A regular meeting of the Board of Regents of The University of Oklahoma was held in the Board Room of the OU Foundation Building on the Norman Campus of the University beginning at 9:00 a.m. on Thursday, October 15, 1987.

Notice of the time, date, and place of this meeting was submitted to the Secretary of State, and the agenda was posted in the Office of the Board of Regents on or before 1:45 p.m. on October 13, 1987, both as required by 25 O.S. 1981, Sections 301-314.

The following Regents were present: Regent John M. Imel, Chairman of the Board, presiding; Regents Thomas Elwood Kemp, Charles F. Sarratt, Ronald H. White, M.D., Sarah C. Hogan, Sylvia A. Lewis, and Sam Noble.

The following also were present: Dr. Frank E. Horton, President of the University, Provosts Joan Wadlow and Clayton Rich, Vice Presidents Anona L. Adair, Arthur J. Elbert, and Gary L. Smith, Interim Vice President Donna M. Murphy, and Barbara H. Tuttle, Executive Secretary of the Board of Regents. Other executive officers present included Mr. Robert P. White and Dr. Beth Wilson.

MINUTES

Regent Hogan moved approval of the minutes of the Health Sciences Center Committee meeting which was held on September 2, 1987 as printed and distributed prior to the meeting. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the minutes unanimously approved.

Regent Noble moved approval of the minutes of the Finance and Audit Committee meeting which was held on September 9, 1987 as printed and distributed prior to the meeting. The following voted yes on the motion: Regents Imel, Kemp, White, Hogan, Lewis, and Noble. Regent Sarratt abstained. The Chair declared the minutes approved.

Regent White moved approval of the minutes of the Committee of the Whole meeting which was held on September 9, 1987 as printed and distributed prior to the meeting. The following voted yes on the motion: Regents Imel, Kemp, White, Hogan, Lewis, and Noble. Regent Sarratt abstained. The Chair declared the minutes approved.

Regent Lewis moved approval of the minutes of the regular meeting held on September 10, 1987 as printed and distributed prior to the meeting. The following voted yes on the motion: Regents Imel, Kemp, White, Hogan, Lewis, and Noble. Regent Sarratt abstained. The Chair declared the minutes approved.
President Horton called attention to the fact that on Friday, October 30, at the Lincoln Plaza in Oklahoma City the University will be hosting a national conference on "Key Issues in Minority Education, Research Directions, and Practical Implications". He said Regent Lewis will be one of the participants in that conference and Dr. Wanda Ward, Director of our Center for Research in Minority Education, is playing a major leadership role in developing it. The conference will include researchers and policy makers, program developers and practitioners from around the country. He thanked the Robert S. and Grayce B. Kerr Foundation for sponsoring this conference through a gift to the University.

Dr. Horton also called attention to the fact that Saturday of this week will be National Merit Day at The University of Oklahoma. Potential Merit Scholars have been invited to the campus for the weekend. Dr. Horton introduced Dr. Steve Sutherland who presented a National Merit Day tee shirt to each Regent and also distributed a schedule of the activities that will take place during the weekend. Dr. Sutherland said he anticipates having approximately 50 National Merit semi-finalists on the campus this weekend which will include one out of every four in the State of Oklahoma. Within the National Achievement program, he said there are 12 semi-finalists in the State this year and six of them will be here for the weekend program.

Dr. Horton called attention to the strategic planning activities which are taking place on both campuses of the University. He asked Provost Wadlow to come forward and brief the Board on the Norman Campus strategic planning.

Provost Wadlow said a year ago she asked the faculty and staff on the Norman Campus to begin a new and comprehensive look at the directions and priorities of the University. She posed the question "How can The University of Oklahoma continue to improve in quality in times that are very, very different from the past and with funding levels that are very, very much lower than the universities we aspire to emulate". She told the faculty that the University cannot continue to do all that it has been doing if we are to have quality in everything that we do and if we are to address the new needs of this State and the nation. Dr. Wadlow said she is "not in love with planning per se", that she generally is wary of planning and that many of the faculty were skeptical as well. She said the difference here is that it is a dynamic process matching internal realities with external realities. Under this planning each proposal will have to be compatible with those realities. She said strategic planning has served industry well and has served other universities well. The planning effort, called Strategy for Excellence, will try to match the strengths at The University of Oklahoma and the distinctive characteristics present here in human and material resources with the changing times that we live in and relate those to the 21st century - setting directions and priorities. She said the planning will not take place in a vacuum but the faculty will be trying to find a fit that will move the University ahead in very difficult times and will relate to other activities that are underway at OU right now. Actions will be taken along the way.
Dr. Wadlow said the departments now are engaged in developing their own strategic plans. The basis for their planning is a Current Conditions document which was developed last year by faculty, staff, and students. It describes the current conditions of the University internally as well as the external trends which the University must address if it is going to have a viable strategy for excellence. Dr. Wadlow indicated that some of the external factors which the faculty and staff are asked to address as they develop their strategic plans are (1) the changing demography of this State and the nation, (2) life-long learning demands - by the year 2000 90% of the population will have been exposed to some kind of continuing education, (3) the need for more interdisciplinary activities in research on the campus rather than the disciplinary compartments that are present at OU or any university today, (4) the need to consider economic development issues for the State, and (5) the increasing internationalization of our lives - coping with language proficiency and cultural sensitivity.

Dr. Wadlow said while the units are planning, others are working on developing and offering other ideas. She said there was a retreat in September of a number of faculty and deans and one of the things discussed was trying to tentatively identify some areas of focus that OU might develop. For instance, she said, it would be logical for OU to aspire to be the country's leading energy research center, as well as the premier place to study the American Indian. OU also could provide leadership in the arts for the State of Oklahoma. Dr. Wadlow said these ideas and others that are developed will be discussed widely and the question will be raised if these and others are to be a focus then how do we make them of great excellence. She said in the meantime other groups are exploring a range of cross-college issues from honors programs, the library, computing, space, program review, general education, admission requirements, and interdisciplinary research. She said the plan is to complete the Strategy for Excellence in the summer of 1988.

President Horton commended Provost Wadlow and all of the deans and faculty who are engaged in this activity as well as the students and staff. He said it is an important one which will allow the University to identify its goals for the future. He pointed out that the strategic planning effort on both campuses at the present time focuses on the academic units and the identification of institutional objectives. Once these are completed, the administrative units will utilize those academic goals and initiate a strategic planning effort in order to identify how they will assist the institution in meeting the academic goals as well as to identify objectives that the administrative units require to meet the needs of the constituencies that they serve.

President Horton introduced Dr. James P. Pappas, the new Vice Provost for Continuing Education and Public Service.

FINANCE AND AUDIT COMMITTEE REPORT

The Chairman distributed the following report of the Finance and Audit Committee which was held yesterday:
Four post audit reviews were reported on by the Director of Internal Auditing, John Eckert, as follows:

1. Department of Pediatrics, Professional Practice Plan, Tulsa Medical College
2. Department of Internal Medicine, Professional Practice Plan, Tulsa Medical College
3. Limited Review of Cash Receipts, College of Dentistry, Health Sciences Center
4. University Retirement Supplement, Health Sciences Center

Mr. Eckert stated all recommendations have been implemented. He believes the audit follow-up policy has been very positive.

Regent Sarratt requested inclusion of the date of the audit and the name of the responsible person in each case in future follow-ups.

Quarterly Profit and Loss Statements are to be presented at the November Finance and Audit Committee meeting.

SCHOLARSHIP REPORT

After a discussion at the March meeting of the Board of Regents, it was decided that a Task Force on University Scholarships comprised of officials from both the Norman and Health Sciences Center campuses who are most involved in awarding scholarships would be appointed. In early April, President Horton appointed a 16-member Task Force "to make recommendations to me regarding a centralized data-base for student scholarship information". The basic rationale for constituting this Task Force was the need for making available the best information possible to students at The University of Oklahoma regarding opportunities for scholarships based on financial need as well as merit in a time of increasing costs of tuition and fees. Vice President Anona Adair chaired the Task Force.

The Task Force completed its work recently and a copy of the report with recommendations was distributed to the Regents last week. Vice President Anona Adair and Student Association President Terry Carr reviewed the report at the Committee meeting yesterday. The report included a budget proposal in the amount of $24,061 to implement the recommendations of the Task Force.

At the end of this meeting Regent Sarratt brought up the question of the Board taking an action to authorize this expenditure. Regent Imel indicated that since the amount is less than $35,000 the budget can be implemented by the President without formal action of the Board. President Horton said he had already had discussions with a Regent or two about the possibility of using some of the Regents' Endowment funds for this purpose and that funds would be provided from some source to implement the scholarship project.
INVESTMENTS

On September 10 investments in the Regents' Endowment in three U.S. Treasury Bills matured in the amount of $1,140,000, $350,000, and $65,000 respectively. The proceeds of these investments were reinvested in U.S. Treasury Bills as follows:

- $1,100,000 for 118 days to mature December 31, 1987 at 6.32% effective yield.
- $350,000 for 118 days to mature December 31, 1987 at 6.32% effective yield.
- $65,000 for 118 days to mature December 31, 1987 at 6.32% effective yield.

The $1,140,000 Treasury Bill was reinvested at $1,100,000 in order to provide funds to pay for several equipment purchases made from various individual endowment funds.

On September 23 a check in the amount of $85,657.03 from the estate of Walter J. Alexander to establish a new scholarship fund was received (see page 19965). $85,000 of this bequest was immediately invested in a U.S. Treasury Bill to mature January 21, 1988 at 6.53% effective yield.

These investment transactions were approved by the University Trust Officer and the President of the University.

This was presented for information. No action was required.

REGENTS' ENDOWMENT INVESTMENT POLICY

At the September meeting (page 19908), there was a discussion of the investment policy for the endowment funds. The administration was asked to review the policy and to propose possible options for liberalizing the investment parameters and establishing goals for investment yields.

Mr. David Watts, Senior Vice President and Senior Investment Officer for J. & W. Seligman & Co. and the individual responsible for supervising the investment of the endowment funds as well as the OU Foundation funds, attended the Committee of the Whole meeting on Wednesday. At that time possible modifications to the investment policy were discussed.

Regent Imel commented on the changes discussed at the Committee meeting. The policy with the additions discussed at the Committee of the Whole meeting underlined and deletions lined through is as follows:
Investment Objectives and Policy Considerations - Regents' Endowment.
The primary objectives of the Board of Regents' Funds shall be preservation of
capital value and, over time, growth of capital value and income to more than
offset the impact of inflation. Income is paid out, and reasonable current
income is a secondary, but important, objective. A balancing of current and
future income objectives will be reflected in a variable ratio of fixed income
securities and equity holdings depending upon economic and market conditions.

Investment Guidelines

1. Portfolio Balance

The Investment Advisor (currently J. & W. Seligman & Co.) will balance
the various securities in the portfolio so that convertible securities (see Item
4.) and common stocks shall represent no more than 65% 70% of the market value
of the total fund. Convertible securities shall represent no more than 10% of
the market value of the total fund.

The Investment Advisor is encouraged to establish a bond maturity ladd-
der and to vary the proportion of stocks to bonds, subject to the above limita-
tions, in accordance with his best judgment regarding economic and market con-
ditions and prospects.

2. Short-Term Investments

The policy shall be to invest short-term funds in:

a. United States Treasury or government agency obligations

b. Certificates of deposit of commercial banks

c. Savings accounts in mutual savings banks and/or savings
   and loan associations and/or savings accounts in commer-
cial banks

d. Prime commercial paper

e. Bankers acceptances

f. Short-term money funds

In the investment of short-term funds, care shall be exercised so as
not to invest undue amounts with any institution relative to the size of such
institutions. The objectives of short-term investments shall be minimum risk,
marketability and yield, in that order.
3. Medium and Long-Term Debt Investments

The policy shall be to purchase, when appropriate, United States Treasury notes and bonds, government agency obligations and corporate debt whether in the form of notes, mortgage bonds or subordinated debentures. Marketability shall be an important criterion for a purchase and no bond below a single A rating by Moody's Investors Service or Standard & Poor's Corporation may be considered.

4. Convertible Security Investments

Attention shall be given to investments in convertible securities upon analysis of the relationship of the price of such securities to both investment and conversion values. Analysis should encompass the level and trend of coverage ratios and the quality and prospects applicable to the underlying common stock.

5. Common Stock Investments

a. The Investment Advisor is encouraged to seek out investments in companies of all types, be they large or small, old or new, regulated or unregulated, cyclical or growth, except that the Investment Advisor is directed not to recommend stocks of the companies doing business in South Africa. At all times, however, standards of good quality should be adhered to in arriving at a judgment as to the purchase or retention of a particular stock. In the interest of flexibility, no limitations in terms of ratings, price-earnings ratios or yields will be established, although prudent judgment is expected to be exercised.

b. The policy shall be to limit the purchase of common stock in any one corporation to an initial cost of 5% of the market value of the total Fund. Through capital appreciation, no one holding should exceed 10% of the market value of the total Fund.

c. The policy shall be to diversify the common stock portfolio through participation in industries and companies with above average growth or recovery prospects and providing sound fundamental value.

d. The policy shall be to establish a Special Holdings category equal to no more than 10-15% of the market value of convertible security and common stock holdings. This higher risk category is intended to provide a means of investing in small, well-managed companies whose growth prospects seem to surpass by a significant margin those of American Business generally.

6. Annual Review

Objectives and policy shall be reviewed at least once a year.

Regent Noble moved approval of the policy modifications shown above. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.
REGENTS' ENDOWMENT - NEW BEQUESTS

The following bequests have been received in recent months to establish new scholarship funds in the Regents' Endowment. Information on the funds is as follows:

Charles Gregory Forgan Scholarship Fund

Last spring a check in the amount of $21,287.52, representing the rest and residue of the estate of JoAnn Sutton Forgan was presented to The University of Oklahoma. Mrs. Forgan's will indicated that this amount was to be used to establish a scholarship fund to be known as the Charles Gregory Forgan Scholarship Fund. She directed that the funds be disbursed at a maximum amount annually so that the fund will be perpetual with the income to the fund to equal or exceed the amount paid out each year. She further directed that preference be given applicants of American Indian heritage with emphasis on need rather than on academic achievement. Mrs. Forgan also indicated that the executrix of her estate, Phyllis Forgan Duarte, her daughter, could impose additional conditions for the scholarship fund.

The Sallie and Beulah W. Alexander Scholarship Fund

The University of Oklahoma recently received a check in the amount of $85,657.03 which was an undivided one-third interest in the estate of Walter J. Alexander, Moore, Oklahoma. Mr. Alexander's last will and testament indicated these funds are for the establishment of a scholarship fund to be known as "The Sallie and Beulah W. Alexander Scholarship Fund" for the education of a deserving Comanche Indian boy and girl, preferably of full blood.

This was presented for information. No action was required.

MAJOR CAPITAL IMPROVEMENT PROJECTS

Progress reports on major capital improvement projects under construction and in various stages of planning on both campuses of the University were distributed to the Regents with the agenda for this meeting. They are attached hereto as Exhibit A. No action was required.
In response to questions, information was provided to the Regents on the meaning of the various initials included in the reports. It was agreed also that information on the current master plans on file in the Office of the Oklahoma State Regents for Higher Education would be distributed to the Regents.

President Horton reminded the Regents there has been speculation recently that there might be capital money available from the Insurance Protest Fund during this fiscal year and that higher education would likely be one of the functions of State government which could expect to receive a windfall should that money be distributed by the Oklahoma Legislature on a one-time non-recurring basis. He said Interim Chancellor Hobbs notified The University of Oklahoma that it has been determined that higher education should do its planning based on the assumption that $40,000,000 might be made available for one-time expenditures. The State Regents' staff developed a formula for distribution of the $40,000,000 should such a windfall occur. In a letter received on October 9, Dr. Hobbs reported the University's prorata share of the total would be $9,705,000, including both the Norman Campus and the Health Sciences Center.

President Horton said Dr. Hobbs requested the University to submit its list of capital projects in priority order by Friday, October 16. He said OU's top priorities for possible one-time capital funds continue to be as follows:

- Catlett Music Center $3,000,000
- Energy Center Building $2,000,000
- Family Medicine Building $4,705,000

All of these projects are currently on the University's master plans and all have been approved by the Board of Regents.

FUNDS AVAILABLE FOR CAPITAL PROJECTS

The 1987 Legislature appropriated $8.1 million capital funds for higher education for 1987-88. In a letter received on October 12, Interim Chancellor Hobbs has indicated the University's share of this appropriation will be $1,000,000 for the Norman Campus. He asked that a request for these funds be forwarded by October 15 to describe the project, to request a revision of the Campus Master Plan, and to make this project the number one priority.

The following request is proposed:

The University of Oklahoma Libraries constitute the largest library in the State of Oklahoma and a major resource for its citizens. More than any other facility, the library is fundamental to all teaching and research activities. It is the foundation and intellectual focal point for research and creative activity. In addition, the OU library frequently provides materials to
academic, public, and special libraries within the state. For this reason, the current condition of the OU library is a major concern to the entire academic community. There are two critical need areas: acquisitions and an integrated automation system.

In four of the past five years, budget shortfalls have seriously threatened the library's collections. New acquisitions have fallen behind standards, requiring a large amount of funding to compensate for years of standstill or cutback budgets. Attempts have been made to protect the library from cuts, but it could not be spared altogether without seriously affecting the other areas of instruction. As a result, a 1984-85 comparison ranked the University Library 81st out of the nation's top 104 research libraries in the number of volumes added.

In addition, the University Library remains one of the few major research libraries without an integrated library automation system. This type of computerized system for catalogue and circulation purposes is essential for a modern library. It is even more critical for providing literature searches and other support services for scholarly activity. Such a system would immediately improve library resources and capabilities for students and faculty. For example, it would link the various branch libraries in an integrated information system. Also, through the dial-up capability of this system students, faculty, and citizens throughout Oklahoma could search the University Library's collection by using computer terminals or personal computers from offices, dormitory rooms, homes, and other remote locations. Such a system would dramatically improve the library's ability to serve the state's other 264 libraries, as well as schools, businesses, and individuals throughout the state. A system such as the one proposed would provide considerable potential for future applications and expanded services, thereby increasing library use by as much as 25-50%.

The $405,000 for research and instructional equipment is desperately needed to allow the University to recover ground lost over the past several years and to regain momentum in the University's commitment and movement toward quality.

President Horton recommended the Board of Regents authorize submitting to the Oklahoma State Regents for Higher Education a request for funding capital projects in the amount of $1,000,000 ($300,000 for Library acquisitions, $295,000 for Library automation, and $405,000 for research and instructional equipment).

Regent Lewis moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

LABORATORY SERVICES FOR THE UNIVERSITY OF OKLAHOMA TULSA MEDICAL COLLEGE

In the December, 1985 meeting (page 18778), the Regents approved the award of a contract to Regional Medical Laboratory, Inc. to provide laboratory services for The University of Oklahoma Tulsa Medical College. The original award was in the amount of $108,364.97 for the period December 1, 1985 through June 30, 1986, renewable July 1, 1986 through February 28, 1987 in the amount of $123,845.68. Due to delays in implementing the contract, the vendor agreed to extend the contract through June 30, 1987.

Bids for the continuation of these services beginning July 1, 1987 have been sent out, but the results are still under consideration by the Department of Administrative Services. Therefore, a new contract has not been issued. A new contract should be ready by October 31, 1987.

Tulsa has an urgent need for these laboratory services to provide care for the patients seen in the clinics and would like to extend the contract which expired June 30, 1987 from July 1, 1987 through October 31, 1987. Regional Medical Laboratory, Inc. has agreed to extend their prices for this period of time.

Funds are available from the following budget accounts to cover this agreement:
October 15, 1987

President Horton recommended the extension of the contract between Regional Medical Laboratory, Inc. and The University of Oklahoma Tulsa Medical College from July 1, 1987 through October 31, 1987 at an approximate cost of $54,832.00.

Regent Kemp moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

Regent Sarratt requested, and it was agreed, that the name of an account will be included in the future whenever an account number is provided.

PROPOSALS, CONTRACTS, AND GRANTS

A summary of proposals for contracts and grants for the Health Sciences Center, including The University of Oklahoma Tulsa Medical College branch, for September, 1987 was included in the agenda for this meeting. A list of all contracts executed during this same period of time on proposals previously reported was also included.

President Horton recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. He said the contract budgets may differ from the proposed amounts depending on these negotiations.

Regent White moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

President Horton called attention to a grant received recently by Dr. Joseph J. Ferretti from the National Institute of Dental Research of the National Institutes of Health. The title of Dr. Ferretti's research is Genetics of Sucrose Metabolism in Mutans Streptococci. The award amount listed in the report is $169,562 for this year but Dr. Horton said the grant totals $772,272 for a five-year period ending August 31, 1992. Dr. Horton said the overall goal of Dr. Ferretti's research is to study the virulence components of mutans streptococci at the molecular level. These organisms have been identified in earlier research as the responsible agent in initiation of tooth decay.
At the July 23, 1987 meeting, a joint-venture project was approved between the College of Medicine Professional Practice Plan and the Oklahoma Teaching Hospitals to expand and renovate the Pediatric Intensive Care Unit at Oklahoma Children's Memorial Hospital. Also, the administration was authorized to initiate the architectural selection process for the project.

The Pediatric Intensive Care Unit must be renovated and enlarged to (1) meet JCAH accreditation standards; (2) expand the number of beds to meet the needs of the Oklahoma Children's Heart Center; (3) enable the admission of intensive care referrals from Oklahoma and surrounding states; and (4) significantly augment hospital and Practice Plan revenue. The project budget is $1.1 million including $400,000 of Professional Practice Plan funds of the College of Medicine and $700,000 of funds from the Teaching Hospitals.

Interviews were conducted on September 18, 1987 to consider the qualifications of six architectural and engineering consultants that had indicated an interest in providing professional architectural and engineering services required for this project. The interviews and preliminary review process were conducted in accordance with current policies of the Board of Regents and the State Office of Public Affairs. Requests for proposals were sent to 198 firms listed by the State Office of Public Affairs and 20 proposals were received by the University. The following qualifications of each firm were considered:

1. Professional reputation
2. Experience with hospital in-patient bed/PICU projects from 1977-1987
3. Available professional staff
4. Scope of services offered
5. Amount of work in progress
6. Other University projects completed
7. Financial standing and stability
8. Size of firm
9. Location of firm

The Architect Interview Committee included representatives of the State of Oklahoma Teaching Hospitals and faculty and staff of the Health Sciences Center. The group obtained information on each firm from the files of the State Office of Public Affairs, proposals submitted and references. The interview group opted to interview six architectural consultants instead of five because a basis could not be found for eliminating a qualified sixth firm. Authorization was obtained from the Office of Public Affairs to interview six architectural consultants. Selected facts of basic information on each architectural and engineering firm considered for this project and a summary of the preliminary review of the qualifications of the architectural and engineering firms were provided to the Regents and are attached hereto as Exhibit B.
The members of the Architect Interview Committee were as follows:

Lyle Coit, Construction Manager, Oklahoma Teaching Hospitals
Thomas Godkins, Director of Capital Planning, Committee Chair, Provost's Office
Andrew Lasser, D.Ph., Administrator, Oklahoma Children's Memorial Hospital
Robert Pryor, M.D., Medical Director, Pediatric Intensive Care Unit, Oklahoma Children's Memorial Hospital
Alan Lower, Supervisor, A & E Services, Department of Human Services

Architectural Firms Under Further Consideration:

Frankfurt-Short-Bruza Associates, P.C., Oklahoma City
HTB, Inc., Oklahoma City
Jones-Hester-Bates-Riek, Oklahoma City
Matrix, Inc., Tulsa
Rees Associates, Inc., Oklahoma City
Turnbull and Mills, Oklahoma City

*Note: The percent fees submitted for basic services are based on a current estimated construction cost of $1,100,000. The award of a design contract to the selected architect should be based upon the percent fee for basic services.
and not the estimated cost which is subject to change. The fee for basic services excludes programming, interior design, and the services of special consultants. Payments for the development of a program plan and, if necessary, special consultants and interior design services shall be paid in accord with the extra services clause of the University's Architectural Contract. Basic services includes schematic design, design development, the development of construction documents (including final plans and specifications), the award of the construction contract, and the construction phase during which periodic on-site observation of the construction work will be required.

Regent Imel reviewed the discussion of these architectural firms that took place at the Committee meeting yesterday. He said the Board needs to take an action appointing a firm at the percentage fee proposed to provide the professional architectural and engineering services required for this project.

Regent Sarratt moved the Board of Regents appoint HTB, Inc. at their proposed fee of 8% based on the rating, the background, personnel, financial stability, and insurance.

Regent White called attention to the fact the Board could save $24,000 in fees by appointing Rees Associates and with only one point difference in the ratings he would be in favor of saving the money. Regent Hogan agreed. Regent Sarratt stated sometimes the lowest bid might cause people to cut corners. He believes at some stage you have to be realistic. He talked about the fact that it is important to have insurance protection and to be sure the firm can complete the job without financial problems.

During the further discussion, Vice President Smith and Mr. Tom Godkins indicated they have no problems with the appointment of any of these six firms, that all are qualified. Mr. Godkins stated the firms were all interviewed and rated prior to any presentation of proposed fees. In further discussions, Mr. Godkins also commented that both firms would be using outside engineering firms as consultants for this project.

The following voted yes on Regent Sarratt's motion: Regents Imel, Kemp, Sarratt, and Lewis. Regents White, Hogan, and Noble voted no. The Chair declared the motion approved.

DELETION OF DEGREE PROGRAM

The faculty of the Department of Health, Physical Education, and Recreation has requested that the Bachelor of Arts in Recreation degree program be discontinued. Budget reductions and faculty losses have seriously eroded the Department's ability to assure a quality recreation program; therefore, the HPER faculty propose the discontinuation of this program in order to allow them to pursue excellence over a narrower range of programs.

Students currently enrolled in the program will be allowed to continue. Further enrollment in the program has been suspended.
Other institutions in the State of Oklahoma, including Oklahoma State University, Southwest Oklahoma State University, the University of Tulsa, and Oral Roberts University, currently offer degrees or emphases in recreation. None of these schools offered recreation degrees or programs in 1973 when The University of Oklahoma program was initiated.

The proposal to discontinue this program has been approved by the Dean of the College of Arts and Sciences, the Academic Programs Council, and the Provost.

President Horton recommended that the Bachelor of Arts degree with a major in recreation be discontinued.

Regent Lewis moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

Leaves of Absence:

Sabbatical Leaves of Absence

Charles W. Bert, George Lynn Cross Research Professor of Aerospace, Mechanical, and Nuclear Engineering and Perkinson Professor of Engineering, with half pay, January 1, 1988 to May 16, 1988 and August 16, 1988 to January 1, 1989. To serve as a Visiting Professor of Mechanical Engineering at the Naval Postgraduate School, Monterey, California, and to write.

Gwenn Davis, Associate Professor of English and of Women's Studies, with full pay, January 1, 1988 to May 16, 1988. To write and do research.

Robert L. DuBois, Kerr-McGee Professor and Assistant Director of Geology and Geophysics, sabbatical leave with full pay, July 1, 1987 to January 1, 1988, cancelled.

Lawrence Frank, Associate Professor of English, with full pay, January 1, 1988 to May 16, 1988. To complete a book.

Anne H. Henderson, Assistant Professor of Landscape Architecture, with half pay, January 1, 1988 to May 16, 1988 and August 16, 1988 to January 1, 1989. To work with the Olmsted Historic Preservation Program, Massachusetts.

Seun K. Kahng, Professor and Director of Electrical Engineering and Computer Science, with full pay, January 1, 1988 to May 16, 1988. To do research.

David Mair, Associate Professor of English, with full pay, January 1, 1988 to July 1, 1988. To do research and travel.
Terry L. Patterson, Associate Professor of Architecture, with full pay, January 1, 1988 to May 16, 1988. To complete a manuscript.

Mary R. Whitmore, Assistant Professor of Zoology, with full pay, January 1, 1988 to May 16, 1988. To study at the Electron Microscopy Laboratory at the University of California at Berkeley.

Stephen C. Whitmore, Associate Professor of Physics and Astronomy, with full pay, January 1, 1988 to May 16, 1988. To study at the Department of Applied Physics at Stanford University and the University of California at Berkeley.

Leave of Absence Without Pay

Alexandra Karriker, Associate Professor of Modern Languages, Literatures, and Linguistics, August 16, 1987 through December 31, 1987. To accept invitation from the American Field Service to teach in Russia.

Sick Leave of Absence With Pay

Richard D. Resco, Associate Professor of Mathematics, August 16, 1987 through December 31, 1987.

Appointments:

Anthony S. Lis, Professor Emeritus of Environmental Analysis and Policy, rate of $3,000 for 4.5 months ($666.66 per month), .25 time, August 16, 1987 through December 31, 1987. Paid from 127-213, Business Administration Instruction, pos. 724.60.

* Edwin Kessler, Visiting Adjunct Professor of Geography and of Meteorology, annual rate of $26,000 for 9 months ($2,888.89 per month), .50 time, August 16, 1987 through May 15, 1988. Paid from 157-245, Forecasting.

George G. Huffman, Professor Emeritus of Geology and Geophysics, rate of $10,000 for 4.5 months ($2,222.22 per month), .49 time, August 16, 1987 through December 31, 1987. Paid from 127-242, Geology and Geophysics, pos. 701.60.

* Petr Chylek, Ph.D., Visiting Professor of Meteorology and Cooperative Institute for Mesoscale Meteorological Studies, annual rate of $43,000 for 9 months ($4,777.78 per month), August 16, 1987 through May 15, 1988. Paid from 127-265, Meteorology, pos. 702.60; 152-993, Geosciences Clearing Account; and 155-870, Cooperative Institute for Mesoscale Meteorological Studies I, pos. 905.

* Paid from grant funds; subject to availability of funds
Francis Joseph Kovach, Professor Emeritus of Philosophy, rate of $7,000 for 9 months ($1,555.56 per month), part time, August 16, 1987 through May 15, 1988. Paid from 127-278, Philosophy, pos. 925.

Chester L. Peek, reappointed Visiting Associate Professor of Management, rate of $6,500 for 4.5 months ($1,444.44 per month), .50 time, January 1, 1988 through May 15, 1988. Paid from 127-213, Business Administration Instruction, pos. 729.60.

Freddie Foshee' Cudjoe, Ph.D., Adjunct Assistant Professor of Education, annual rate of $22,000 for 12 months ($1,833.33 per month), August 1, 1987 through June 30, 1988. Paid from 127-343, Instructional Leadership and Academic Curriculum, pos. 701.60.

Scott Hoenig, Assistant Professor of Marketing, rate of $21,000 for 4.5 months ($4,666.66 per month), January 1, 1988 through May 15, 1988. Paid from 127-213, Business Administration Instruction, pos. 138.60. If Ph.D. not complete by January 1, 1988, title to be changed to Acting Assistant Professor and salary to be $41,500.

Robert John Karriker, Ph.D., Visiting Assistant Professor of Modern Languages, Literatures, and Linguistics, rate of $13,546 for 4.5 months ($3,010.33 per month), August 16, 1987 through December 31, 1987. Paid from 127-268, Modern Languages, Literatures, and Linguistics, pos. 706.60.

Gary William Shugart, Ph.D., Visiting Assistant Professor of Zoology, rate of $11,000 for 4.5 months ($2,444.44 per month), January 1, 1988 through May 15, 1988. Paid from 127-297, Zoology, pos. 705.60.

Warren D. Miller, Visiting Instructor in Management, annual rate of $18,000 for 9 months ($2,000.00 per month), .67 time, August 16, 1987 through May 15, 1988. Paid from 127-213, Business Administration Instruction, pos. 715.

* Hartmut Georg Kapitza, Postdoctoral Fellow, Cooperative Institute for Mesoscale Meteorological Studies, annual rate of $28,000 for 12 months ($2,333.33 per month), October 15, 1987 through October 14, 1988. Paid from 155-870, Cooperative Mesoscale Meteorological Studies I.

Hing Tong Cho, Visiting Postdoctoral Research Associate in Physics and Astronomy, annual rate of $24,000 for 12 months ($2,000.00 per month), September 1, 1987 through March 31, 1988. Paid from 127-481, Physics and Astronomy, pos. 705.65.

* David Jeffery, Postdoctoral Research Associate in Physics and Astronomy, annual rate of $23,000 for 12 months ($1,916.70 per month), October 15, 1987 through November 30, 1987. Paid from 155-834, Supernova Studies.

* Paid from grant funds; subject to availability of funds
October 15, 1987

* Monika Z. Wrona, reappointed Co-Principal Investigator and Adjunct Assistant Professor of Chemistry, annual rate of $24,200 for 12 months ($2,016.67 per month), September 1, 1987 through August 31, 1988. Paid from 157-435, Indoles, pos. 905.

* Constance Martin Lawry, Ed.D., Interim Assistant Director of the Center for Research in Continuing Higher Education and Adjunct Assistant Professor of Education, annual rate of $21,818 for 12 months ($1,818.18 per month), .50 time, September 1, 1987 through July 31, 1988. Paid from Kellogg Grant.

Changes:

Thomas J. Carter, title changed from Acting Assistant Professor to Assistant Professor of Economics, salary changed from annual rate of $29,500 for 9 months ($3,277.78 per month) to annual rate of $31,000 for 9 months ($3,444.44 per month), August 16, 1987 through May 15, 1988. Paid from 127-213, Business Administration Instruction, pos. 69.60.

Thomas Gallaher, Associate Professor and Chair of Instructional Leadership and Academic Curriculum; title of Assistant Director of Education Professions Division deleted, July 1, 1987.

David S. Gross, Associate Professor of English; given additional title of Assistant Director of Honors Program, August 16, 1987 through May 15, 1988.

* M. Bilayet Hossain, reappointed Research Scientist in Chemistry, salary changed from annual rate of $21,960 for 12 months ($1,830.00 per month) to annual rate of $23,040 for 12 months ($1,920.00 per month), August 1, 1987 through October 31, 1987. Paid from 157-313, Siderophores and Peptides.

* Md M. Jalal, Research Scientist in Chemistry, salary changed from annual rate of $19,920 for 12 months ($1,660.00 per month) to annual rate of $20,940 for 12 months ($1,745.00 per month), August 1, 1987 through December 31, 1987. Paid from 157-313, Siderophores and Peptides.

Michael D. Layne, Ph.D., title changed from Acting Assistant Professor to Assistant Professor of Modern Languages, Literatures, and Linguistics, salary changed from annual rate of $19,000 for 9 months ($2,111.11 per month) to annual rate of $21,000 for 9 months ($2,333.33 per month), August 16, 1987. Paid from 127-268, Modern Languages, Literatures, and Linguistics, pos. 30.60, and 127-468, Modern Languages, Literatures, and Linguistics Research, pos. 30.65.

Roland E. Lehr, Professor of Chemistry; given additional title of Acting Chair of Chemistry, salary changed from annual rate of $40,188 for 9 months ($4,465.33 per month) to annual rate of $53,584 for 12 months ($4,465.33 per month), plus $150 per month, September 1, 1987 through June 30, 1988. Paid from 127-221, Chemistry, pos. 19.60, and 127-421, Chemistry Research, pos. 19.65.

* Paid from grant funds; subject to availability of funds
October 15, 1987

Barbara Neas, Lecturer in Mathematics; given additional title of Research Associate, Faculty Research Initiative, salary changed from annual rate of $6,000 for 9 months ($666.67 per month), .50 time, to annual rate of $24,000 for 12 months ($2,000.00 per month), full time, August 16, 1987 through December 31, 1987; reverts to annual rate of $6,000 for 9 months ($666.67 per month), .50 time, January 1, 1988 through May 15, 1988. Paid from 127-264, Mathematics, and 127-452, Faculty Research Initiatives, pos. 701.65.

Ronald M. Peters, Jr., Director, Carl Albert Congressional Research and Studies Center, Curator, Carl Albert Congressional Archives, and Associate Professor of Political Science, salary changed from annual rate of $48,600 for 12 months ($4,050.00 per month) to annual rate of $50,600 for 12 months ($4,216.67 per month), October 15, 1987. Paid from 127-622, Congressional Studies Center I; 127-623, Congressional Research and Study II; 127-433, Carl Albert Center Research, pos. 1.65; and 127-243, Political Science, pos. 861.60.

Gene Pingleton, Associate Professor of Education; title of Associate Director of Education Professions Division, deleted, July 1, 1987.

* Edwin Tucker, reappointed Adjunct Professor of Chemistry, salary changed from annual rate of $34,200 for 12 months ($2,850.00 per month) to annual rate of $35,916 for 12 months ($2,993.00 per month), September 1, 1987 through December 31, 1987. Paid from 157-420, Hydrophobic Interactions, pos. 905.

* Michael D. Wahl, Associate Professor of Architecture and of Landscape Architecture, salary temporarily changed from annual rate of $30,875 for 9 months ($3,430.56 per month) to annual rate of $43,500 for 9 months ($4,833.33 per month), August 16, 1987 through May 15, 1988. Paid from 157-250, Malaysia.

Kevin D. Watley, reappointed Instructor in Accounting, salary changed from rate of $3,000 for 4.5 months ($666.66 per month), .25 time, to rate of $6,000 for 4.5 months ($1,333.33 per month), .50 time, August 16, 1987 through December 31, 1987. Paid from 127-213, Business Administration Instruction, pos. 706.60.

Qin Xu, Postdoctoral Fellow, Cooperative Institute for Mesoscale Meteorological Studies; given additional title of Instructor in Meteorology, August 16, 1987 through December 31, 1987.

Terminations:

Kenneth L. Barker, Senior Course Moderator and Program Development Specialist, FAA Management Training School, and Adjunct Assistant Professor of Political Science, September 30, 1987 (with accrued vacation through October 12, 1987).

Joseph L. Barron, Supervisor of Instruction, FAA Management Training School, and Adjunct Assistant Professor of Political Science, September 30, 1987 (with accrued vacation through October 16, 1987).

* Paid from grant funds; subject to availability of funds

Diana B. Chamblee, Senior Course Moderator and Program Development Specialist, FAA Management Training School, and Adjunct Assistant Professor of Political Science, September 30, 1987 (with accrued vacation through October 9, 1987).

Thomas H. Collins, Senior Course Moderator and Program Development Specialist, FAA Management Training School, and Adjunct Assistant Professor of Political Science, September 30, 1987.

John A. Cook, Senior Course Moderator and Program Development Specialist, FAA Management Training School, and Adjunct Assistant Professor of Political Science, September 30, 1987 (with accrued vacation through October 9, 1987).

Frank Heaston, Professor of Journalism and Mass Communication, December 31, 1987; named Professor Emeritus of Journalism and Mass Communication.

Cecil Lee, Professor of Art, December 31, 1987; named Professor Emeritus of Art.
October 15, 1987

William R. Merrill, Senior Course Moderator and Program Development Specialist, FAA Management Training School, and Adjunct Instructor in Political Science, September 30, 1987 (with accrued vacation through October 16, 1987).

John TeSelle, Director, Continuing Legal Education, and Professor of Law, September 30, 1987 (with accrued vacation through October 15, 1987); named Professor Emeritus of Law.

President Horton recommended approval of the academic personnel actions shown above.

Regent White moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

President Horton reported the death of the following:

STUDENT APPEAL - JOE BRETT REYNOLDS

On June 23, 1987, Provost Wadlow, based upon a confession of the student and recommendations from the Dean of the University College and Dean of the College of Arts and Sciences, expelled Joe Brett Reynolds from the University with the understanding an application for readmission could be considered in two years. This expulsion resulted from Mr. Reynolds having another student take a final examination for him during the spring semester and by his aiding in the falsification of a student identification card in an effort to conceal the misconduct. This academic misconduct was discovered by the faculty member in charge of the class and Mr. Reynolds thereafter admitted to these charges. The Provost, after due consideration, expelled the student.

On August 11, Mr. Stanley M. Ward asked the Regents to review the decision of the Provost. Mr. Ward indicates that "Mr. Reynolds does not deny the academic misconduct which resulted in his expulsion from the University". He further states that "...he does feel that the expulsion for a period of two years is unduly harsh..." and "...he is requesting that the expulsion be limited to the Fall 1987 semester and that he be readmitted for the Spring 1988 semester".

The Academic Misconduct Code for the Norman Campus, which was adopted by the Board of Regents on November 8, 1979, provides very specific procedures regarding alleged academic misconduct and the disciplinary sanctions that are appropriate. The policy also provides that "implementation of the appropriate action or disciplinary sanctions by the Provost shall end the process" but that "in all cases the President and the Board of Regents of the University reserve the right to review at their discretion any decision of a hearing body for manifest error or inequity".
The Academic Misconduct Code provides that expulsion is one of four disciplinary sanctions which may be imposed when there has been academic misconduct. Expulsion is defined in the Code as "Termination of student status for an indefinite period, usually intended to be permanent".

According to records in the Provost's Office, 28 students have been expelled for academic misconduct since the fall of 1981. One of these students was allowed to return to the University after two years and one other had his expulsion changed to a suspension after two years so that he could attend another institution. This student would be eligible to return to OU but has not. The Provost has indicated leniency in this case also by her willingness to accelerate consideration for readmission after only two years even though the Code states that expulsion is usually intended to be permanent. Mr. Reynolds does not raise any procedural errors and the materials presented by his attorney do not disclose manifest inequity.

The following documents were distributed to the Regents with the agenda for this meeting and are also attached hereto as Exhibit C:

8. A memorandum from Dr. Jerome C. Weber, Dean of the University College, to Provost Wadlow dated June 1, 1987 in which he recommends the disciplinary sanction to be imposed on Mr. Reynolds as a result of academic misconduct.

9. A memorandum from Professor Robert F. Petry to Assistant Dean Dorothy Higgenbotham, College of Arts and Sciences, dated May 7, 1987 reporting incidents of cheating.
President Horton recommended the Board of Regents review the materials presented and decline to review the decision of the Provost. In the event his recommendation is denied, President Horton also recommended the Board consider the matter for manifest inequity at this meeting.

Regent Imel commented on the preliminary discussion of this agenda item which took place at the Committee meeting yesterday. He said this morning the first issue to address is whether or not this Board of Regents chooses to consider the appeal and he restated President Horton's recommendation. He said the first thing for the Board to do is decide whether or not it wishes to decline to hear the appeal.

Regent Hogan moved approval of President Horton's recommendation that the Board of Regents review the materials presented and decline to review the decision of the Provost. She said "it is not a happy thing at all to have to support that but I feel like in good conscience for the other students involved that we must. These are the rules of our University and I have to support that". The following voted yes on the motion: Regent Hogan. The following voted no on the motion: Regents Imel, Kemp, Sarratt, White, Lewis, and Noble. The Chair declared the motion failed on a vote of six to one. He said this means, in effect, the Board has voted to consider the appeal and he suggested procedurally that each side would have 10 minutes to make a presentation and that the time can be used in whatever way they wish. Prior to the presentation of the appeal, however, the Chair declared a brief recess at 10:00 a.m.

The meeting reconvened at 10:14 a.m.

Mr. Ward called upon Dr. Joe Reynolds, the father of Joe Brett Reynolds, Mrs. Sharon Reynolds, mother of Joe Brett Reynolds, and Mr. Stanley Abel, Wrestling Coach. Dr. Reynolds commented on the outstanding character of his son, that he has never had a mar on his character until this occurred, he has been a good student and finished in the top 10% of his class of 900 from Moore. He said his son was making good grades at the time this occurred and he feels certain he would have passed this physics course if he had not asked someone else to take the test for him. Dr. Reynolds said he and Joe's mother ask that the Board consider leniency because his future may be dependent upon the decision today.

Mrs. Reynolds was unable to make any comments.

Coach Abel echoed the comments of Dr. Reynolds. He said Joe is a super kid and in his opinion deserves a chance. Coach Abel said Joe made a stupid mistake, and it was one he didn't need to make; he is a bright young man, he's never had a problem. Coach Abel commented in his opinion Joe Reynolds will never transgress in any area again, that he never has before. Coach Abel said Joe is one of the top wrestlers in the country through hard work, not by accident. Given this type of judgement, however, Coach Abel said he would not be
eligible again at this University. Anything more than a semester of penalty, he said, is going to cut him completely out of his wrestling because it would really be two years before he would have a chance to be considered - he will have to sit out a year after the penalty is up before he can regain his eligibility.

The Regents asked Coach Abel a number of questions regarding the suspension and Joe's eligibility to compete. Coach Abel indicated that when a student is suspended that OU will not accept any hours taken during that time as credit for graduation. He said also the NCAA demands the student have 12 hours per semester or 24 hours a year to maintain eligibility and it must be consecutive. In response to questions, he indicated that if Joe had a year's expulsion he would have one year left after he was eligible to wrestle again; that he would in effect lose two years. Coach Abel said he has already wrestled one year but that at his request Joe agreed to red shirt during last year. He said Joe did not want to red shirt and his parents didn't want him to red shirt but because Coach Abel asked him to he voluntarily gave up the year. Coach Abel said if he had not asked him to red shirt last year that Joe would have that year available to use during the expulsion period. He feels very responsible that the red shirt option is not available at this time.

Regent Imel commented that the Board has to consider the overview, that every student in the University is watching what happens, that cheating is a big concern to the Board of Regents, to the faculty, and the integrity of the University must be maintained. He said the fact that Joe Reynolds is an athlete puts an added burden on the situation because students have the feeling sometimes that athletes have special consideration.

Mr. Ward also called Joe Brett Reynolds. Mr. Reynolds said he knows what he did is very, very wrong and he can't go back and change it but he knows it has changed his life and he looks at everything in a different perspective now. He thinks most students who are expelled for cheating don't want to come back as much as he does. He's sure that others would not let the media come in and embarrass them and put the label on them as being a cheater just to come back to The University of Oklahoma. Mr. Reynolds said he may be wrong but he's fighting to get back into The University of Oklahoma.

Mr. Ward said he certainly appreciates the need to keep the academic integrity of the University intact; no one condones cheating. What is being discussed today, he said, is the harshness of the sanction that should be imposed. Mr. Ward called attention to the fact that in his original letter he asked that Joe be expelled for one semester. He acknowledged the fact that Mr. Reynolds will have an F in the course, that he will have a permanent notation on his transcript of this incident and he asked the Regents to examine the facts very carefully without suggesting for a moment the University is being asked to compromise its standards with reference to academic integrity. Mr. Ward said he thinks that Joe has learned from this problem, that he's grown as an individual, and that is part of the total learning experience. If the Regents are not inclined to go along with the one semester requested, he suggested the possibility that his penalty not exceed this fall semester and the spring semester of
1988 so that he would be eligible at the very least to enter the summer session in 1988 and would be able to pick up the maximum number of hours in the summer. With an intersession and the fall semester that would give him 24 hours credit so that he can compete athletically during the winter of 1989 and the full academic year following. He said this, in essence, would give him an opportunity to compete in the Big Eight championships and the NCAA championships for two consecutive years.

Provost Wadlow said she would essentially make three points as follows:

1. She believes that her decision was an equitable one.

2. She believes her decision already includes the element of leniency in that it indicates the University is willing to give consideration to a second chance after two years.

3. If we go further in leniency to the semester or to the year which Mr. Ward has just indicated, Dr. Wadlow said the standards of academic integrity of the institution will be compromised; that is, we would be saying that the differentials that are specified in the Academic Misconduct Code no longer exist. She said the two offenses of Mr. Reynolds are among the six which are the worst cases of cheating that a student can do. If you change to a one semester or one year expulsion and allow readmission, that is putting it in the same category of lesser categories of cheating for which a student is suspended for a semester or a year. She believes this would then create manifest inequity.

Provost Wadlow reviewed why she believes the punishment in this case is equitable. She reviewed the six most serious offenses listed in the Academic Misconduct Code. She said Joe Reynolds has engaged in not one but two of these and either one by itself would warrant indefinite expulsion. She also commented that the expulsion is consistent with the other 28 cases of expulsion over the past seven years and as a matter of fact, most of those were for only one of the six serious offenses and Mr. Reynolds has two. She also commented further on her belief that leniency has already been reflected in her decision. That leniency, she said, was based on Mr. Reynolds' written admission that he had cheated.

Dean Hemenway said he appreciated the opportunity to share a Dean's perspective on this matter. He said it is particularly difficult for him because he believes the real business of the University is to graduate students and not to expel them; he cares a good deal about this student and about his parents. Dean Hemenway said he also was in favor of expulsion as was Dean Jerry Weber who concurred in this recommendation but is out of the country at this time. He said the Academic Misconduct Code states explicitly in writing that expulsion is the appropriate response in cases of this kind so he thinks the
only question is the harshness of the penalty. He said the harshness of the penalty was considered very carefully by both deans in this situation. He is aware, however, that expulsion for two years is not harsh since all 28 other students who committed similar offenses of this magnitude received penalties that were as harsh or harsher than Mr. Reynolds. As a matter of fact, he said, 26 of the 28 did not have the option of returning to the University no matter how much they wanted to. From his perspective then, he said, the only other factor in this case is whether Mr. Reynolds should be treated differently from the other 28. He said it was suggested at the Committee meeting yesterday and has also been suggested again today that athletic eligibility should be one thing that is considered. Dean Hemenway admitted that this is not something that he has considered up to now. The student's contrition, the student's character, the student's willingness to admit to the crime, all of these things, he said, were considered and the effect was to conclude that a two-year expulsion was appropriate. He said if as deans when they make these decisions and try to determine an appropriate penalty that takes into account everything about the student and they have a student who does not have athletic eligibility to offer as a mitigating factor, what other factors should they consider. Dean Hemenway said it is his belief that in order to maintain the standards that have been expressed in the written Academic Misconduct Code, the standards that are maintained by faculty and students who believe in the integrity of the University, that this punishment is appropriate.

In response to questions from the Regents, Provost Wadlow indicated that the student certainly can go to any other school if a school will admit him. No course work taken any place while a student is on suspension from The University of Oklahoma will count here, however. Provost Wadlow also reviewed the various sanctions available when cases of academic misconduct are discovered.

Regent Sarratt commented on the fact the faculty member apparently knew about the situation beforehand and "it's in the back of my mind that if we knew this we're trying to teach young men and women what to do before they do it, not after they do it. We don't want to put them in jail and say, hey, you did something wrong". Provost Wadlow commented that in addition to what the University does with student orientation and in all of the literature, Professor Petry took an additional step and included in his syllabus distributed to students that any case of premeditated cheating will result in an F in the course and a recommendation to the Disciplinary Board that the student be expelled from the University.

Regent Imel said the Board has heard the appeal and a motion can be made as to the action the Board should take based upon what is believed to be the appropriate penalty under these circumstances. Regent Imel said his perception is that it would appear the young man may or may not go back to school if the two-year penalty stands because he has the desire to compete athletically. If the punishment is changed to one year, then he does have a chance and that gives him an opportunity to salvage some of what would be both an academic career as well as an athletic career. Regent Imel said he believes it would
still maintain the integrity of the system but by the same token it would also put a great deal of responsibility on this young man's shoulders to complete his academic and athletic career even though he has lost part of it. He said the Regents have to judge each of these cases that come before them on an individual basis and that he does not regard it as a matter of sympathy and sentiment. He expressed the feeling that a one-year expulsion and giving him an opportunity to be readmitted in the summer of 1988 would give him a goal to achieve and allow him to salvage something from what is a very, very unfortunate circumstance. He commented also that the next case that appears before this Board might or might not receive that kind of consideration.

Regent White commented he's been on the Board for 10 years and this is one of the most difficult decisions for him to make. "There is probably no one who has any more concern for the academic integrity of this University than I have. I think that's what we stand for, it's what we have to care for." Dr. White said it is a very difficult situation and in this particular instance the student is guilty and has admitted the guilt and he feels like he should be punished. He asked to go on record that whatever way he votes has nothing to do with whether or not a person is a student athlete and it should be known he is being considered on the merits of his character and the extent of the punishment for a crime that he committed here. Regent White said many people made errors at age 19 and many after that age. Sometimes the punishment can be so severe in certain cases that it can totally change a person's life. Regent White said he thinks punishment should be administered but in his personal opinion he feels one year out is appropriate and that two years is probably too harsh in relation to everything here.

Regent Lewis said that she has been on each side of the fence - as an administrator in student affairs, as a parent, as a student, as an instructor - and this is one of the most painful experiences she has had because she sees a lot of good in this young man; however, she said the integrity of the University is at stake, at stake in more areas than one, and she believes the Board must consider that concern. She said her prior vote to hear the appeal was because everyone is due due process but each Regent must measure what they hear in the way that they feel is best. She said she wants to be sure that at all times everyone has a right to be heard and that's what she wanted to do today.

Regent White moved that the punishment be amended to one year and that the student be eligible for consideration for readmission in the summer of 1988. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, and Noble. Regents Hogan and Lewis voted no. Regent Imel announced the motion passed on a vote of five to two.

Regent Imel commented to Mr. Reynolds that he is very fortunate and he hopes that he will use this opportunity to re-establish himself and to carry forward and to be a useful citizen.

Regents Kemp and White retired from the meeting briefly.
CONTINUING EDUCATION AND PUBLIC SERVICE FEE INCREASES

Increases in program fees are proposed for the following:

Bachelor of Liberal Studies and Master of Liberal Studies

This proposal reflects a percentage of increase for the total program fees in each program which approximates the increases of credit hour fees over the past three years for conventional programs. The amount of those fee increases is based on the increased faculty and service needs to provide the degree programs. The last increase was in the fall of 1985.

Correspondence Enrollment Fee

This increase is necessitated by the need to increase faculty compensation for grading and developing courses; increased costs of supplies and postage; and payment of additional staff (enrollments have increased 31% since 1984, but there has been no increase in staff). The last increase in fee was in the fall of 1982.

Doctoral Language Proficiency Examination

A new fee of $15.00 is needed to cover the costs involved in administration, grading, and recording of the Language Proficiency Examination for doctoral students. The examination is required for doctoral students in certain programs to demonstrate language proficiency as a research tool.

President Horton recommended approval of increases in fees shown above and the approval of a new fee to administer the Doctoral Language Proficiency Examination, all to be effective July 1, 1988.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

Regent Kemp returned to the meeting.

Letters of explanation from the Graduate Student Senate Chair and Chair of the Graduate Senate Ways and Means Committee and from the Chair of Student Congress were distributed to the Regents with the agenda for this meeting along with copies of the Omnibus Appropriations Acts. The budgets also were discussed at the Committee of the Whole meeting on Wednesday.

The appropriations proposed were approved by UOSA President Terry Carr and Vice President Anona Adair.

President Horton recommended approval of the lump sum UOSA appropriation for Student Congress in the amount of $252,000 as presented. He recommended also approval of the lump sum appropriation in the amount of $26,208 for the Graduate Student Senate contingent on another positive vote by that group on their Omnibus Appropriation Act at a meeting on October 21.

Regent Sarratt moved approval of the recommendations. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.
Regent White returned to the meeting.

President Horton recommended approval of the administrative and professional personnel actions shown above.

Regent Sarratt indicated he would like to discuss the Executive Assistant to the President position and moved the Board meet in executive session for a discussion of personnel. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved. The Regents, along with President Horton and Mrs. Tuttle, retired to the small conference room for an executive session beginning at 11:00 a.m.

The meeting reconvened in regular session at 11:52 a.m.

Regent Noble moved approval of President Horton's recommendation on the administrative and professional personnel actions. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

PURCHASE OF TRUCK-MOUNTED AERIAL LIFT

Bids were recently circulated for an aerial lift unit and support truck for use by the Norman Campus Physical Plant. The aerial lift has a seventy-foot height to provide access to upper floors of University buildings by the various maintenance trades, especially for painting, tuckpointing and miscellaneous repairs.

The aerial lift requires fewer manhours than setting up scaffolding or swing stages and can be placed far enough from buildings to avoid damage to landscape plantings adjacent to buildings.

Funds are available from Physical Plant account 147-201.

Bids were received as follows:

*Perfection Equipment Co. bid a Lift-All unit which does not meet specifications for bucket capacity (460 lbs. versus 700 lbs.). More time is required to raise and lower Lift-All, with consequent loss of productive time of workers. Bid did not include references and did not have point-by-point response to specifications.
President Horton recommended that the Board of Regents approve the award of purchase orders to the UEC Equipment Company in the amount of $53,816.00 for an aerial lift and to Pete Eischen Chevrolet in the amount of $17,249.00 for a truck on which the lift will be mounted for a total purchase of $71,065.00.

Regent Lewis moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

PURCHASE OF MOBIL THERMODYNAMICS LABORATORY EQUIPMENT

The University has been pursuing an opportunity to acquire a significant amount of new and used laboratory equipment for installation in the Energy Center to support research and academic programs in the Schools of Petroleum and Chemical Engineering. This acquisition will outfit and make possible the establishment of the MOBIL Thermodynamics Laboratory in the Energy Center. Contacts by Dr. Roy Knapp, Director of the School of Petroleum and Geological Engineering, with Mr. Harry Wilchester have resulted in the opportunity to purchase such equipment. Mr. Wilchester had assembled a significant amount of such equipment as a result of his ownership of Energy Labs, Inc. Since Mr. Wilchester is now retiring, he is willing to sell his equipment to the University for the purpose of outfitting the MOBIL Laboratory.

The equipment consists of 35 line items of pumps, valves, gauges, measurement devices, viscometers, collectors, furnaces and related items, plus one lot of miscellaneous laboratory supplies, fittings, valves, carts, jacks, etc. All of the equipment is in "like new" or excellent condition. The value of this equipment is conservatively estimated at $335,000. Mr. Wilchester has offered to sell the equipment for $87,500.00 and has signed all the required bid documentation accordingly.

The funds for the purchase will be provided by OU Foundation Account 3-1011, MOBIL Thermodynamics Laboratory.

President Horton recommended that the Board of Regents approve the award of a purchase order in the amount of $87,500.00 to Mr. Harry Wilchester.

Regent Kemp moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

President Horton recommended that the Board of Regents approve the award of a purchase order to Vater's, Inc. in the amount of $39,545.79 for furniture for the Carl Albert Center.

Regent Kemp moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

UPGRADE OF COMPUTER SYSTEM

The extensive use of the Alliant Multi-Processor Mini-Computer, which was purchased with MOST funds one year ago, requires an upgrade of the memory and disk drive components. Since the upgrade can only be obtained from Alliant, the manufacturer of the system, a single bid was issued. The bid provided for a trade-in of existing memory and one 379MB disk drive.

The cost of the purchase will be charged to Account 157-200, NSF Experiment to Stimulate Cooperative Research (EPSCOR).
The bid was received from Alliant Computer Corporation, Tulsa, as follows:

President Horton recommended that the Board of Regents approve the award of a purchase order in the amount of $41,170.00 to Alliant Computer Corporation for the purchase of additional cache memory and disk drive storage.

Regent Kemp moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

PROPOSALS, CONTRACTS, AND GRANTS

A summary of proposals for contracts and grants for the Norman Campus for August, 1987 was included in the agenda for this meeting. A list of all contracts executed during this same period of time on proposals previously reported was also included.

President Horton recommended that the President of the University or the President's designees be authorized to execute contracts on the pending proposals as negotiations are completed. He said the budget contracts may differ from the proposed amounts depending on these negotiations.

Regent Lewis moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, White, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

President Horton called attention to a grant award received this month by Dr. Wanda E. Ward in the amount of $49,500 from the U.S. Department of Education's Minority Institutions Science Improvement Program. This grant will fund a two-year project under which Dr. Ward and other OU faculty members will develop and conduct a program designed to improve research skills in undergraduate students from a minority institution with the objective of increasing their likelihood of pursuing graduate education successfully. Dr. Horton said this program addresses the nationally recognized problem of under-representation of minorities in higher education. This award will be the first major award from an external funding agency to be conducted under the Center for Research on Minority Education since the Center was established last year.
In response to a question from Regent Lewis, President Horton asked Dean Hemenway to comment on the grant he recently received in the amount of $53,000 entitled The Powerments of Literacy. Dean Hemenway said this is a grant from the Ford Foundation which will enable the University to put together two pilot programs to see how to integrate political science, history, and freshman composition into one coherent course. He said they will be running two different pilot experiments and hope to be able to identify effective ways to do this. He said they will then disseminate the information obtained to all of the institutions in Oklahoma since all of the institutions are required to teach these same courses, and also to institutions nationally. President Horton commented that this is an area that dovetails with some of the activities going on in the Task Force on General Education Requirements and was a very competitive grant.

Regent White retired from the meeting.

L. DALE MITCHELL BASEBALL PARK BATTING CAGES

In order to permit the University baseball team to have an all-weather batting practice facility, a project has been proposed by the Athletic Department which would enclose the existing outdoor batting cages at the L. Dale Mitchell Baseball Park with a pre-engineered metal building.

The structure will be approximately 80 feet wide by 110 feet long, with an approximate ridge height of 24 feet and an eave height of 16 feet. The project will include the metal building, reinforced concrete footings, several personnel doors and overhead service doors, and a ridge ventilator. Several additional features to upgrade the facility are proposed, including electrical service to the building, interior lighting, interior exit signage, emergency lighting, electrical outlets, forced air ventilation, wall insulation, and interior finishes.

The project cost of the facility is estimated to be approximately $120,000. This figure includes the construction of the facility, a construction contingency allowance and architectural fees. Funds required for the project are available from the Athletic Department.

President Horton recommended that the Board of Regents (1) approve the establishment of a project to enclose the existing batting cages at L. Dale Mitchell Baseball Park with a project cost of $120,000, and (2) authorize the administration to proceed with the architectural selection process and the development of plans for the project.

Regent Kemp moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.
President Horton commented that the Athletic Department is anticipating that this project will come in at a level lower than $120,000. If it does not, the Athletic Department may make a decision not to proceed with the project.

**ATHLETIC DINING HALL RENOVATION**

The Athletic Dining Hall is in need of major renovation and refurbishing in order to repair the facility and provide new furniture. The facility requires general renovation to bring the facility up to current life safety codes and standards. It requires improvements that include the replacement of outmoded kitchen equipment, serving lines, counters, furnishings and fixtures in order to serve student athletes in a shorter time period.

The Athletic Department currently has funds available for the project. These funds will be provided by the Beef Club and will be specifically identified for the Dining Hall renovation and improvements.

President Horton recommended that the Board of Regents: (1) approve the plan to renovate and improve the Athletic Dining Hall at an estimated project cost of $500,000 and (2) authorize the administration to proceed with the architectural selection process for this project.

Regent Kemp moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

**OKLAHOMA MEMORIAL STADIUM SEATING DECK REPAIR**

At its meeting on April 9, 1987 (page 19600), the Board of Regents authorized the University administration to proceed with the preparation of final plans and specifications for needed repairs to the seating deck of the east side of Oklahoma Memorial Stadium at a project cost not to exceed $400,000 and to advertise the project for bids.

Bids were received on April 30, 1987 from five bidders. The lowest bid was received from L.F. Downey Construction, Inc. of Edmond, Oklahoma, which submitted a net base bid of $233,675.00. Also included with this bid was a series of unit prices for additional work the extent of which could not be determined accurately but which would be needed to complete the project. These unit prices were accepted, along with the base bid, by the Board of Regents at their meeting on May 14, 1987 (page 19746).

In view of the critical time schedule for the stadium repair work and the uncertain scope of the additional work, the Board of Regents at the June meeting (page 19804) authorized the President or his designee to authorize L.F. Downey Construction, Inc., the contractor for the project, to undertake additional work, if required, to repair damaged concrete on the project.
All of the work included in the scope of the contract with L.F. Downey Construction, Inc. for repair of the east side of the stadium has been completed. A final inspection of the project was held on August 18, 1987, by representatives of L.F. Downey Construction, Inc., the general contractor; Cornforth Associates, the project engineers; and The University of Oklahoma. All punch list items that were identified have been completed.

In a letter dated August 25, 1987, Mr. R.C. Cornforth, the project engineer, stated, "In our opinion the structural repairs that were addressed under the Oklahoma Memorial Stadium Seating Deck Repair Project in 1987 have been adequately completed by L.F. Downey Construction, Inc. and the east stadium structure may be safely occupied as of this date".

On September 28, 1987, Cornforth Associates submitted a final report on the actual extent and cost of the additional work performed by L.F. Downey Construction, Inc. The original contract sum, which did not include an estimate of the cost of the work to be performed under the unit price provisions of the contract, was $233,675. The cost of the additional work performed by L.F. Downey Construction, Inc. and certified by Cornforth Associates Engineering is $147,970. This additional amount brings the total cost of the repair project including all engineering fees and other expenses to $462,000.

Funds required for this project are available from The University of Oklahoma Stadium Revenue Bonds, Series 1979, Special Reserve Fund.

President Horton recommended that the Board of Regents approve final expenses for the Oklahoma Memorial Stadium Seating Deck Repair project of $462,000, accept the project as complete, and authorize final payment to L.F. Downey Construction, Inc.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

LLOYD NOBLE CENTER INTERIOR REPAIRS

A final inspection of a part of the work included in the Lloyd Noble Center Interior Repairs project was held on August 8, 1987. This part of the project involved the removal of the existing worn upholstery on the padded theater seats in the building, the replacement with new upholstery, and the repair and refinishing of arm rests.

The project was completed by Hoover Brothers, Inc. at a final cost of $67,901. The costs associated with this project were paid from The University of Oklahoma Student Facilities System Revenue Bonds, Series 1979 Special Reserve Fund. A final punch list has been prepared and presented to the contractor for his correction. All outstanding items of work will be completed before the final payment is made.
President Horton recommended that the Board of Regents accept a portion of the Lloyd Noble Center Interior Repairs project as complete and authorize final payment to Hoover Brothers, Inc., following the completion of all punch list items.

Regent Noble moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

LAW CENTER - UTILITY SYSTEMS IMPROVEMENTS

A final inspection of the work included in the Law Center Utility Systems Improvements project, which was completed as a part of the Utility Systems Improvements Project, was held on September 16, 1987, by representatives of R&M Mechanical Contractors, Inc., the contractor; C.H. Guernsey and Company, the project engineer; and the University. With the exception of minor punch list items, the work is complete.

The final cost of the work performed by R&M Mechanical Contractors, Inc. is $338,363. This project has been accomplished using funds obtained from the sale of bonds for the Utility Systems Improvements Project. Final payment will be made after all outstanding items of work have been completed and all University requests for reimbursement have been received.

President Horton recommended that the Board of Regents accept the Law Center Utility Systems Improvements as substantially complete and authorize final payment to R&M Mechanical Contractors, Inc. upon completion of all remaining punch list items and the settlement of all requests for reimbursement.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

LAND AGREEMENT

The University has been working with the Board of Trustees for the new Oklahoma School of Science and Mathematics on possibly locating this school on the Norman Campus. The site could be located either on the North Campus near Highway 77 or the South Campus near Jenkins and Highway 9 dependent upon the choice of the Board of Trustees. This school would house 300 of the most talented high school seniors in the State of Oklahoma. There are presently four cities in Oklahoma being considered, including Norman. The Board of Regents has been requested to make the University sites available and to negotiate an agreement in the event that Norman is chosen as the location for the new school. The size of the site will be negotiated between the University and the Board of Trustees.
President Horton recommended that the Board of Regents authorize the President or his designee to negotiate an agreement on one of two sites, one on the North Campus and one on the South Campus, under consideration for the new Oklahoma School of Science and Mathematics, with the Regents to have final approval of the agreement.

Regent Sarratt moved approval of the recommendation. The following voted yes on the motion: Regents Imel, Kemp, Sarratt, Hogan, Lewis, and Noble. The Chair declared the motion unanimously approved.

President Horton stated that this is a decision regarding land on the Norman Campus in the event the School is located here. He pointed out that OU is supportive of the Oklahoma City project as well and is moving with both groups in terms of this high school.

There being no further business the meeting adjourned at 12:07 p.m.

Barbara H. Tuttle  
Executive Secretary  
OU Board of Regents  
660 Parrington Oval, Room 119  
Norman, OK 73019  

Dear Barbara:

I was somewhat surprised and taken back by your August 31, 1987 letter. As your file will reflect, I sent a letter to President Horton dated August 11, 1987 and copied you with that letter. In the first full paragraph on page 2 of that letter I specifically requested that the matter be placed on the September Regents' agenda for consideration in the event that President Horton's decision was to uphold the action taken which has resulted in the two-year expulsion from the University of Oklahoma of Joe B. Reynolds. Furthermore, I reiterated the position of my client in a letter to you dated August 26, 1987. In that particular letter, I further requested that the matter be placed on the Regents' September 1987 agenda. In that first full paragraph of that letter I stated: "Should, however, the President rule favorably on this matter before the Regents' meeting, it will not be necessary to present the appeal."

Unless the Open Meeting Act has been changed concerning the placing of matters on the Regents' agenda, there is still ample time to put this matter on the agenda for September review by the Regents.

The documents that should be included in the packet to the Regents are as follows:

(1) The letter to Mr. Reynolds dated June 23, 1987 from Provost Joan Wadlow. A copy is enclosed for your reference and review.

(2) My August 11, 1987 letter. You are in possession of a copy of that letter.

(3) My August 26, 1987 letter. You are in possession of a copy of that letter.

(6) Your letter to me dated August 31, 1987. You are in possession of a copy of that letter.

(7) This instant letter.

If there are other documents that the administration desires for the Regents to have, I am sure that they will also be included in the packet of materials.

It is difficult for my client to understand why he is being denied a timely appeal to the governing board especially when request was made approximately 30 days before the September Regents' meeting.

Sincerely yours,

Stanley M. Ward

Dear Mr. Reynolds:

I regret to inform you that after having reviewed the materials and recommendation sent by Dean Jerome C. Weber, I am expelling you from the University of Oklahoma effective immediately. This expulsion results from your having another student take the final examination for you in Physics 2414-10 during the Spring 1987 semester. This misconduct was compounded by your aiding in the falsification of a student identification card in an effort to conceal the misconduct.

An alternative disciplinary recommendation involving University service was reviewed carefully. However, due to the seriousness of the charges, especially the falsification of a student I.D., the alternative was not judged to be appropriate. Your acts of academic misconduct are among the most culpable offenses possible and expulsion is warranted for either offense. To impose a sanction less than expulsion for these multiple offenses would require similar handling of other serious singular acts of academic misconduct and would thus diminish the integrity of the Norman Campus Academic Misconduct Code.

In accord with Appendix 10.2(d) of the Academic Misconduct Code, the notation of your expulsion for academic misconduct will be made on your transcript and will be a permanent notation.

The consequences of academic misconduct can be very costly. It is my hope that your expulsion will also lead to changed behavior and character development to enable you eventually to complete your academic studies in an honorable manner. If you should be reinstated to the University of Oklahoma after this expulsion, it only will be after a complete reconsideration of your case. In this regard, I am accepting Dean Weber's recommendation that after two years you be allowed to make application for a review of your circumstances for possible readmission to the University. This, however, does not imply automatic readmission to the University; your request for readmission will be carefully reviewed to determine whether readmission is advisable. The earliest you may petition the Provost for reconsideration for readmission will be the Fall 1989 semester.

Finally in accord with Appendix 9.2 of the Code, the grade penalty of "F" for the course is being imposed.

Re: Mr. Joe Brett Reynolds  

Dear President Horton:

My client, Joe Brett Reynolds, has retained me to appeal his expulsion from the University of Oklahoma which became effective June 23, 1987, as a result of academic misconduct involving the taking of a final examination in Physics 2414-10 during the Spring 1987 semester. A copy of Provost Wadlow's letter to Mr. Reynolds dated June 23, 1987 is enclosed for your reference and review.

Mr. Reynolds does not deny the academic misconduct which resulted in his expulsion from the University. Both he and his family are embarrassed and deeply regret the misconduct which resulted in this expulsion. He fully understands the gravity of his misconduct and the need for the University of Oklahoma to protect its academic integrity.

Mr. Reynolds' father is a graduate of the University of Oklahoma and has supported its programs over the years. It was his dream and Joe's dream for Joe to attend the University of Oklahoma, compete as a member of its varsity wrestling team, and to graduate from this institution. As a high school student at Moore High School, Joe was a very good student and had a 2.7 grade point average at the University of Oklahoma before the incident occurred which resulted in his expulsion. Both Joe and his father have indicated that the incident of misconduct was totally uncharacteristic of this young man. Once he was apprehended, Joe waived a hearing, admitted his guilt to Terry Newkumet, and was completely open and honest about the situation. From what I observed, he has demonstrated candor and contrition and sincerely regrets this incident.

Joe does not believe that he should be immediately reinstated as a student at the University of Oklahoma. However, he does feel that the expulsion for a period of 2 years is unduly harsh and for all practical purposes makes it impossible for him
to graduate from the University of Oklahoma. He is requesting your consideration as the Chief Executive Officer of the University of Oklahoma to modify the penalty which has been imposed. Specifically, he is requesting that the expulsion be limited to the Fall 1987 semester and that he be readmitted for the Spring 1988 semester.

Your consideration of this request is respectfully requested and because of the shortness of time, Mr. Reynolds further requests that this matter be placed on the September Regents' agenda for consideration in the event that your decision is to uphold the action taken which has resulted in the 2-year expulsion from the University of Oklahoma.

I can personally assure you that Mr. Reynolds is fully cognizant of the gravity of the situation and that he knows that the University does not take lightly academic misconduct. His expulsion has been extremely embarrassing to his family, friends, and to him. He sincerely regrets that it has happened and is asking for a second chance to demonstrate that he is a good citizen who can perform in accordance with all the rules and regulations of the institution.

Sincerely yours,

Stanley M. Ward

Re: Appeal of Joe Brett Reynolds  

Dear Mrs. Tuttle:  

As your file will reflect, I sent a letter dated August 11, 1987 to President Horton concerning Joe Brett Reynolds and copied you with that letter. As of August 26, 1987, I have not had a response from the President's Office. Because of the shortness of time involved, I respectfully request that this matter be placed on the Regents' September 1987 agenda for review, consideration, and determination. Should, however, the President rule favorably on this matter before the Regents' meeting, it will not be necessary to present the appeal.  

I assume that I will have the opportunity to present this matter to the Regents at the committee meeting. Accordingly, will you please advise me as to the time, date, and place of the committee meeting. Furthermore, if there are any additional materials or information that you would like to include in the Regents' packet, will you please kindly advise me.  

Thank you very much your anticipated cooperation in causing this matter to come to the attention of the Board of Regents.

RE: Joe Brett Reynolds

Dear Stan:

President Horton asked me to respond to your letter of August 11. As you may know, Dr. Horton was on vacation for a couple of weeks and was unable to review the situation as early as he might otherwise. I am not certain whether he has decided in his own mind whether to grant Mr. Reynolds some relief or not. In any event, consideration has come too late to place it on the agenda for the September Regents' meeting. Typically in these cases, the appellant is asked to present some written statement as to why the appeal should be considered and/or granted. Barbara Tuttle may send you some correspondence to that effect. If you have any questions about this, please give me a call.

Yours truly,

Kurt F. Ockershauser

Mr. Stanley M. Ward  
Attorney at Law  
Parkway South, Suite 103

Dear Stan:

After reviewing your letter of August 11, 1987 and the facts of the academic misconduct charges against Mr. Reynolds, I regret to inform you and Mr. Reynolds that I am denying your appeal of his expulsion.

The facts of the case are as follows: Mr. Reynolds arranged for another student to take his final examination in Physics 2410-10 during the Spring 1987 semester. Other students in the class had observed that Mr. Reynolds had not taken one of the earlier exams in the course and brought this to the professor's attention. The professor, thus, decided to check for student I.D.'s at the final examination. When Mr. Reynolds' substitute at the final exam did not have his student I.D., he was told to bring the I.D. to the professor's office by 5:00 o'clock that afternoon. Mr. Reynolds did not come forward and admit his misconduct; rather, he helped the student obtain a false student I.D. which was presented to the professor shortly before 5:00 p.m. The professor confronted the substitute with pictures he had obtained of both Mr. Reynolds and the substitute. The substitute then admitted the misconduct. This occurred on May 4th. The evidence of misconduct was irrefutable, and Mr. Reynolds admitted the charges on May 21st. He also admitted he had arranged for the substitute to take an earlier exam for him in the course.

Any one of the academic misconduct acts admitted by Mr. Reynolds and his friend would justify expulsion from the University according to Appendix 10.2(d) of the Norman Campus Academic Misconduct Code. That section provides:

Termination of student status for an indefinite period, usually intended to be permanent. A notation of expulsion for academic misconduct shall be made on the student's transcript. Such notation shall be a permanent notation. If a student is reinstated after an expulsion, it is only after a complete reconsideration of his or her case. The sort of academic misconduct which might result in expulsion might be a case in which:
*the student has been involved in a prior incident of academic misconduct;
*forged documents such as transcripts have been submitted to the University;
*a student has taken someone else's examinations or arranged for someone else to take his/hers;
*commercial term papers have been submitted;
*examinations, grade books, grade sheets, or other instructor possessions have been stolen, copied, or otherwise utilized;
*intimidation has been used in an attempt to influence the academic process. (emphasis added)

The multiplicity of the acts, their gravity, and their premeditated nature, underscore the appropriateness of the sanction of expulsion.

As indicated, Appendix 10.2(d) states that expulsion results in termination of student status, "usually intended to be permanent." That has been and will remain the usual result following grave and flagrant misconduct such as this. However, in view of the students' obvious academic capabilities, their admission of guilt, and their expressions of remorse, Provost Wadlow has agreed to consider Mr. Reynolds and his friend for possible readmission to the University after only two years. Contrary to your characterization, the Provost's willingness to accelerate consideration for readmission, seems lenient. Under the circumstances, I fully concur with the sanction of expulsion with possible (not automatic) readmission to the University after two years.

I am always saddened when academic misconduct leads to a student's expulsion from the University. However, if you still wish to ask the University Regents to review the appropriateness of this expulsion, please provide Mrs. Barbara Tuttle with a copy of the documents you wish to be reviewed by the Regents and she will make arrangements to bring this matter to the Regents' attention.

Sincerely,

Frank E. Horton
President

MEMO TO: Dorothy Higginbotham, Assistant Dean  
College of Arts and Sciences

MEMO FROM: Robert F. Petry  
Physics and Astronomy

I hereby report an incidence of cheating on the final examination in my course Physics 2414-10, Spring 1987. The incident occurred and was discovered on May 4, 1987, and involved two students, Joe Brett Reynolds (445-78-2317) and ——. Reynolds was legitimately enrolled in the class, was not. Also involved in the discovery were my graduate teaching assistant, John Goulden, and another teaching assistant who was helping us with the ID check, Wayne Trail. The sequence of events leading to the discovery are as follows.

Prior to the final exam I received an anonymous tip that Mr. Reynolds had paid someone to take one or more of the midterm exams in this course. In view of this I decided to check student photo ID's as the students turned in their exams. (I note here that neither I nor my graduate assistant John Goulden knew Mr. Reynolds by sight. This often occurs in a large class if the student does not interact with the instructors by coming to office hours or otherwise making themselves somehow conspicuous.) When —— turned in an exam with Reynolds's name on it, we asked for an ID and were told that he didn't have it with him. Of course at this time we did not know for sure that the student was not Reynolds. I told the student to go home and get his ID and bring it to my office by 4:00pm that day (it was then between 3:00 and 3:30pm).

No one came to my office until —— showed up at about 5:00pm. In the meantime we had learned that Reynolds was a member of the wrestling team and had obtained a brochure on the wrestling team that had both a team photo and individual photos identifying team members. All three of the witnesses (Petry, Goulden and Trail) identified —— as the exam taker. When he arrived —— presented to me a legitimate student ID with his picture and Reynolds's name and ID number on it. At that point I confronted him with the brochure, and he admitted that he was ——. Mr. Reynolds called me that evening at home, and I spoke with him the next morning in my office. He did not deny the charge. I have not inquired about nor have I investigated the charge that this type of cheating had occurred previously. I have no evidence that would either confirm or deny this charge.
I am submitting four pieces of evidence to accompany the above charge:

1. The exam paper turned in by Mr. [Name]

2. The photo ID presented to me by Mr. [Name]

3. The brochure on the wrestling team.

4. A photocopy of the receipt in Mr. Reynolds' name for a student ID issued on 5/4/87. The back side contains three signatures in the names of Reynolds. It turns out to be a rather simple matter to obtain such an ID on rather short notice, as can be checked with the Bursar's Office.

In addition, I or Mr. Goulden and/or Mr. Trail are available to testify in a hearing if that should be necessary.

As far as the course is concerned, I recommend that Mr. Reynolds be given a failing grade. I would further recommend that both of these students be expelled from the University for a period of one year, with future reinstatement to be decided only by individual petition. If it is possible, future reinstatement should be tied to some credit hour penalty on the credit hours already completed. I further recommend that both be barred from intercollegiate athletic competition if either or both should be re-admitted.

Respectfully submitted,

Robert F. Petry
Professor of Physics and Astronomy

Dear Stan:

This is in response to your letter of August 26 regarding the appeal of Joe Brett Reynolds. I also have a copy of President Horton's letter to you of August 28 in which he denies Mr. Reynolds' appeal. President Horton indicates in the last paragraph of his letter that if you still wish the University Regents to review the appropriateness of this expulsion to let me know.

The next meeting of the Board of Regents is scheduled for September 10. The agenda for that meeting, however, was mailed to the members of the Board on August 27. We are now mailing the Board agenda two weeks in advance of each meeting. As President Horton indicated, if you wish this appeal to be presented to the Board at the October meeting, please provide a copy of the documents you wish the Regents to review. The deadline for receiving items in this office for the October 15 meeting is September 25.

Sincerely,

Barbara H. Tuttle  
Executive Secretary of the Board of Regents

I am writing to recommend a disciplinary sanction be imposed on Mr. Reynolds as the result of an act of academic misconduct. Specifically, I recommend that Mr. Reynolds be expelled from the University of Oklahoma for having had another student take at least two examinations for him in Physics 2414, Section 10 during the Spring 1987 semester.

The original allegation regarding these circumstances was made by Professor Robert Petry of the Department of Physics and Astronomy. A copy of his original letter to Dean Higginbotham of the College of Arts and Sciences is enclosed for your information. While Professor Petry's allegation does not indicate the full extent of the academic misconduct involved, Mr. Reynolds admitted to me that the other student involved in this matter had taken an examination for him prior to the final examination when the substitution was discovered. However, Dr. Petry's letter also points out that in a deliberate attempt to maintain the fiction that Mr. Reynolds had taken his own final examination, he, along with the other student involved, obtained a false student identification card in an attempt to fool Dr. Petry.

Essentially, Mr. Reynolds is guilty of three separate acts of academic misconduct: On two occasions he had another student take examinations for him, and he aided in the falsification of University records. By any standards, any of these actions alone would warrant a recommendation for expulsion, and I feel fully justified in making this recommendation in this case.

In discussing these circumstances with me, Mr. Reynolds indicated strongly how badly he feels about these events and how concerned he is for his future. It is clear that expulsion has the most dire consequences for the student. Therefore, I would be willing to temper this recommendation with the additional recommendation that the University may wish to consider Mr. Reynolds' attitude and circumstances for the possibility of readmission in the future. However, I would strongly urge that no consideration for readmission under any circumstances be made before two years. This would mean that Mr. Reynolds could apply for a review of his circumstances for possible readmission no earlier than the Fall 1989 semester. I would also urge that Mr. Reynolds be fully informed that the University's willingness to consider such a possibility in no way guarantees his eventual
readmission. For your information, I am also enclosing a copy of a letter Mr.
Reynolds has written in which he apologizes for his behavior and indicates his
concern in this matter.

I would be willing to discuss these circumstances further if you should so desire.

TO WHOM IT MAY CONCERN:

MAY 13 1987

I, Joe Reynolds, would like to make an apology to my professor, Dr. Petry and the University of Oklahoma for my unacceptable behavior of cheating. The University has invested much time, money and effort in me and I feel like I have disgraced myself, the Athletic Department and the University. Therefore, I pray that you would consider an alternative route of disciplinary action whereby other students may realize the magnitude of cheating. In the past week it has come to my attention the number of students who actually cheat and/or make a profit from cheating. I would hope the University and the students, through myself, would benefit.

My proposal is that the University use this case in any way that they would see fit to magnify the moral consciousness I overlooked. These include making my case public knowledge to all students through the media and/or giving speeches to incoming students at any type of meeting the University could provide. By this proposal if accepted, the Athletic Department has shown favorable intent in allowing me the opportunity to talk to the athletic student body concerning this syndrome. I would also volunteer to speak to Dr. Petry's classes. In these meetings, I would stress the debasement I experienced and illuminate the terrible penalties of cheating that I do not believe most students realize. I would also stress that the time it takes to prepare to cheat and the risk involved can not compare to honesty and learning it yourself. Cheating in college means you don't learn and if you don't learn it may result in cheating in your business and career. I think students like myself need to realize this, and benefit from it. I would also be willing to make myself available for any kind of service that could help the University and/or Dr. Petry. I'd hope to have the chance to retake the physics course and reestablish myself as a competent and honorable student.

I understand that the crimes committed were very serious and that I could only hope to rectify myself through this proposal. I also understand that because of this incident that I have caused much more work for everyone involved and for this I am sorry. I hope that what I have proposed will be seriously considered so that I may be able to bring the severity of this incident to the attention of all students so that it may save them the embarrassment I have brought myself and others.

Respectfully,

Joe Reynolds
