BATTLING THE SILENT KILLER
The war being waged at the Harold Hamm Oklahoma Diabetes Center is the next best hope for the alarming number of state residents who are at risk for the disease.

HAMM GIVES MORE THAN HIS NAME
The Enid oil man Harold Hamm is the diabetes center’s largest contributor, biggest promoter—and also one of its first 3,000 patients.

BREACHING THE BOUNDARIES
The collaborative learning environment envisioned by those who drafted the College of Engineering’s strategic plan was the impetus behind the new Devon Energy Hall.

GREAT EXPECTATIONS REALIZED
Joe Castiglione always has a plan. The one he unveiled 12 years ago to benefit each Sooner sport was audaciously ambitious—and, he has proven, totally achievable.

PHYSICISTS ON THE FRONTIER
Four OU faculty members are part of an international research program that seeks to push back the boundaries of scientific knowledge to the very origins of the universe.

A YEAR IN THE LIFE OF AMY CERATO
She could not have packed much more into the past year—prestigious professional honors, a White House reception, a new baby and narrowly missing a tornado.
