Oh, Boy! Here come the Yanks!

From the sizzles and so of the desert to the frozen fastnesses of the North, that is the cry today... "HERE COME THE YANKS." They are winning on every front and they will continue to win with the kind of support every American is giving them. And, after the war is over they will come home to build a real peace. Printing is playing a huge part in the war effort and it will help to bring peace. Let SEMCO help you do your part.
