Preview of Football Events

GENERAL INFORMATION: Game time for all O.U. games, home and away, is 2 p.m. (CST) except North Carolina game, 1 p.m. (CST), and Missouri game, 1:30 p.m. (CST). Tickets are available for all games except Texas game.

FOOTBALL LUNCHEONS: Continuing the policy of past years, day-of-the-game football luncheons will be held for alumni and their friends in the Union Ballroom for each home game. Cost per plate is $1.25. Service begins at 11:30 a.m. and continues to 1 p.m. No speeches are delivered and informality is the theme. The luncheons are offered as a service feature of the Alumni Association.

SEPTEMBER 24: O.U. opens its football season against the Tar Heels of North Carolina at Chapel Hill.

OCTOBER 1: Sooners open home schedule against Pittsburgh. Game is expected to be one of the most interesting of season.

October 7: The Oklahoma University Club of Dallas will stage its annual pregame party for alumni in Dallas for the O.U.-Texas game. It will be held in the Crystal Ballroom of the Baker Hotel. Blue Barron and his orchestra will play. It’s a dinner-dance with service beginning at 7 p.m. and continuing “till you give out!” Tickets are pegged at $750 each. A limited number of tickets are available. Reservations should be made in advance since previous parties have been sell-outs. Orders may be made by writing the Alumni Office, University of Oklahoma, and enclosing check to cover number of reservations.

October 8: Texas Coach Price says his team is going to make a comeback this year. Always rough, Texas figures to give O.U. a tough afternoon in the Cotton Bowl.

October 15: Kansas will be at Norman. The game is the featured attraction of Homecoming. Traditional house decorations and other campus events will add color to the proceedings.

October 22: The team that is considered most likely to give O.U. its most severe Big Seven test, Colorado, will be in Norman. Date is also Dad’s Day.

October 29: Sooners meet Kansas State at Manhattan.

November 5: The Missouri Tiger is host at Columbia.

November 12: Iowa State plays at Norman. Date is also Band Day at O.U.

November 19: O.U. meets Nebraska at Lincoln.

November 26: Date of traditional end-of-season battle of Oklahoma teams—Oklahoma A&M at Norman.
signed to the Fifth Air Force Headquarters, Tokyo, Japan. He served on the air science faculty at O.U. during the past year.

PAGE 27
Wayne Greenlee, who has been switched to fullback after a sophomore year as guard.

SUMMING UP: Line is strong from tackle to tackle: good end material is a little short on experience; capable performers at three backfield spots who may need a bit more seasoning, and a question mark at fullback. Team should be a good ground unit in the Wilkinson tradition. With Tubbs calling defensive signals, line should be tough, excellent line-backing by Tubbs, and adequate secondary defense.

On 10 consecutive Saturdays, opponents will attempt to batter their way to a win over the Sooners. How good is the O.U. opposition? Unless some coach comes up with a near miracle, Pittsburgh, Texas, Colorado and Oklahoma A&M figure to give the Sooners their strongest competition. Off their showing in recent years, Texas and Colorado seem the most formidable.

Texas Coach Price says: "We look to 1955 as an opportunity for a comeback, and we are pleased with the way the boys are facing the challenge." He has seven of last year's starters available. In addition, Texas has one of the most highly rated quarterback prospects in the nation moving up from the freshman squad. He's Walter Fondren. Lettermen are available at every position.

Colorado looks tough as usual. Twenty-seven of thirty lettermen return. Every line letterman is back. Frank Bernardi and Carroll Hardy have been lost, but backfield prospects appear good. Line that was all new last year has added experience. This game should decide who wins Big Seven title and trip to Orange Bowl.

Pittsburgh has a new coach but lots of experienced performers. Every starter is a letterman and seven more are available for the second unit from the team that trimmed Navy 21-9 last year.

Oklahoma A&M has a new coach, Cliff Speegle, 41ed, and a new line. Back for his senior year is Earl Lunsford, outstanding fullback. Lack of experience may hurt in early stages of season, but should be gained by time A&M plays O.U. in last game of the season.

All the other teams will be pointing for O.U., which usually means they play their best game against Oklahoma. Missouri will prove tough in Columbia, but the other opponents—North Carolina, Kansas State, Kansas, Iowa State and Nebraska—don't figure to beat Oklahoma.

SUMMING UP: Texas, Colorado and Pittsburgh will be the BIG ONES. O.U. has advantage of playing on home field for the latter two. Oklahoma A&M and Missouri could provide real threats.

This is the way the season looks to one paper quarterback. It looks considerably different to the coaches, who prefer to play one game at a time, and the team. Now they're getting into shape, doing the hard work that makes a winning team, and trying desperately for a place on the team. There is little glamour on the practice field.

The Change Is Welcome . . .

Continued from page 17

somewhat less dogmatically hidebound by the predestinarian Marxist dialectic, and perhaps feeling none too secure in their seats of power: then the switch in policy is understandable.

To be safe we must continue to act on the hard lesson we have learned at great cost—that no mere paper agreement with Russia can be trusted. Agreement can be based only on the confidence of each side in its own defense establishment. This is of course precisely the operating basis of the stalemate of the past ten years in great power relations, so the suggestion that it must continue as the basis does not introduce any startling or novel idea. What is new is rather a tendency on each side to concede that the other may conceivably be mainly interested in defense rather than aggression. In measure as this tendency grows—if it does—more substantial progress may eventually prove possible.

The topics on which such progress may be first tested are those delegated to the foreign ministers conference. These include the questions of German unity, a security pact for Europe, disarmament, a partly demilitarized zone along both sides of the Iron Curtain, and the exploration of ways to eliminate barriers to free communication and peaceful trade between East and West.

Of these items, the German question will most likely be the key. Intrusiveness on that will be the significant line to watch in future negotiations with the Russians, for without a German settlement the remainder of the agenda will be meaningless.

Disarmament must be linked inevitably with security. No state can be expected to let down its defenses unless certain that the defenses which remain are adequate. The proposal for a semi-demilitarized zone is a happy semi-solution to this age-old dilemma. No complete answer, it nevertheless would carry the assurance that each side would retain unimpaired quantities of forces, but with reduced positional advantage for provoked aggression. There would also be markedly less danger of unintended but inflammatory incidents at the borders of East-West power.

A less obvious trend in world politics pointed up at Geneva is that away from the bipolarity which has been the basic pattern since World War II. By bipolarity is meant that the world has been dominated by two and only two centers of power—Russia and the United States. Factors which created the pattern included the tremendous increase in American and Russian power during World War II, the defeat of four of the prewar seven great powers (France, Italy, Germany, and Japan), and the ideological conflict between our western liberal democracy and Russia's totalitarian communism. The bipolar pattern was new in modern history: it gave us a new type of balance of power, in which there was no room for diplomatic maneuver. An obvious result was the complete stalemate in negotiation of a peace settlement for the war, as well as a deadlock in all major United Nations attempts at working out specific plans to implement the high promise of its Charter.

For about a year signs of a breakup in this bipolar pattern have increased. Governments other than the two superpowers have become steadily more important. In the summer of 1954 the first major settlement of an East-West issue was reached without American initiative or active participation—the Indo-China agreement. The plan for German admission to the Western European Union and to NATO was worked out mainly by Britain and France, and was a substitute for the long-pending American plan for a European Defense Community. Much of the early spadework and almost all the early enthusiasm for the summit conference came from Britain and France. New major independent powers have emerged in Asia, and evidence of independent policies on their part was supplied by the Bandung conference. Germany and Japan have all but completed the process of reestablishing themselves as major factors in world affairs. The force of neutralism operates as an additional restraint—dominant in much of Asia but important even in such countries as France, Germany, and Britain, where though minority opinion it must be weighed by responsible govern-
