

The Rees say that once when the Dakotas were attacking their town a Ree named Bull Head was knocked down and stunned, but before the Dakotas could kill Bull Head Sitting Bull ran up and stopped them and saved Bull Head's life. They say this was because Sitting Bull and Bull Head both belonged to the New Dog secret society. When did this happen? I would like to know what other Dakotas were in this fight. Was Sitting Bull chief of the New Dog society? When did he join this society? What was the society?
