ALL-AMERICAN CHOICE FOR 1940

One Thrilling Taste.... and you'll see why these NU-CREST FRUITS enriched with Dextrose are All-American favorites for Flavor, for Texture, for Appearance.

Distributed By

DEXTROSE IS AN "ALL-AMERICAN" SUGAR
Corn is America's greatest grain crop. Dextrose is derived chiefly from American corn, grown by American farmers. It is refined in American factories by American workers, and distributed by American companies. It is thus 100% American, and its production and distribution give employment to many thousands of workers.
