation of the above investment transactions.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

PROFESSIONAL PRACTICE PLAN - PUBLIC HEALTH

The faculty of the College of Public Health have proposed a revision to the current Professional Practice Plan of the College. The proposed plan is as follows:

The College of Public Health Professional Practice Plan covers all external professional service activities, whether remunerated or not.

1. External professional service activity is not required of faculty. However, conformance with this practice plan is mandatory as a condition of employment of all faculty except unpaid faculty, if such activities are conducted.

2. External professional service activities covered by this practice plan may be engaged in up to one day each working week, only as authorized by the departmental chair and approved by the dean. Such time may be averaged over the course of an academic year, but not accumulated from year to year.

3. It is the responsibility of the faculty member, chair and dean to ensure that such external professional service activities do not interfere with the quality or amount of assigned University activities, including teaching, research and University service activities such as committee assignments and academic unit administration, and do not constitute a conflict of interest with University responsibilities. In order to determine the latter, the chair and dean must be informed of the nature of the consulting activity and source of any income. If necessary, external professional service activities should be restricted in order not to interfere with primary University responsibilities.

4. It is desirable to have outside consulting activities relate to and improve or supplement University programs or develop and improve on faculty expertise. This occurs from service on state and national councils in the faculty member's professional field, when such activity provides
new professionally-related insight or experience, or when a consulting activity provides opportunities for or supports graduate student work.

5. The amount of time devoted to consulting and external professional activities covered by this practice plan, whether remunerated or not, is controlled by this policy. In those cases where such activities are remunerated, the remuneration is considered outside income and is not reported to, controlled or limited by the University.

6. When such activities are remunerated, the University should not bear any expense, including travel. When University resources have been involved, these must be reimbursed, including overhead as determined by the University.

The revised plan has been approved by the Dean of the College and by the Provost. The plan was reviewed by the Health Sciences Center Committee of the Board.

President Banowsky recommended approval of the revised College of Public Health Professional Practice Plan with the revised plan to be effective immediately.

Regent Rothbaum moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

PROPOSAL, CONTRACT, AND GRANT REPORT

A summary of proposals for contracts and grants for the Health Sciences Center, including the Tulsa Medical College branch, for January, 1984 was included in the agenda for this meeting. A list of all contracts executed during the same period of time on proposals previously reported was also included.

President Banowsky recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts depending on these negotiations.

Regent Little moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.
REPORT ON MAJOR CAPITAL IMPROVEMENT PROJECTS

As shown on the following page, a report was presented to the Regents on major capital improvement projects now under construction and in various stages of planning on the Oklahoma City Campus. No action was required.

George B. Fraser, David Ross Boyd Professor of Law and Alfred P. Murrah Professor of Law, June 1, 1984; named David Ross Boyd Professor Emeritus of Law.

President Banowsky recommended approval of the personnel actions listed above.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

President Banowsky reported the death of the following faculty members:

FURLOUGH IMPLEMENTATION PLAN - FACULTY RESPONSE

At the January meeting a furlough implementation plan was adopted with an indication that the matter would be discussed again at the February meeting and that the Faculty Senates would have the opportunity to respond to the plan.

This matter was discussed at the regular session of the Norman Campus Faculty Senate on January 16 and again at a special session on January 30.
February 9, 1984

At the special session the Senate adopted the following resolution:

The faculty on the Norman campus is aware of and understands the underlying reasons for the Regents' policy requiring faculty furloughs on days other than class days.

The policy is especially difficult for faculty members who either teach five days per week, have night classes, or teach weekend classes.

The Regents' policy is further complicated by the recent passage of a resolution by the Oklahoma House of Representatives that specifically "instructs all state agencies not to require furloughed state employees to work on days on which they are furloughed."

The Faculty Senate (Norman campus), therefore, would like to express its disappointment that the wishes of the majority of faculty members were ignored in setting a policy that has become a major issue.

Furthermore, we urge that no further financial problems be solved either by reductions in faculty salaries (other than the furlough days already approved) or by any other move that would further damage and erode both the teaching and the research and creative activity functions on the Norman campus. Salary reductions incurred should be restored as soon as possible from cuts in other areas of the University operations.

This was reported for information only. No action was required.

President Banowsky said the Norman Campus Faculty Senate has been in touch with the appropriate faculty bodies and has indicated in writing to him that they do not wish to appear today or to add anything to the resolution.

On behalf of the Board of Regents, Regent White expressed appreciation for the problems the faculty members have had because of the budget reductions. He said the Board appreciates, too, the cooperation they have had from both the Norman and the Oklahoma City faculties throughout this difficult time.

COLLEGE OF GEOSCIENCES

The College of Geosciences was established in 1981 following the appropriate approvals of the concept and structure of the College with the details concerning academic programs, admission requirements, and other details to be worked out.

The details concerning the undergraduate programs have now been completed. They have the approval of the faculties and the deans involved as well as the Academic Program Council and the Provost.
The following new degree programs have been proposed for the College of Geosciences:

1. **Bachelor of Arts in Geography.** The Bachelor of Arts in Geography in the College of Geosciences is designed to prepare students for professional careers or to lay the foundation for postgraduate work in professional colleges or in geography or related disciplines. It differs from the B.A. in Geography in the College of Arts and Sciences in that it provides a stronger foundation in the sciences and mathematics which is essential for those students who desire to combine an interest in the social sciences with the Geosciences disciplines. The Arts and Sciences degree, by contrast, serves those students with a more traditional interest in a liberal education and is designed to fulfill more humanistic goals. Graduates holding this degree should be prepared to pursue a variety of careers that require expertise in the social science aspects of natural resource and environmental problems. The program is designed to prepare students for further academic work in economic and resource geography, further professional training in regional and city planning, public administration, law, and environmental management and career opportunities in business, industry and state and local government. Among the many professional specialties encompassed by the program are water resources management, regional economic development, environmental policy analysis and natural resources planning and administration.

2. **Bachelor of Science in Geography.** One of geography's underlying bases encompasses science and mathematics. The proposed curriculum for the Bachelor of Science in Geography addresses the quantitative aspects of the physical and earth sciences related programs in geography. The complex problems which face society cannot be solved within a single discipline. Geography draws unique opportunities and problem solving in that it involves several disciplines which can work together using the scientific base thus looking at problems quantitatively rather than qualitatively.

3. **Bachelor of Science in Geosciences.** The Bachelor of Science in Geosciences degree fulfills an important function within the College in that it offers an undergraduate curriculum without field and designation. Students may use the flexibility of the B.S. in Geosciences degree curriculum to pursue educational objectives that combine major elements of two or more
of the existing degree curricula. Alternately they may utilize this flexibility to create new educational programs that provide a base in emerging new areas such as remote sensing, geothermal energy, applied climatology, and conservation. This flexible curriculum may also be used by students to construct combined programs leading to joint degrees awarded by Geosciences and other OU colleges. This degree program also may be used by students who wish to pursue a general geoscience education while at the same time preparing themselves for postgraduate study in other fields such as business law or graduate study in the earth and physical sciences.

All of these new degree programs can be implemented with current faculty and without additional academic space or equipment.

The following degree programs will be transferred to the College of Geosciences:

1. B.S. in Meteorology degree from the College of Engineering
2. B.S. in Geology degree from the College of Arts and Sciences
3. B.S. in Geophysics degree from the College of Arts and Sciences

The following degree programs are to be phased out:

1. B.S. in Meteorology degree in the College of Arts and Sciences
2. B.S. degree with a major in Geology in the College of Arts and Sciences

The following admission requirements for the College of Geosciences are proposed:

1. Completion of a minimum of 26 hours of college credit which must include English 1113 and 1213, Mathematics 1812 and 1823, Chemistry 1315, and one course from either Geology 1114, Geography 1114, or Meteorology 1004. Bachelor of Arts students may substitute Math 1743 for Math 1812 and 1823. Bachelor of Arts in Geography students may substitute Physics 2414 or 2514 for Chemistry 1315.

2. Obtain a grade of C or better in each of the above-listed courses and earn a grade average of 2.00 or better (2.25 for admission into geology or geophysics programs) on all College level work attempted.
February 9, 1984

3. Submit scores of the ACT tests or of similar acceptable test battery.

President Banowsky recommended:

1. Approval of the new degree programs listed above.

2. Approval to phase out the degree programs indicated above.

3. Approval of the admission requirements for the College of Geosciences.

Regent Little moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

ADMINISTRATIVE AND PROFESSIONAL PERSONNEL ACTIONS

APPOINTMENTS:

*Bill C. Brackett, reappointed Program Development Specialist, Public Responsibility and Community Affairs and Human Service Programs, rate of $29,272 for 12 months, January 1, 1984 through June 30, 1984. 90% of salary from grant funds. Professional Staff.

Barbara Lynn Rizzuti, Assistant Director, Student Affairs Research, Student Affairs, January 28, 1984.

Gae V. Thompson, Manager, Auxiliary Accounting Systems, November 10, 1983.

President Banowsky recommended approval of the personnel actions listed above.

Regent Little moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

*Paid from grant funds; subject to the availability of funds.
FOOTBALL COACHING STAFF

The end of the football season is the usual time for review of the terms of employment of the football coaching staff with the recommended salaries to be effective on February 1.

Athletic Department funds are not State-appropriated funds. However, because of the hiring and salary freeze now in effect within the University, President Banowsky recommended that salary increases not be granted to members of the football coaching staff at this time, but that they be retained in their present positions and at their present salaries for the next year, effective February 1. Those affected are:

- Mervin L. Johnson
- Galen S. Hall
- Gary L. Gibbs
- Robert E. Proctor
- Rex D. Norris
- Lucious Selmon
- L. Scott Hill
- Mike Jones
- Charles North
- Pete Martinelli

President Banowsky also recommended that the following be approved regarding Coach Barry Switzer's salary and letter of intent:

1. Annual salary - $56,000 (no increase).
2. Annual expense allowance of $4,000 (no increase).
3. Continuation of Coach Switzer as head football coach on the five-year commitment to him begun on February 1, 1983.
4. An annual review with regard to salary and the other terms of his letter of intent.

Regent Rothbaum moved approval of the recommendations. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, and Kemp. Regent Imel abstained. The Chair declared the motion approved.

PROPOSAL, CONTRACT, AND GRANT REPORT

A summary of proposals for contracts and grants for the Norman Campus for January, 1984 was included in the agenda for this meeting. A list of all contracts executed during the same period of time on proposals previously reported was also included.
February 9, 1984

President Banowsky recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts depending on these negotiations.

Regent Little moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

NORMAN CAMPUS AUDITOR FOR 1983-84

Price Waterhouse has submitted a proposal to audit the accounts and express an opinion on the financial statements of the Norman Campus of the University for the year ended June 30, 1984.

The fee proposed by Price Waterhouse for the audit of the Norman Campus is identical to the 1983 fee; that is, $30,250.00 including out-of-pocket expenses.

President Banowsky recommended that Price Waterhouse be appointed to perform the audit for the Norman Campus of the University for the year ended June 30, 1984, at the fee specified.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

AIR CONDITIONING EQUIPMENT

A fire on January 23, 1984 in a laundry and mechanical building at Yorkshire Apartments severely damaged the air conditioning equipment which provides cooling to 121 apartment units. The purchase of a new packaged air cooled liquid chiller is necessary to replace the damaged equipment and provide more economical air conditioning to these apartment units. To allow the installation of the new equipment to be completed by the beginning of the cooling season, it will be necessary to order the equipment as soon as possible after the bids have been received in late February. The Board of Regents are therefore requested to authorize the President to award a bid to the lowest responsible bidder for the purchase of a 155.5 ton packaged air cooled chiller at an approximate cost of $52,000. The purchase of the replacement equipment will be funded from insurance proceeds and Yorkshire Maintenance funds.

President Banowsky recommended that the President of the University or his designee be authorized to award a bid to the lowest responsible bidder for a 155.5 ton packaged air cooled liquid chiller at an approximate cost of $52,000.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.
PURCHASE OF ENVIRONMENTAL CONTROL EQUIPMENT

A single bid was received from Computer Conditioning Corporation, representing the Liebert Corporation, to provide environmental coolant and control equipment for rare books areas in Bizzell Memorial Library. This equipment will provide controlled temperature and humidity in the vault and Room 528 of the rare book areas and will be monitored by the existing campus JC-80/55 automated monitoring system.

Liebert Corporation submitted a bid of $38,976.00. Funding for this purchase will be allocated from previously approved Section 13 equipment funds.

A single bid for the Liebert equipment was solicited because it is the only known system available that provides two complete 100% capacity chillers within the same frame with each having its independent electrical power panel, coolant supply network and refrigeration system.

President Banowsky recommended that the Board of Regents approve the award of a purchase order to the Liebert Corporation, c/o Computer Conditioning Corporation, in the amount of $38,976.00 for the purchase of environmental coolant and control equipment to be installed in the rare books areas of Bizzell Memorial Library.

Regent Little moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

PURCHASE OF FOOD PRODUCTS

The following purchase order was awarded for the period of January 10, 1984 through December 21, 1984 for donuts and sweet rolls for the University Food Service Department. This award was made in keeping with the University fiscal management policy which authorizes the President of the University to approve awards for amounts over $35,000 for items which are for resale.

FURNITURE REPLACEMENT - SOONER HOUSE

In June, 1982, the Board of Regents approved a project to begin replacing the furnishings in Sooner House at the Oklahoma Center for Continuing Education. Sooner House is over 21 years old and the furnishings are badly in need of replacement.
This project will be funded from Sooner House Operating funds and Revenue Bond System reserves which have been set aside for this purpose and which may only be used for System improvements.

The following bids were received:

*These two bidders did not bid on Items #7 and #8 which totalled approximately $1,100.00. They were both higher for Items #1 through #6 than the Scott-Rice bid for Items #1 through #6 of $44,866.00
President Banowsky recommended the Board of Regents approve the award of purchase orders to Norman Architectural Millwork for the case goods and millwork in the amount of $124,608.00 and to Scott-Rice for the furniture in the amount of $45,975.52.

Regent Imel moved approval of the recommendation. The following voted yes on the motion: Regents White, Little, Rothbaum, McCurdy, Imel, and Kemp. The Chair declared the motion unanimously approved.

REPORT ON MAJOR CAPITAL IMPROVEMENT PROJECTS

As shown on the following pages, a report was presented to the Regents on major capital improvement projects now under construction and in various stages of planning on the Norman Campus. No action was required.

There being no further business, the meeting adjourned at 10:35 a.m.
