

page 1.

I have heard that Four Horns was chief of the Icira band of the Hunkpapa Sioux. Is that right? What does the name Icira mean? Do you know when Four Horns became chief of the Icira band? Was he a chief of any other kind?

2. In Lone Dog's Minniconjou Calendar, there is a picture of a man with four ~~horns~~ horns and a calumet for the year 1856. They say this means that Four Horns was made a calumet or medicine man in that winter. I do not understand this. What does it really mean? The book says that this was a great honor and a bigger honor than being chief. I would like to know what the truth about this is.

3. Your calendar says that Four Horns did not return in ~~1856~~ 1840. Do you know the whole story about this? I would like to know. From what they told me, I believe Four Horns raised Sitting Bull, or helped raise him. So I have to know something about Four Horns, too.
