some crops, cultivating, this year, about two hundred acres of land.

Having now brought to a close this account of my life among the Indians, it remains only for me to say that I left the Wichita Agency on the evening of the 18th of the 7th month, for home, by the way of Caddo, and was favored to make the journey in nine days, reaching there on the 27th, where I found my family well, and we mutually rejoiced in being thus favored to meet again.

My story is told. My faith in the efficacy of a true peace policy in treating with the Indians is unabated. While it may be urged that it has proved a failure, the preceding pages will sufficiently show that the peace policy has not in all cases been carried out in the true spirit of peace, from the fact that our nation has not had sufficient faith in it to give it a perfect trial, but, while offering peace with one hand, has grasped the sword with the other.

Interested parties have not been wanting to keep the public mind in agitation against the Indians, by reporting deeds they have never committed; and, on the other hand, spreading among them stories of bad designs and intentions, on the part of government, towards them, which were never entertained. Until the pure principles of love and peace are recognized as the essential elements for Christianizing and civilizing men, a pure peace policy will not be likely to be inaugurated by the government, or sustained by the people.
