

It is possible that ~~SankinaxBux~~ Sitting Bull may have been wounded in this engagement, rather than at Killdeer. They both occurred close together and my informant may have been in error.

I have worked long and toilsome hours during the past winter. We have a regular book store now and I am taking care of the rare end. Within three months I have given over thirty talks on various historical and ethnographical subjects to various organizations.

With high personal regards,

I am,

Very sincerely yours,

*Lewis F. Crawford*
