Delegates attending the first annual Air Age Education conference at the University of Oklahoma on April 11-12 heard Philip S. Hopkins, nationally recognized authority on aerial education, discuss “Current Air Age Education in Colleges” and “Training Needs of Teachers.” The meet was held on the North Campus.

Air Education Associates speak at O.U.

Aviation programs for state high schools and colleges were mapped the day before the conference. In addition, exhibits of air education, materials and films were shown and working models of important airplane mechanisms were displayed.

Dr. William F. Osburn, professor of education at the University of Nebraska, and Dr. S. E. Torsten Lund, professor of education at the University of Oklahoma, were on hand to present the United States Air Force's current program for education in the air.
