

on our way home we stop on  
a white fellow trapping camp  
and I sleep with this wound boy  
in side the house and the other  
Indians with us is sleep outside.  
and about daybreak one of the  
Indians come in and told me that  
the others are steal lot of grubbs  
and some furs. so I come out  
and scold them so they got  
mad and left me alone.
