W. B. does not know who started this but about 500 went on the trip they reached the place at night about the mouth of the Arrow R.

Runs against Feather Earring -

[Runs against was dead, With Horn took the man Runs against these are the only two relatives that went. They reached the camp before morning and they started the fight in the morning.

When they went to the camp the soldiers wanted to hold the men together but W. B. sneaked out and met another man that sneaked out and had some horses

and W. B. tried to get in but in the mean time the ~~the~~ rest of the party got there the way W. B. heard about "Crowley" he was always slipping away from the band and getting horses first before the fight the Medicine Man gave W. B. some medicine the man was there with his boys. & they wanted to show they could not be killed so they made 3 circles each time coming closer & closer so S. B. turned them back and there 4 men shot but the bullets did not go thru - this was caused by the medicine the medicine man was Hong Holly. W. B.
