

and that all you're made for to fight."

while he said this SB kind of motioned me aside & I look up & all those infantry lined up all from around West & almost around me & SB told Hi Bear to raise up & holler to Ind to line up like sold did, from end to end, so the Ind string out. at this time Gen Miles hold his head up & look around see all this & I look up at his face & he has an angry face &

miles "SB why is it your boys line up like this for?"

SB, "your boys are line up first so I line up mine last & I don't like to start a fight but I line up your sold as sign & want to fight me again therefore I line up my Ind to be ready."

miles "SB, you bunch up your boys."

SB "you're the man that line up first and you close up your line first then I close up mine."

when he said this miles sent officers back to where they line up then the sold all bunch and go back.
see p 105

SB, to Hi Bear, "Bunch up Ind, again where they started from"

miles "SB, which way do you go from here?"

SB, "I haven't had any meat so I will make another hunt then I will go where to go."

miles, "SB, I wish to take some of your people who are unable to run around who come from mouth of Tongue River back with me & the rest can hunt then they can come back to the other bunch and be all together there, now"
