Silent Cal, Lash Twenties, But You Remember—
25 Years Ago

Want Ad: July 11, 1924 issue, Sooners Student, "The young lady who found the Kappa Sigma pin is known to the owner." Sports Stuff: Glenn Mead, '27ba, Norman, and member of the Varsity tennis squad, with Floyd Laird, '21-24, formerly of Ada, won the championship in the doubles in the University summer session tennis tournament," so said the July 15 Sooners Student. (Mead is now an accountant in Oklahoma City. The alumni office has no current occupation or address for Laird.)

Briefs: Josh Lee, '17ba, then head of the department of public speaking and now a member of the Civil Aeronautics Board, Washington, D.C., had a book, Public Speaking Manual, published.

Interesting Eyeball—"A Freckle Gives Its Views of the World's Trouble," appeared and attempted to do just what the title suggests. It was written by Mary Bouthell, '26ba. (Mollie Corbin married William Wallace and now resides in Fort Smith, Arkansas.)

Gossip: The Sunshine Register appeared on the lower half of the July 25 issue of the Sooners Student. It was an exact duplicate in size and format of the Student with the exception of the wording which read: The Sunshine Register, published for "Your Own Good." Volume Small, Scandalland, Tellittall, with the issue number titled, "Real Hot Number."
home demonstration agent in Comanche County, Lawton.

1929

Charles E. Wright, '47eng, is employed in the engineering department of Oklahoma Gas & Electric Company, Oklahoma City.

PARRISH-LAWS: Nancy Lee Parrish, Norman, and Samuel L. Laws, '47ba, Oklahoma City, were married May 12 in Norman. Mrs. Laws is a student in the University. Laws is associated with an Oklahoma City department store.

Dr. B. Ogden Young, '47med, has completed a year's training as Resident in Medicine at the University Hospitals, Oklahoma City and has accepted an appointment to the staff at Olive View Sanatorium, Olive View, California. His duties began July 1.

Howard Paul Foltz, '47ba, is the service department manager with the North American Accident Insurance Company in Oklahoma City. He is a member of the Junior Chamber of Commerce, the Knights of Columbus and Beta Sigma, law fraternity.

Clay Courter, '47eng, is an engineer with Dowell, Inc., at Levelland, Texas.

Trevia Joyce Lynn Henry, Jr., '47h.ec, is teaching sixth grade at American Elementary School in Yakohama, Japan.

Mary Anne Currie Nichols, '47h.ec, is teaching at Oklahoma City.

SOONER MAGAZINE . Membership which was paid with matriculation fees expires with the July issue of SOONER MAGAZINE . Membership dues for one year is $3.

Margaret Smallwood Stephens, '47h.ec, is a graduate student at the University of Oklahoma, Norman.

August graduates of the class of '48 should mail their Association Dues to the University of Oklahoma (Alumni) Association before September 1, 1949, for continuous membership in the Association.

Membership which was paid with matriculation fees expires with the July issue of SOONER MAGAZINE . Membership dues for one year is $3.

Claude Cluck, '48bas, is an accountant with General Mills, Inc., Oklahoma City.

Glenda Lou Clayton, '48bas, is employed with General Mills, Inc., in Oklahoma City.

CURRIE-AUGHTRY: Barbara Currie, '48bas, and Charles Edward Aughtry, '49, both of Oklahoma City, were married June 4 in St. Luke's Methodist Church in Oklahoma City. Mrs. Aughtry is an intern at St. Anthony Hospital. Aughtry is a student at the University. They have established a home in Norman.

Russell V. Johnson, Jr., '48egeol, is a junior geologist with the Mack Oil Company in Duncan.

Walter F. Blair, '48bas, '49bus, has accepted a position as accounting job analyst with the Shell Oil Company in Midland, Texas.

Eugene D. Rosen, '48eng, is now employed with the Industrial Engineering Division of the Naval Ordnance Laboratory, White Oak, Maryland.

Roy Edd Trout, '48, is a stenographer for the Sohio Oil Company in Oklahoma City. He was formerly a clerk for the General Electric Company.

MORGAN-MCMURRAY: Barbara June Morgan, '48bus, Oklahoma City, became the bride of Richard Dayton McMurray, Oklahoma City, in a ceremony performed June 1 in the First Methodist Church. McMurray is a student at the University. They have established a home in Oklahoma City.

FOX-HASSLER: Dorothy Fox, '48ed, Harviell, Missouri, and Ray Hassler, '43ba, Norman, were married May 28 in Memphis, Tennessee. Mrs. Hassler has been teaching school at Harviell. Hassler is an accountant with the Southwestern Bell Telephone Company in Oklahoma City. The couple has established a home in Oklahoma City.

Wayne Gaylord Montgomery, '48eng, is a sales engineer with the Aluminum Company of America in Cleveland, Ohio.

Talford Graham, '48chem, received his master's degree in chemical engineering at the University in the June ceremonies. He has been employed as a graduate assistant, an Alcoa Research Fellow and a counselor. He formerly worked for the Tennessee Eastman Corporation at Kingsport, Tennessee.

Gilbert L. Tierce, Jr., '48bus, is employed with the Arkansas Natural Gas Company in Shreveport, Louisiana.

James W. Bawcom, a senior in mechanical engineering at O.U., and Mrs. Bawcom, the former Jean Hansen, '48ba, are living in Oklahoma City. They are the parents of one child, Kenneth Jean Bawcom, born November 13, 1948.

Glenn F. Welch, '48eng, is with the Soil Conservation Service in Shawnee.

Charles F. Zalabak, '48ba, is employed by the National Advisory Committee for Aeronautics in Cleveland, Ohio.

George D. Bischoff, '48ba, has been employed in the purchasing department of the Raisdon Purina Company in St. Louis, Missouri, since last December.

Houston, Texas, were married June 11 in the First Presbyterian Church in Oklahoma City. The couple took an extended wedding trip through Northwestern states and Canada. They are at home in Houston.

CAYLOR-JOHNSON: Nila Jean Caylor, '49bs, Norman, became the bride of Zane Quentin Johnston, '47eng, Port Arthur, Texas, June 4 in Norman. The couple has established a home in Port Arthur. Mrs. Johnson is on the faculty at Robert E. Lee elementary school in Port Arthur.

President Speaks

The general objective of the research is to procure information which may lead to a greater production of fishes in all Oklahoma lakes and which may be applied even to obtain a greater yield in farm fish ponds. The entire project is, of course, educational and one of the most important benefits will be the training and education of young men to carry out Oklahoma's wildlife research and management programs in the years ahead.

When the laboratory is completed the program can, of course, be expanded greatly, for it will be possible then to have research equipment and personnel on the shore of the lake which is available now only on the Norman campus.

Looking to the future, many problems are being lined up for investigation. Some of our biologists interested in human parasites, especially those which transmit malaria, are planning studies of malaria at the Lake Texoma area with reference to hazards to fishermen and methods of control of malarial outbreaks.

Other of our scientists are interested in the commercial possibility of using rough fish. Some work has already been done in methods of using rough fish for table use—fresh, canned, pickled, smoked and dried. Other studies involve the use of rough fish such as shad, carp, gar, etc., as fertilizer, as fish meal for stock food and even as food for pets. Enough information is now available to indicate that rough fish in Lake Texoma might provide the basis for a small industrial development and such development would, of course, be favorable to Oklahoma fishermen, for the taking of the rough fish from our lakes would make it possible for the game fish to develop in greater abundance.

Another project that will receive attention is the effects of climatic factors such as wind direction, barometric pressure, humidity, moon phases, etc., on fishing. That such climatic factors do affect the success of fishermen is rather generally admitted, but very little is known as to why and how these factors exert their effects.

The information obtained from the investigations now being conducted and planned for the future on Lake Texoma will be made available to the public in various ways—through publication in scientific journals; through publications of bulletins and pamphlets for distribution to those interested; and by the conduction of short courses on lake management, especially short courses on farm pond management. When the new laboratory is completed, facilities on the shore of the lake will be available for these short courses.

It is conceivable that the development of the new Biological Laboratory on the shores of Lake Texoma may be one of the most far reaching and significant educational developments in recent years. Certainly the project illustrates how a generous gift supplemented by State funds can lead to benefits far beyond those anticipated by the giver.
