A regular meeting of the Board of Regents of The University of Oklahoma was held in the Board Room of the OU Foundation Building on the Norman Campus on Thursday, February 14, 1985, beginning at 9:30 a.m.

Notice of the time, date, and place of this meeting was submitted to the Secretary of State as required by Enrolled House Bill 1416 (1977 Oklahoma Legislature).

The following Regents were present: Regent Dan Little, Chairman of the Board, presiding; Regents Julian J. Rothbaum, Tom McCurdy, John M. Imel, Thomas Elwood Kemp, Charles F. Sarratt, and Ronald H. White, M.D.

The following also were present: Dr. Martin C. Jischke, Interim President, Senior Vice President and Provost J. R. Morris, Provost Clayton Rich, Vice Presidents David A. Burr, Anona L. Adair, and Arthur J. Elbert, and Barbara H. Tuttle, Executive Secretary of the Board of Regents. Other executive officers present were Mr. Ron D. Burton, Mr. Walter O. Mason, Mr. Gary L. Smith, and Mr. Stanley M. Ward.

The minutes of the regular meeting held on January 17, 1985 and the special meetings held on January 26 and February 3, 1985 were approved as printed and distributed prior to the meeting on motion by Regent Rothbaum and with the following affirmative vote: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

I. The University

INVESTMENTS

J. & W. Seligman & Co. recommended the sale of the following issues in the Regents' Endowments that represent very small and insignificant holdings:

110 shares of Alamito Company
35 shares of American Ecology Corporation
310 shares of OG&E

The Alamito Company stock represents a spin-off of Tucson Electric. We received one share of Alamito for every ten shares of Tucson Electric in the portfolio on December 31, 1984. The American Ecology Corporation stock represents a spin-off of Teledyne Inc. We received one share of American Ecology Corporation
for every 7 shares of Teledyne owned on May 8, 1984. The 310 shares of OG&E represent stock that was given over the years and just added to the consolidated investment fund portfolio.

On January 24 two issues of U.S. Treasury Bills matured, one in the amount of $290,000 par value and one in the amount of $1,045,000 par value. In order to provide a fair yield and still allow maximum flexibility with these funds, the money was reinvested in 90 to 180 day Treasury Bills.

These investment changes were approved by the University Trust Officer and the Interim President.

Interim President Jischke recommended confirmation of the above investment transactions.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

MILEAGE REIMBURSEMENT RATE

At the December meeting, the Board approved the President's recommendation to reduce the University's mileage reimbursement rate from 22 cents to 20.5 cents per mile or that allowed by the Internal Revenue Service. This action resulted from new Internal Revenue Service regulations which placed an undue reporting burden as well as additional costs on both the University and its employees. It was noted, however, that should the IRS revise their regulations to remove costly reporting requirements, the University will go back to the rate specified in the State Travel Reimbursement Act.

In January, the IRS did modify the regulations resulting in a removal of some of the reporting requirements. In addition, the State Finance Office issued an opinion that the 22 cents per mile specified in the Oklahoma Statutes did not provide for authorization to reimburse at a rate less than or more than the specified rate of 22 cents.

Based upon these factors, the University administration believes it desirable to go back to the mileage reimbursement rate of 22 cents per mile.

Interim President Jischke recommended the University's mileage reimbursement rate be increased from 20.5 cents per mile to 22 cents per mile or that specified in the State Travel Reimbursement Statute.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.
GROUP HEALTH INSURANCE

In December, 1984, the University's group health insurance contract with Blue Cross and Blue Shield of Oklahoma (BC/BS) was extended for three months to April 1, 1985. The time was needed to permit the University's Employment Benefits Committee to develop a new approach for packaging and funding health insurance benefits. Their work is completed and their recommendations are the basis for this proposal.

The Employment Benefits Committee developed the approach with several objectives in mind: (1) insure high quality health care for insureds; (2) assure open access to physicians of choice; (3) reduce the 16.37% across-the-board premium increase required for all categories of insureds to continue the current program into 1985; (4) put in place mechanisms for the University to effectively control health care costs in the future; (5) minimize the impact of increased premium requirements on faculty/staff members for coverage of their families; and (6) provide an optional high benefits option for those wishing to pay additional premiums in order to have lower deductibles and co-insurance features.

There are two options in the plan: (1) a high benefit insurance option; and (2) a standard insurance option utilizing three distinct health care delivery systems. Important features of the options include:

HIGH BENEFIT OPTION

1. It will be fully insured by BC/BS.

2. The contract will be a contingent premium one. This means that should paid premiums exceed the fixed administrative charge (5% of premiums) plus incurred claims, the difference will be refunded to the University up to a maximum refund equal to 10% of total premiums.

3. Benefits will be substantially higher than the current program and will require a substantially higher premium. Employees electing this option will pay the difference between the high benefit option premium and the amount the University pays for the standard option premium by payroll deduction.

4. This option will not be available unless at least 10% of eligible employees enroll in it. It will be limited to active employees.

STANDARD OPTION

1. It will be a self-funded program administered by BC/BS.

2. The contract will provide administrative services and stop-loss insurance at a cost of $5 per month per insured unit (family).
3. Stop-loss insurance is set at an unusually low attachment point of 102% of projected incurred claims.

4. The administrative fee is being charged in full to the employee's premium, paid by the University, in order to minimize the premium increases for coverage of faculty/staff dependents. This will provide welcome relief to University employees.

5. Projected premiums will underfund the projected incurred claims liability by 3% of our maximum incurred claims liability, which is protected by a stop-loss attachment point of 102% of projected incurred claims, by 5%. This is not considered a significant risk because: (a) we expect a refund equal to 1% to 3% of next year's premiums from favorable 1984 experience which will be applied toward future liability; (b) projected incurred claims anticipate a 15% inflationary factor which will more than likely be overstated; and (c) a normal lag of 2½ months occurs between incurring and claiming health care costs giving us a cash flow cushion at end of year of about 20% of annual premiums with which to meet current claims liability. We can recoup any deficit that might occur by adjusting the 1986 premium rates proportionately.

6. Three delivery systems make up this option. Insureds may enter any of the three systems throughout the year. Their decisions will be based on where they prefer to receive health care and the level of benefits they will receive. Premium rates are the same for all delivery systems. Briefly described, the three delivery systems consist of the following:

   a. A delivery system made up of any licensed hospital and licensed health care practitioners. Since cost controls are virtually nonexistent in this system, benefits are lowest for persons accessing it.

   b. The Prudent Purchaser Option (a preferred provider organization) network organized by BC/BS in the Oklahoma City and Tulsa metropolitan areas (including Norman). Hospitals and physicians in this network are subject to discounts and maximum fee restrictions resulting in health care savings to users. Accordingly, persons accessing this delivery system will enjoy higher benefits than the system described in a. above.

   c. A delivery system comprised of physicians and other health care professionals on the faculty/staff of the University of Oklahoma using facilities owned by or available to the University for the purpose of providing health care. This system requires a 10% discount on hospital charges and a 25% discount on physicians' fees over the rates agreed to for membership in the BC/BS Prudent Purchaser Option. Achievement of these cost containment features will result in an excellent set of benefits for insured accessing this delivery system.
A table summarizing the major features of the high benefit and standard insurance options was presented to the Regents and is attached to these minutes as Exhibit A.

The University will continue PruCare, a health maintenance organization, which has been offered to faculty/staff as an option for several years. PruCare is a subsidiary of Prudential Life Insurance Company. The University has no control over their benefits structure or premium rates. However, the University will contribute to this plan the same premium it would contribute towards the standard plan above.

Interim President Jischke recommended approval of the program described to be effective April 1, 1985, through December 31, 1985.

At the suggestion of Interim President Jischke, Regent Little recognized Beth Garrett, Chair of Student Congress. Ms. Garrett reminded the Regents of the discussion at the Committee Meeting on Wednesday at which time the following Resolution was distributed to the Regents:

Title: A RESOLUTION CONCERNING GODDARD HEALTH CENTER

WHEREAS: Increasing the number of people using Goddard Health Center will make the center more effective and cost-efficient; and

WHEREAS: Increasing the base served by Goddard will avert future increases in the student health fee and potentially decrease the cost of health services at the university; and

WHEREAS: Utilization of Goddard Health Center as an option in the Faculty/Staff insurance plan would allow the university to divert funds to other programs of the university in these times of budget stringencies; and

WHEREAS: Goddard Health Center was built with student funds, was intended as a student health center, and has served students exclusively for over ten years; and
WHEREAS: Students must remain the primary focus of Goddard Health Center due to their aggregate numbers compared to the potential number of Faculty/Staff users.

LET IT THEREFORE BE RESOLVED THAT:

Section 1: The University of Oklahoma Student Association Student Congress supports the proposed expansion of the base served by Goddard Health Center to include Faculty/Staff.

Section 2: The UOSA Student Congress strongly urges that student spouses and dependents be allowed to use the services at Goddard at the same time Faculty/Staff are offered the Goddard option in their insurance plan. Services should be provided for student families at the same fee-for-service as that charged to Faculty/Staff.

Section 3: Before the insurance contract is renewed on January 1, 1986, a thorough evaluation of Goddard's services and the effect of the inclusion of Faculty/Staff in its base should be conducted. Student involvement and input must be sought early in the evaluation process.

Section 4: The fee-for-service charged to the faculty/staff should be allocated as follows:

A. $6.25 should be allocated to maintenance the Goddard bond issue.

B. The rest of the fee-for-service should be distributed according to the scheme utilized for student funds in order to cover all expense areas of Goddard Health Center.

Section 5: Provisions shall be made to insure that no Faculty/Staff member receives preferential treatment to any student user of Goddard.

Section 6: The voting membership of the Goddard Health Center Administrative Review Board shall not be altered.

Author of the bill: Blaine Wesner

Submitted on a motion by: Blaine Wesner

Action taken by Congress: Passed by consent this 12th day of February, 1985.

Verified by Chair of Congress: /s/ Elizabeth H. Garrett Date 2/13/85

Ms. Garrett asked that this Resolution be included as a part of the permanent record.
Regent McCurdy moved that the Resolution be included as a part of the record. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

Regent White moved approval of Interim President Jischke's recommendations regarding the Group Health Insurance Program. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

AUDITOR

An item had been included on the agenda regarding the appointment of an auditor for the Health Sciences Center for 1984-85. Regent Little said there would be no action on this item in view of the discussion at the Committee Meeting on Wednesday, at which time it was determined that proposals would be solicited for providing these auditing services.

RESOLUTION - TEACHING HOSPITALS

Regent Little read the following resolution:

WHEREAS, the Oklahoma Teaching Hospitals are essential to The University of Oklahoma College of Medicine in the training of medical students, young physicians and other health professional students; and

WHEREAS, proposals have been made to again transfer the supervision, management and control of the Oklahoma Teaching Hospitals; and

WHEREAS, such a transfer could be very disruptive and detrimental to the academic missions of The University of Oklahoma College of Medicine; and

WHEREAS, the Honorable George Nigh, Chief Executive of the State of Oklahoma, has expressed a position that such a move should not be considered for at least one year;

NOW THEREFORE BE IT RESOLVED that The University of Oklahoma Board of Regents, by this resolution, expresses its opposition to such a transfer, and further expresses its support of the position of Governor George Nigh that any consideration of such a proposal be deferred.

Regent White moved this item be added to the agenda for consideration at this time. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

Regent White moved approval of the resolution. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

PROPOSAL, CONTRACT, AND GRANT REPORT

A summary of proposals for contracts and grants for the Health Sciences Center, including the Tulsa Medical College branch, for January, 1985 was included in the agenda for this meeting. A list of all contracts executed during the same period of time on proposals previously reported was also included.
Interim President Jischke recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts, depending on these negotiations.

Regent Imel moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

REPORT ON MAJOR CAPITAL IMPROVEMENT PROJECTS

As shown on the following page, a report was presented to the Regents on major capital improvement projects in various stages of planning on the Oklahoma City Campus. No action was required.

RETIREMENT:

Anita M. Johnson, Director, Food Service, March 1, 1985 (accrued vacation through April 10, 1985).

Interim President Jischke recommended approval of the personnel actions listed above.

Regent White moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

*Paid from grant funds; subject to the availability of funds.
AUDITOR

An item had been included on the agenda regarding the appointment of an auditor for the Norman Campus for 1984-85. Regent Little said there would be no action on this item in view of the discussion at the Committee Meeting on Wednesday, at which time it was determined that proposals would be solicited for providing these auditing services.

APPOINTMENT OF CONSULTANT

The University has entered into an agreement with the William Morris Agency, Inc., New York City, to serve as the University's agent and consultant on intercollegiate football and basketball television and radio contract rights. The fee for their services for the period November 15, 1984 to November 15, 1985 is $30,000 plus 10% of gross compensation arrangements that would be derived by the University outside of its arrangements with the College Football Association, Big Eight Conference, or similar organizations of which it is a member, negotiated with the advice and counsel of the William Morris Agency. The compensation for the period November 15, 1985 to November 15, 1986 is 10% of the gross compensation to the University.

Interim President Jischke recommended confirmation of this agreement with the William Morris Agency.

Regent McCurdy moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

RADIO CONTRACT

In December, 1981 the Board awarded a football and basketball radio broadcasting contract to Oklahoma News Network for a three-year period, 1982-83 through 1984-85, with the right to negotiate a two-year renewal option for the period July 1, 1985 through June 30, 1987.

Advice and suggestions for changes have been obtained from the William Morris Agency.

Interim President Jischke recommended that the Board of Regents exercise its option to renew the contract with the Oklahoma News Network for the radio broadcast rights of The University of Oklahoma intercollegiate football and basketball games for an additional two years, July 1, 1985 through June 30, 1987, with the following changes:

1. That ONN will make available to the University three (3) commercial minutes per broadcast for the University to sell and derive additional income.
2. That ONN will assist and make the feed available to an East Coast network, if one is secured, with the additional revenues paid to the University.

3. That ONN will dedicate five (5) commercial minutes per basketball game to be sold by the University, with all income generated paid to the University.

4. That the maximum of eight (8) television exposures per football season not be applicable for pay-for-view telecasts.

Mr. Robert L. Pendarvis, an attorney representing KNOR of Norman, requested permission to address the Board. Mr. Pendarvis said he is appearing for the purpose of requesting that this matter be denied.

Mr. Pendarvis said that in 1981 when bids on this radio contract were originally solicited he represented KNOR and was present at the time of the bid opening. The broadcasting rights fee was increased tremendously at that time. He proceeded to describe in some detail the bidding. He indicated that four or five bidders were present and that KNOR's bid was over $400,000. He called attention to the fact that KNOR planned also to provide coverage for women's sports and other minor men's sports. He indicated that KNOR fully intended to comply with all of the terms of the bid specifications. He said KNOR was aware at that time that providing the broadcasts out of Oklahoma was a significant item in the specifications and they fully intended to comply even though it would have cost money to provide these out-of-state broadcasts. He stated that if the number two and number three bidders at that time had said they did not intend to comply with the provisions of the bid specifications, their bid would have been more than $510,000 because the number two and number three bidders had gone out and taken a survey to determine how much it was going to cost them to provide the out-of-state broadcasts. The estimated cost to comply was $75,000 or more. If they had not intended to comply with the specifications, he said, their bid would have been higher. He said he understood when there was a higher bid why that bid was accepted, but it was their feeling at the time that the successful bidder would be required to comply with the bid specifications.

Mr. Pendarvis said the violations and failure of ONN to comply with the requirements have been called to the attention of University Legal Counsel on numerous occasions. He referred to a February 2, 1983 letter from Mr. Stanley Ward to the attorney of WKY Radio, in which Mr. Ward recognized that ONN had failed to comply and stated that the University would give notice and make them comply. Mr. Pendarvis said it is well-known that ONN has not complied with the requirements. Now, Mr. Pendarvis understands, instead of enforcing the contract the University is going to reward them.

During the discussion which followed, Mr. Pendarvis indicated that they did not know about these negotiations, but if they had known about them they would have submitted a bid or asked to be a part of the negotiations.
In response to questions, Mr. Ward indicated the bid specifications required that the football network consist of stations in a minimum of 30 market areas outside of the State of Oklahoma with a minimum of 80% coverage of each market area by means of an AM broadcast signal. Twenty of these market areas were specified by the University and ten market areas were to be determined by the bidder. This specification for out-of-state broadcasts was inserted by the Athletic Department for recruiting purposes. ONN apparently did not choose to spend the money to acquire these markets but did attempt to secure additional coverage. The University did not require that they go out and purchase the markets. Mr. Ward indicated that there was a breach in the contract but the Athletic Department and the University waived the breach after discussions in 1983.

Regent Imel moved that action on this matter be deferred, that before the next meeting the University provide to the Regents copies of the bid specifications that were used in 1981 along with other pertinent materials, and that this matter be reconsidered at the meeting in March. He further suggested that the University administration notify other prospective bidders that the radio contract might be submitted for bid.

The following voted yes on the motion: Regents Little, Rothbaum, McCurdy, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

Regent McCurdy retired from the meeting.

PURCHASE OF INSTALLED ELECTRICAL FACILITIES

As a part of the Utility System Improvements Project, the University needs to own facilities that are currently owned by Oklahoma Gas & Electric Company (OG&E) and Oklahoma Electric Cooperative (OEC). It would be most advantageous for the University to purchase these installed systems as opposed to the purchase and installation of new equipment.

The cost of the purchase will be charged to Utility System Improvements Funds, Account 165-103.

The equipment to be purchased is as follows:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
The purchase has been evaluated and in all cases the proposed purchase price is close to or below the current depreciated value of the equipment. The Directors of Physical Plant and Architectural and Engineering Services concur in the recommendation.

The purchase action is contingent upon approval by the OG&E Board of Directors. In addition, the results of testing of the individual transformers for performance may result in some of them being deleted from the purchase action. Approval by the Board of Regents at this time will allow the University to proceed after resolution of the above two contingencies.

Interim President Jischke recommended that the Board of Regents approve the award of purchase orders to OG&E in the amount of $290,242.00 and to OEC in the amount of $49,627.61 for the purchase of the installed electrical facilities.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

PURCHASE OF COMPUTER EQUIPMENT

A bid was recently circulated for the purchase of a replacement tape control unit and two tape drives for use with the IBM 3081 Main Frame Computing System. IBM is currently the only manufacturer who can meet the specifications for the replacement drives which offer significant advances in capacity and performance compared to the units being replaced.

The cost of the purchase will be charged to Section 13/New College Funds Computer Hardware Account 166-208.

The bid received was as follows:

IBM
Oklahoma City

1. Tape Control Unit $ 55,616.00
2. Magnetic Tape Units (2) 73,304.00
3. Magnetic Tape Cartridges 28,000.00
4. Storage Racks 4,696.00
5. Supplies 2,941.00

$164,557.00

The prices above include an educational discount of 15% and are acceptable to the Director of Computing Services.
Interim President Jischke recommended that the Board of Regents approve the award of a purchase order in the amount of $164,557.00 to IBM for the purchase of the tape units.

Regent Imel moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

PROPOSAL, CONTRACT, AND GRANT REPORT

A summary of proposals for contracts and grants for the Norman Campus for January, 1985 was included in the agenda for this meeting. A list of all contracts executed during the same period of time on proposals previously reported was also included.

Interim President Jischke recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. The contract budgets may differ from the proposed amounts depending on these negotiations.

Regent Rothbaum moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

BIOLOGICAL STATION RENOVATION AND IMPROVEMENTS

A matching grant of $204,000 has been received from the National Science Foundation to partially fund a renovation and improvement project at the University of Oklahoma Biological Station at Lake Texoma which has an estimated total cost of $326,000. This project involves the following renovations and improvements to the Biological Station: (1) renovation of research laboratory and office space, (2) renovation of six apartments in Building A, (3) erection of a metal research shop building, (4) erection of a prefabricated greenhouse, (5) installation of an emergency back-up electric power supply for the research buildings, (6) acquisition of two field study vehicles, (7) improvements to two boats and the boathouse, and (8) installation of two controlled environment rooms.

In order to receive the National Science Foundation grant, $122,000 of Section 13 funds must be used as the University's matching share.

Interim President Jischke recommended that the Board of Regents accept the National Science Foundation's grant of $204,000, authorize the use of $122,000 of Section 13 funds, and approve a total project cost of $326,000 for renovation work and other improvements at the Biological Station.

Regent Imel moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.
MAX WESTHEIMER FIELD IMPROVEMENTS BIDS

* All bid amounts are net of Oklahoma State Sales Tax.

This project involves (1) the construction of a new section of taxiway parallel to runway 3-21, (2) reconstruction of the midfield taxiway connecting runways 17-35 and 3-21, (3) new lighting, (4) drainage improvements and (5) marking. To provide funding and bidding flexibility, the project was divided into a base bid and two alternates.

All bids received were reviewed by C. H. Guernsey and Company, Inc., the project engineer, and members of the University staff. The low bids, including tax savings, submitted by Haskell Lemon Construction Company were $437,033.55 for the base bid, $574,875.55 for the base bid plus alternate one, and $606,145.40 for the base bid plus alternates one and two.

A formal grant application has been submitted to the FAA requesting $639,180 in federal funds. This 90 percent grant will provide for a total project budget of $710,200 and thus allow for the completion of all items bid. Since certain items of work included in the project were bid as alternates, it will be possible to adjust the final contract amount to coincide with the final grant award.

Interim President Jischke recommended that the Board of Regents accept the low bid and sales tax savings proposal submitted by Haskell Lemon Construction Co. and authorize the award of a contract in the amount of $606,145.40. In the event the Federal grant is less than the full amount
requested in the final application, he recommended that the Board of Regents authorize the award of a contract based upon the actual amount of the grant. These actions are contingent upon the approval of the FAA of the bidding process, the selected contractor, the contract amount and the final award of the necessary FAA construction grant.

Regent Imel moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

BUILDING AUTOMATION SYSTEM

As part of the Utility Systems Improvements project, the existing JC-80 Building Automation System is being upgraded, expanding the system to seven additional buildings and providing metering capability for Chilled Water Plants 1 and 2.

Negotiations have been completed with Johnson Controls, Inc. to provide labor, materials, engineering, commissioning and calibration services as required to install building automation equipment in the new Energy Center Building, Phases I and II, the new Music Building Phase IA, the Law Center, Nuclear Engineering Lab, Engineering Lab, Holmberg Hall, Yorkshire Apartments and Chilled Water Plants 1 and 2. Since the University utilizes Johnson Controls JC-80 Computer equipment for energy management in all campus buildings which are currently connected to the system, Johnson Controls, Inc. is the only feasible source for providing totally compatible equipment for expanding and upgrading the existing system. The prices proposed by Johnson Controls totaling $395,059 have been analyzed by both Purchasing and Physical Plant and have been determined to be fair and reasonable.

The cost of this purchase will come from Utility Systems Improvements funds.

Interim President Jischke recommended that the Board of Regents approve the award of a purchase order to Johnson Controls, Inc. in the amount of $395,059 for the purpose of providing labor, materials, engineering, commissioning and calibration services required to upgrade and expand the existing building automation system.

Regent Imel moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

NAMES FOR ATHLETIC FACILITIES

There are three men whose contributions to O. U. athletic programs have been so far above and beyond the call of duty that we would like to formally recognize and honor them in naming some of our new facilities. Therefore, the following is submitted for Regents' consideration:
"E. H. MILES TRACK PRESS BOX" for the recently constructed press box at John Jacobs Track. E. H. Miles has been recognized as a track specialist nationwide for 46 years -- 30 of them at The University of Oklahoma. As a "starter", he has served at major track meets in the southwest and midwest for many years, the Big Eight for 12 years, the Olympic Training Center in Colorado Springs for the past four years, and he is the only person to ever start the meets held at John Jacobs Track.

"KEN RAWLINSON/DON O'DONOGHUE TRAINING ROOM" for our South End Zone Athletic Training Facility. For 26 years, Ken served as our athletic trainer, and Don was the orthopaedic surgeon for our athletes for 47 years. These two talented and dedicated men were major contributors to the field of sports medicine. The list of individual credits earned and honors paid to Ken and Don is long and varied. Their service extended from The University of Oklahoma throughout the nation and, in some instances, to other parts of the world. Even five years after his death, Ken's book is still the "bible" of athletic training techniques. And though the passage of years has caused Don to lay aside his scalpel, he still serves as our orthopaedic consultant and is medical director of his "dream come true", -- the O'Donoghue Rehabilitation Institute in Oklahoma City, a facility not limited to rehabilitation of athletic injuries.

All three of these men -- E. H. Miles, Ken Rawlinson and Don O'Donoghue -- have given countless hours of time, extraordinary talent, and a wealth of knowledge to the athletic world. Yet each of them still managed to extend these same characteristics to the needs of their homes, their communities, and their country. They are richly deserving of the honor we would like to pay them as we have been richly rewarded in our association with them.

Interim President Jischke recommended approval of naming athletic facilities as explained above.

Regent Imel moved approval of the recommendation. The following voted yes on the motion: Regents Little, Rothbaum, Imel, Kemp, Sarratt, and White. The Chair declared the motion unanimously approved.

REPORT ON MAJOR CAPITAL IMPROVEMENT PROJECTS

As shown on the following pages, a report was presented to the Regents on major capital improvement projects in various stages of planning on the Norman Campus. No action was required.

There being no further business, the meeting adjourned at 10:08 a.m.
