Miss Hawk succeeds Homer R. Heck, '35, who resigned to accept a position doing dramatic productions for N.B.C. in Chicago. Before returning to Norman, she was employed in the Office of War Information in Washington, D.C., helping with the government's wartime programs.

Miss Hawk attended the University for three years, majoring in drama and English. Her first radio experience in writing and acting was obtained in the WNAD studio. After leaving the University she attended George Washington University where she took special work in creative writing.

The following year she concentrated on free lance writing and acting for radio in Washington, wrote a number of dramatic shows for the National Education Association program broadcast over N.B.C. In 1939 she joined the N.B.C. staff in Washington and continued until last March when she was "drafted" by the Office of War Information (then the Office of Facts and Figures).

**Time Lauds President**

Accomplishments of President Joseph A. Brandt during his first year as head of the University were described as "extraordinary" by *Time* magazine which devoted a 500-word article to O. U.'s chief in its October 26 issue.

The magazine made particular mention of the president's University College plan for giving two years of liberal education before specialization is undertaken and to his belief that colleges should be places where students learn to think.

*Time* also told of President Brandt's informality—how he invited students to his office; how he worked in his shirtsleeves; how he used his own typewriter, and how he smoked about the campus hateless and with a pipe in his mouth.

**Entertainment for Soldiers**

Organized student groups went into action this fall presenting concerts, shows and programs for presentation at the bases.

**Time Film Sessions Planned**

A collection of Russian war posters was on display last month in the Art Building. Consensus of students and faculty members who saw the exhibit was that the Soviet posters were more gruesome and displayed more intense hatred for the Axis than war posters by U. S. artists. One showed Hitler as a huge beast feeding on human bones. . . . A five-point war program for artists was outlined by O. B. Jacobson, director of the School of Art, in a lecture. In order to be of service, Mr. Jacobson said, artists can enter actual military service, carry on art work in war industries, participate in war camp entertainments, specialize in propaganda material or help in the post-war reclamation.

Because of the tire and gasoline situation, the annual fall meeting of the Oklahoma Interscholastic Press Association at the University was canceled. Instead the association purchased a $100 war bond with the treasury surplus and membership dues, Grace Ray, secretary-treasurer, announced. . . . To replace intercollegiate debating activities at O. U., a number of student discussion and forum groups were planned as well as an intramural debate tournament.

Night classes in Spanish for sailors stationed at Norman and townspeople interested in learning the language have been organized at the University. Those in these classes are W. E. Chapman, former U. Students in the Naval Reserve Officers Training Corps live in a big white house "for Navy men only" in the same block as President Brandt. Signaling equipment, blackboards and desks are available for study and the entire house has taken on a Navy atmosphere.
