TWA flew the first scheduled flight from the U.S. in 1946 to Paris. It took 19 hours and 46 minutes. Today it takes 7 hours. (Soon we'll barely have time to show you a movie.*) That first flight had 36 passengers. Now our jets carry 140, with in-flight entertainment on the way. And in the 1970's, we'll be flying supersonic jets to Paris in 3 hours! Year after year, we'll keep finding ways to let you know—we're your kind of airline.
