A LUMNI of Oklahoma educational institutions will vote in the coming gubernatorial primary as jealous guardians of the interests of their schools.

FRANK BUTTRAM, candidate for the Democratic nomination, product of the rural school, the normal and the university of his state, has long wielded a powerful influence for educational progress.

THIS influence will be continued and infinitely widened if he is elected. And a vote for his nomination will be a vote for the further removal of state schools from politics.

BUTTRAM for Governor Club
