This is the second annual Oklahoma calendar published by the University of Oklahoma Press. Last year's calendar enabled thousands of Oklahomans to appreciate for the first time the scenic beauty of their native state. This year there are 56 entirely new pictures...from the golden oak, reproduced in full color, to our churches, schools, and historical points of interest. And there's an exciting picture of the "Big Red" in action on Owen field!

Prepare a list of your friends and relatives that will love these engagement-pictorial calendars and remember you for thinking of them. Order now and avoid the holiday rush. Don't be caught with too few—too late!
