The Republican state platform of Oklahoma pledges the party to make "education the single purpose of state educational institutions." It favors "the creation of long term boards of regents who shall be removable from office for sufficient cause only and are entirely free from partisan or selfish domination."

It demands the "enactment of laws that will fairly, economically, and permanently extend the aid of the state to weak school districts in order that the blessings of educational opportunity may be made uniform throughout the state, and that every child may be given the greatest educational advantages."

Upon this platform the following Republican candidates solicit the suffrage of the voters of Oklahoma:

FOR JUSTICE OF THE SUPREME COURT
To be voted on throughout the State
JAMES B. CULLISON, Enid, Third District.
CHARLES SWINDALL, Woodward, Fourth District.
THOMAS G. ANDREWS, Chandler, Seventh District.

FOR JUDGE OF THE CRIMINAL COURT OF APPEALS
To be voted on throughout the state
WILL H. CHAPPELL, Pawhuska

FOR CORPORATION COMMISSIONER
(To be voted for by districts)
E. R. HUGHES, Oklahoma City

To redeem Oklahoma state government from its present public disrepute, to insure honest highway development and efficient administration it is important that the political control of the present state administration be broken. Republican candidates for legislative and county offices offer that relief. Vote for them.

FRIENDSHIP FOR THE WEST
PROGRESS FOR THE NATION

"The spirit of democracy can survive only through universal education... Not only must we give each new generation the ideals of democracy, but we must assist them to an equality of opportunity through fundamental educational equipment."

—from an address by Herbert Hoover before the National Education Association

WHY WE WANT Hoover
"Because he does not talk politics. He lives statesmanship."

—Mrs. Thomas G. Winter, former President General Federation of Women's Clubs

"Because Hoover is the man we need today to clean the way for what I believe will be the greatest industrial development the world has ever known."

—Henry Ford
