

These were the men who had the medicine.

They sang a song,
nobody holy besides me
The sun read so the rock read
so
He gives me this medicine
so read so.

song

Soldiers

This enemy were soldiers
This must be a fort because there
was houses there. W.B. did not
look for a flag.

They were fighting outside.
The soldiers were on foot
there were about 400
soldier. There were
no signs killed.

W.B. does not remember what
all S.B. said but he told them
to go back that he did not
want any more men killed.
The medicine man

W.B.

did not like this and said to S.B. that he brought the men here to fight, but if they wanted to quit they could so W.B. was the 1st to obey S.B. orders.

The men keep on riding when they are shot they only say I am shot and when they get back to camp everyone sees the man that was shot through the neck was wearing red against the orders of the M.D. man and the red was the string on his powder horn.

talked to him

This man got well and the medicine treated all the men that were shot (The medicine man told his men not to wear any red.)

The men did not see the medicine but the man went anywhere and scraped.
