

was his name?

This will be a little different answer I'll make. I met a man named Crawling coming home with a bunch of horse. He came on home and I went on.

My friend I wish you would tell me what honors your father had? How many times he struck the enemy, how many times he had a horse shot, how many times he was hit, and so on. People will want to know something about your father, Makes Room, because he was your father.

My father was never hit so as his horses. He capture horses only two time, one time he capture 11 head and the other time he capture 1 head. He strick Enemies 9 times, after this he was ordered to stay home and take care of his people because he was one of the famous chief, so he did.
