... They're counting on YOU to buy extra bonds. Let's all BACK THE ATTACK!

Your Place in the Line

Americans before the war were used to expecting "sudden service" on everything. While we are fighting a war, manpower is scarce and service in many lines of work is therefore not up to the pre-war standard. When you need repair work on your automobile, please remember that a great number of cars are wearing out and that the demands upon automobile repair shops are very heavy. Please plan to leave your car a reasonable length of time to have repairs made, and don't expect service ahead of someone whose car is already waiting.
