

White Bull

I was glad to get the pictures of your horses. Are those horses you used to have, or ones you have now? *yes*

How many have you got now? *What I see now is 25 head it should be more but that's all we see lately.*

How many horses is the most you ever had at one time?

*at one time I had 111 head*

How old were you when you had all those horses at one time?

*at the time I was 51 years old,*

I had a running horse at the time she was called 7 miles, at one time they had a three mile race but my horse 7 miles took the first prize. Another time they had a two mile race, my horse 7 miles took the first prize. This is one of the horses I raised.

My friend, I think I have filled out your questions you wanted. For further information I like to ask you to ask me any mistakes or mis understandings I made, willing to correct my mistakes.

Your friend Joseph Chip White Bull
