FOOTBALL DEMANDS

HEALTH

For 100% Food Value Demand "GILT EDGE"

Says Paul Young---

Have you been wondering what gives Paul Young his stamina and drive, why he's always in the game and gets most of the tackles? Then take a tip from us-

"Strong bones and teeth, sound muscle and tissue, physical energy and mental alertness; all come out of the milk bottle. That's why most really healthy people drink two glasses a day."

Doctors recommend milk as one of your essential foods. It contains most health-giving vitamins. When you order milk specify GILT EDGE pasteurized, because it's extra-flavored, and at the same time gives you milk in its purest form.
