

This is the 1<sup>st</sup> time ~~long~~ Holy made medicine and W.B. did not pay for it, there was a way to get it however if they would get ~~a~~ a horse or something they would give that for med.

S.B. got W.B. to quit after they came back from the battle and they were going to move down here for a while and there was too many orders. (motive)

W.B. knows of know one to get hill but the long Holy way

W.B. dose not remember who was the Med Man was at St Benit

W.B. was expecting to be hit or his horse in this battle and the med kept him from being killed

W.B. in battle

One of the hardest thing S.B. ever did was - W.B. peeped over the hill and S.B. was down the hill and ask if any one would come down and smoke and two went down there and the W.B. went down and there was an man riding a horse in a circle in front of the camp between the enemy and smokers and his horse was shot from under him three were Cheyenne Indian and W.B. It was Long Eagles horse shot from under him ~~and~~ W.B. sit there with his head on his knees and eyes shut and the horse was kill right in front of the smokers and the bullets were coming directly around after they smoked they ran back
