What Oklahoma Builds

Your faith in University National has enabled us to attain an outstanding growth record since our incorporation in 1956. At the present time we are licensed and doing business in eighteen states, stretching from Washington to Florida. Our original investors have seen their stock appreciate over 100% since our founding and our sales record in Oklahoma alone, as shown by the State Insurance Commissioner's report, is quite enviable.

In 1959, we led all Oklahoma domiciliary companies in net gain of Ordinary Life for the year and had a higher percentage of increase in Ordinary Life in Oklahoma than the twenty-five largest companies in the United States who sell in Oklahoma.
