The WHEEL...one of the greatest inventions of celltime!

Although crude and cumbersome, the first wheels invented were the forerunners of our civilization. Without wheels we would not have our modern factories, trains, automobiles, etc. Our way of life truly "runs on wheels."

Life insurance, although like the wheel, humble in its beginning, has become the hub of the family wheel. Over 100,000,000 members of American families enjoy the peace of mind which life insurance has to offer. To millions of widows and orphans, life insurance has become their "Wheel Of Life."

We of Bankers Service Life Insurance Company are happy to be a part of this great wheel.
