

My father just returned from staking his horses out and Sitting Bull was in the council teepee when the soldiers arrived and start shooting. Just then Fat Bear announced that a boy was killed by the soldiers. His name was Wicohan-la

I forgot to ask just where Sitting Bull's teepee stood in that camp on the Little Big Horn. I have heard it was west of the River. Is that right? Yes. Did the Hunkpapa Indians make their camp in a circle? Yes. On what side of the camp was Sitting Bull's tent? Southwest. What other men had tents near his tent? Who were the chiefs in the Hunkpapa camp that day. Please on the back of this paper, too.

Four Horns, Crawler, Long Bull is all he could remember that camped close to his teepee. Sitting Bull, Four Horns, He-luta are the chiefs in Hunkpapay camp.
