Congratulations...

PRESIDENT BRANDT

Taking the helm of any ship of education is in itself a difficult task...but taking it over with world events as portentous as at present is a double task. May we, as we did a short year ago, offer you a hand-clasp of praise as we then did of welcome. You have -wrought well in moulding the youth of Oklahoma to face a changing world.

SEMCO

has been a part of America's rise in the past year to a high point of effort toward the ultimate defeat of our enemies. Printing is a vital part of wartime economy...through it the needed forms for orders and records are produced...information disseminated...good will kept alive! May we help you with any printed problem?

B. L. SEMTNER, President
