I was told that Sitting Bull was made chief when Four Horns gave up his place
as chief. When did this happen? Where? What is the Sioux name for this kind
of chief?

Sitting Bull was a war-chief when he gave orders to *Slohan*
or *Crawler* & *Talot ienwa* to go get a white woman who was a captive
in the hands of *Ota-awa-a-hi*. Brings plenty. He would let give her up
so *Sitting Bull* went with them, & led her out by the hand, and he gave her a
horse to ride. *Wanbli-kte* took her back to the white people. It was the same
year he was made chief by *Four Horns* & *Ne-luta*, *Scarlet Horn*, *Tatoka-in*
Yankke, *Running Endlope*, *Cetan*, *Hotanka* *Soud Hawk*. The four Sioux chiefs placed
Sitting Bull as a Supreme Chief of the Sioux Nation.

I want to be sure to tell the truth in my book. That is why I want to know
just when *Sitting Bull* became a chief of each of these kinds, and which came
first.

Was he first Fox chief, then chief of the Midnight Strong Hearts, then War Chief,
then chief in place of Four Horns? Or what was the right order?

He was first chief of the Mid-night strong hearts 57

and then chief of the Fox Society 74
