

W.B. heard guns shooting and he was in a hurry and he was going to scalp him ~~and~~ while he was alive and hurried. The man seemed to be a young man. He ran so fast. The other man was running on the other side and Crazy Horse was trying to catch him but the one man was the only one left.

They got 2 out of the 5 horses. The ~~spine~~ from the port chased them and was about to catch white bull when his horse play out.

W.B. got off and started on foot and one of W.B.'s friends came after him and they both ran on the one horse but Thunder Bull thought

his horse would play out so ~~W.B.~~ got on another horse after he walked a while and Bull Head - Tonka Pa had a good horse and took him fast.

The horse was a black horse. ~~A~~ Bow's arrow was all the help the W.B. had. The medicine he had was given  $\rightarrow$  back to the man. He had no medicine. He wanted to go so badly he went with out medicine.

W.B. said "if he had medicine the horse would have never played out".

The older men had been all over this country and they knew where the enemy were. - W.B. did not ask who "were".

The scalp was about 2 in. square the hair was short on it.
